Project Description (15 points) Project description is limited to 4,000 characters.

The project description should be concise and flow smoothly. It should include a description of the issues that CMP funding will address, the steps to accomplish the project and how success will be measured.

Applicants submitting land acquisition projects should provide sufficient detail for the CMP Review Team to evaluate the likelihood of a successful transaction within the time frame of the grant. These details should include a description of the tract of land, an indication of the willingness of the seller, and the length of time the willing seller is committed to holding the property.

Applicants submitting research projects should describe the project's objectives in laymen's terms with emphasis on research applications, relevance, and value to coastal managers and the general public. In addition, information should be included describing coordination efforts with local, state and federal agencies. The uniqueness and significance of the study should be clearly described as well as the contribution and impact the study will have for ongoing research.

For phased projects, applicants must provide an overview of the entire project then describe the specific phase for which funding is sought.

General Criteria *Each response is limited to 2,000 characters.*

1. Provide a thorough description of how the project will implement CMP goals and policies. The goals and policies are listed in Appendix D. (15 points)

2. Describe how the project will impact or benefit coastal natural resource areas (CNRAs) and/or associated coastal resources at the project site. Describe in detail the indirect and direct benefits to CNRAs and/or associated coastal resources. Benefits may include protecting, restoring, or increasing public appreciation and awareness. Appendix C of the guidance document provides a list of CNRAs as defined in the Coastal Coordination Act. (15 points)

3. Describe how the project will implement a previously approved local, regional, state or federal plan (e.g., Local Parks Master Plan, The Galveston Bay Plan, The Coastal Bend Bays Plan, Texas Wetlands Plan, Gulf of Mexico Strategic Plan). Explain how the project will lead to the development of a new plan or improved management practices. If the project implements an existing plan, please identify the plan and explain the relationship between the project and the plan. (5 points)

4. Describe how the project fulfills a public need/benefit. Describe how the project will fill information/data gaps and further local, state, and federal agency initiatives. Explain how the end user will gain awareness and understanding of the project results for usability and implementation. (10 points)

5. Describe the direct or indirect economic impact of the project. Summarize and reference any available documentation (i.e., studies, survey results, etc.) that support this description. (5 points)

6. Summarize project support and commitment letters received from local citizens, local governments, elected officials, established community organizations, or state/federal resource agencies. (Support letters should describe the impact/relevance the project will have on the area, be signed by an executive of the entity, and be included with the final application.) (5 points)

7. Describe how your entity plans to ensure the project's long-term success and self-sufficiency (e.g., maintenance plans, future enhancement plans) after contract funding expires. Provide an estimate of future operation and maintenance costs and/or describe if future enhancements are planned. Describe potential alternative funding options for future iterations of the project and steps that will be taken to ensure the project becomes independent of CMP funding. For continuation projects, estimate the length of time needed to achieve self-sufficiency. (5 points)

8. Summarize your entity's history with administering state/federal grants. If your entity has previously received CMP grant funding, list the name of the project(s) and the grant cycle(s) funded. If your entity has not previously received state/federal grants, provide information that demonstrates how your entity is capable of administering this project. (5 points)

Note: Score will also be based on reviewers' knowledge of the entity's grant history.
