Feldnotes 160 acres

Benj Green

Filed March 21st 1870

affdvt attached

Seems to cover J. M. Chapman's survey S-363 and as the S. part of A. G. Hargraves survey conflicts with the N. part of W. Blake's survey and this survey begins at the N. E. corner of Blake survey running north the N. W. corner of this survey can not intersect the S. E. cor. of said Hargraves survey, besides ther is not space enough between Fullers and said Hargraves survey to locate this on April 20/70
