Overall Progress Narrative:

IKE DOLLY (B-08-DI-48-0001) QPR Q3 2013 &ndash 7/1/2013 &ndash 9/30/2013

During the 3rd quarter of 2013, the Texas General Land Office (GLO) Disaster Recovery (DR) Program budgeted $185,052,177, obligated $185,056,370, and had draws totaling $72,129,886 on 1360 activities. The reported expenditures of $70,337,336 were based on drawn amounts as well as the result of adjustments made to prior periods based on reconciliations that were performed during the quarter. Total expenditures to date are in line with draws to date and total $1,110,205,983. The GLO has already exceeded the Low/Mod National Objective target by $722,764,484 or 47%. The DR program has awarded 98% of its 2ndround of applications, while Round 1 grants continue to be closed out.

HOUSING ACTIVITIES:
The housing team focused this quarter on providing technical assistance for Round 2. This assistance was concentrated on income eligibility, Homeowner Opportunity (HOP) counseling, HOP participant title clearances and HOP real estate transactions. GLO issued guidance in September on income eligibility determination based on applicants Adjusted Gross Income or guidance known as AGI. The GLO is creating training materials and portals for the subrecipients. In addition to the technical assistance efforts, one non-rental single family home was completed during the reporting period and it is anticipated that 3 non-rental contracts will commence rebuilding of homes by the end of the quarter.

During the reporting period, Round 1 multifamily rental construction was completed on 21 of 23 Projects (2 remaining for Harris County) which resulted in 90% of the proposed units being completed. Additionally, under Round 2, 7 of 12 subrecipients have awarded projects for allocation, of which, 22 project applications are submitted to GLO and are in the approval process. Also in Round 2 one project (36 units) was approved and construction completed (Baytown Alexander Place).

Per the Action Plan, Texas has committed to spend $342,521,992 in affordable rental housing. The action plan and amendment 1 identify an allocation amount of $362,436,830. As of the 3rdquarter of 2013, Texas has awarded

$382,178,003 in affordable rental housing grants of which $120,991,459 has been expended.

NON-HOUSING ACTIVITIES:
During the reporting period, the Round 1 Non-Housing activity consisted of closing an additional 8% of Round 1 subrecipient contracts for a grand total of 61%. The remaining 39% continue working toward completion. Of the 61% completed contracts, 48% have been closed in DRGR and the remaining 13% are in the process of being closed. Bids have been awarded on nearly all projects with construction underway on most.

During the reporting period, the Round 2.1 Non-Housing activity consisted of subrecipients working toward completion of their projects. 60% of Round 2.1 project sites are now in construction and an additional 2% were completed.

During the reporting period, the Round 2.2 Non-Housing activity consisted of awarding nearly all subrecipients. Engineering and environmental service providers are progressing on projects (under state issued work orders). 13% of the sites approved are now in

DREF: Category C Portion Residential: Houston has 34,275 residential properties and 2,676 non-residential property as defined by USGS National Land Cover Database 2001 and application information. The residential factor was divided by the total of residential and non-residential for a ratio of .9276 residential benefit. The term &ldquoresidential properties,&rdquo for this purpose, may include parcels, acres, and/or structures as available through the data sources utilized for mapping purposes. Portion Improvement: The data gathered from applications and contract performance statements identified grossly undersized and/or nonexistent drainage facilities. Based upon project descriptions and engineering estimates, the increase in capacity above and beyond baseline reconstruction requirements was greater than 80 percent. It was determined that the percent of improvement corresponding to base reconstruction was 14 percent and the risk-reducing expansion was 86 percent.
Combined Ratio: .89
