Fax (361) 552-6062

GLO Contract # 07-005-16
 (Fishing Pier, CMP Cycle 11)

The City of Port Lavaca is nearing completion of fishing pier improvements at Lighthouse Beach Park. The construction is intended to fulfill the grant requirements of the City's three current Coastal Management Program grants administered by the Texas General Land Office:

- CMP Cycle 11: GLO contract 07-005-16
- CMP Cycle 12: GLO contract 08-017
- CMP Cycle 13: GLO contract 09-039-000-3356

The construction is ahead of schedule, as the rails and pilings are almost complete. The pictures attached to this report detail the 292 feet of pier installed during the current construction phase. Approximately two weeks of work remain; the final steps involve laying the walkway planks and installation of the lighting.

Documentation of expenses incurred has been submitted to satisfy the local match requirements for Cycle 11. Please browse the pictures on the following pages for visual details of the construction progress. The City is on schedule to provide documentation of the completed pier for close-out of the Cycle 12 and 13 grants in August.

292 feet of new construction for Cycles 11, 12 and 13.

The length has been achieved. The walkway planks and lighting remain to be added.

View of construction completed during CMP Cycles 8, 9, and 10. New construction begins at the crane on the barge.

Close-up view of work.
