Dear Sir:- Please find under cover corrected field notes of a piece of school land which I have had surveyed for my account in Harris County. This correction was suggested by Mr Rosenberg of your office after going over a statement of facts prepared by the county surveyor of this County.

I have a sketch on a large scale showing every detail of this entire location, duly signed by the County surveyor and differs only in one detail from the one now on file in your office.

It will be quite expensive to trace the one I now have and I would like to know how your office would look upon a blue print of the original. I do not think it would necessarily be an archive of the office but would simply help Mr Von Rosenberg to arrive at the true inwardness of affairs. If you demand the original I will send it but hope that you will make a blue print do.

With best wishes, I am,

Respectfully, yours.
