Coastal Resources Funding Application

State Senator name(s)/district(s) where project is located:

State Representative name(s)/district(s) where project is located:

US Congressional Representative name(s)/district(s) where project is located:

Project Type (to select multiple types, hold Ctrl and click options):

Selected Project Type(s):

End Point Erosion Rate at Project Site (feet/year):

If Other, please describe:

Note: Historical average erosion rate data for the Texas Gulf-facing shoreline is found in the Texas Shoreline Change Atlas, published by the University of Texas at Austin Bureau of Economic Geology at <https://coastal.beg.utexas.edu/shorelinechange2012>. Please select the 1950 - present date range.

Does/will the applicant have legal access to/control of the project, or the necessary easement access agreement during the duration of the project (i.e. coastal lease easement, etc.)?	Yes	No
Does the project incorporate beneficial use of dredge material (BUDM)?	Yes	No
Is the project on Federal land?	Yes	No
Is a sand source identified for beach nourishment? If applicable, provide a permit application number in the "Project Permitting" section.	Yes	No

Coastal Resources Funding Application

Funding Summary:

Total Funds Requested (\$):

Partner Federal Match (\$):

Partner Non-Federal Match (\$):

Total Project Cost (\$) (Calculated Field):

Are additional funds being sought for this project? Yes No

Sources of Funding Match:

Funding Source for Match	Cash Amount	In-Kind Amount	Is the funding committed for the biennium? (Y/N)	Funding Availability Date (mm/dd/yy) Ex: 02/02/18	Funding expiration Date: (mm/dd/yy)	Other Constraints (describe)
			Y N			
			Y N			
			Y N			
			Y N			

TOTALS

**** For each funding source indicated as committed in the table above, include a signed funding commitment letter or other documentation on the funding organization's letterhead substantiating the commitment of funding and/or in-kind sources. This documentation should indicate each approved funding amount; funding availability date; funding expiration date; and other constraints, if applicable.*

Project Permitting:

List all required federal, state or local permits and leases that have been or will need to be acquired to undertake the proposed project. If there is an existing permit and/or lease, please indicate the expiration date.

Permit/Lease Type	Existing Permit/Lease? Y/N	Estimated Date of Receipt (mm/dd/yy) Ex: 02/02/17	If existing permit/lease, expiration date	Who will obtain permit?

Coastal Resources Funding Application

Project Narrative:

Provide a clear overview of the project including a description of the problem this project will address, steps to accomplish the project and desired outcome(s)/benefit(s). Benefits may include protecting, restoring or enhancing public beaches, coastal property and coastal natural resources and/or reducing losses to public resources and infrastructure.

Please provide the following additional detail, if applicable:

- proposed project dimensions including acres/linear feet to be restored
- how project costs are reasonable relative to expected benefits
- details on known or anticipated permitting/regulatory issues
- potential project delays due to permitting time lines, tourist or nesting windows and other environmental concerns
- detail on how post-construction monitoring will be conducted
- for BUDM or borrow source projects provide location, owner, cost per cubic yard, available volume, permitting information, restrictions

Coastal Resources Funding Application

Describe the strategic significance and priority of the project including how the project will implement an existing local, regional, state or federal plan (e.g. Texas Coastal Resiliency Master Plan, coastal non-point source pollution, erosion response plan, Galveston Bay Plan, CBBEP, GOMA Strategic Plan, NRDA).

Describe whether this is a phased project and provide a description of the phases that would extend into the future funding cycles. If applicable, describe how the proposed phase(s) will be completed within the funding biennium or other period in which funds are available. Include a brief task breakdown and time line.

For Gulf-facing beach nourishment projects, describe how the project will comply with the local beach and dune protection plan.
