This Survey Claims a  
vacancy 40 m wide  
between J.S. Attinger 3-573  
and the West line of the  
McGehee Leagu No 6,

The fdnotes of Said 3-573  
originally called for the  
W. line of Ad Lea # 6. but  
for some reason, that call  
was erased in this office.

The fdnotes of E.P. & Co 5-1109  
indicate that the Ad 3-573  
reaches and corners on Ad  
Lea No 6. as herein claimed

If such a space really  
exists, the Surveyor should

2)

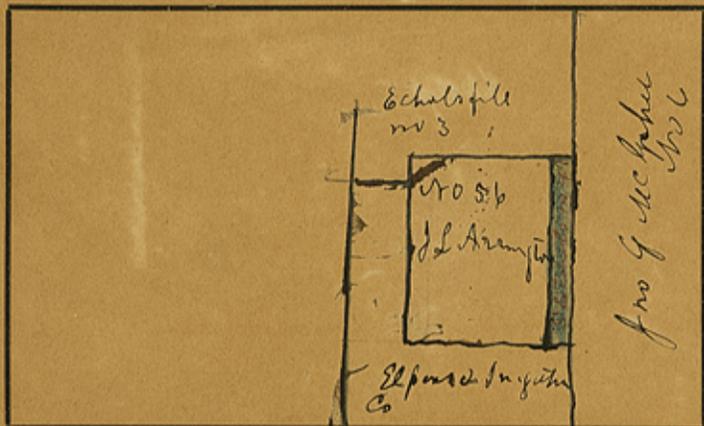

prove it by showing how he established & ran the McGehee sea line, then run a connection on the ground between the N. W. or S. W. corners of said Arrington, both of which have bearing trees, to said McGehee line.

I have no bearing trees at N. E. or S. E. corners of said Arrington as these points would indicate.
