SURVEYOR'S STATEMENT.

In regard to the change appearing in the field notes of the State or vacant land herein described from the notes previously sent to the land office cutting the area down from 428 acres to 404 acres

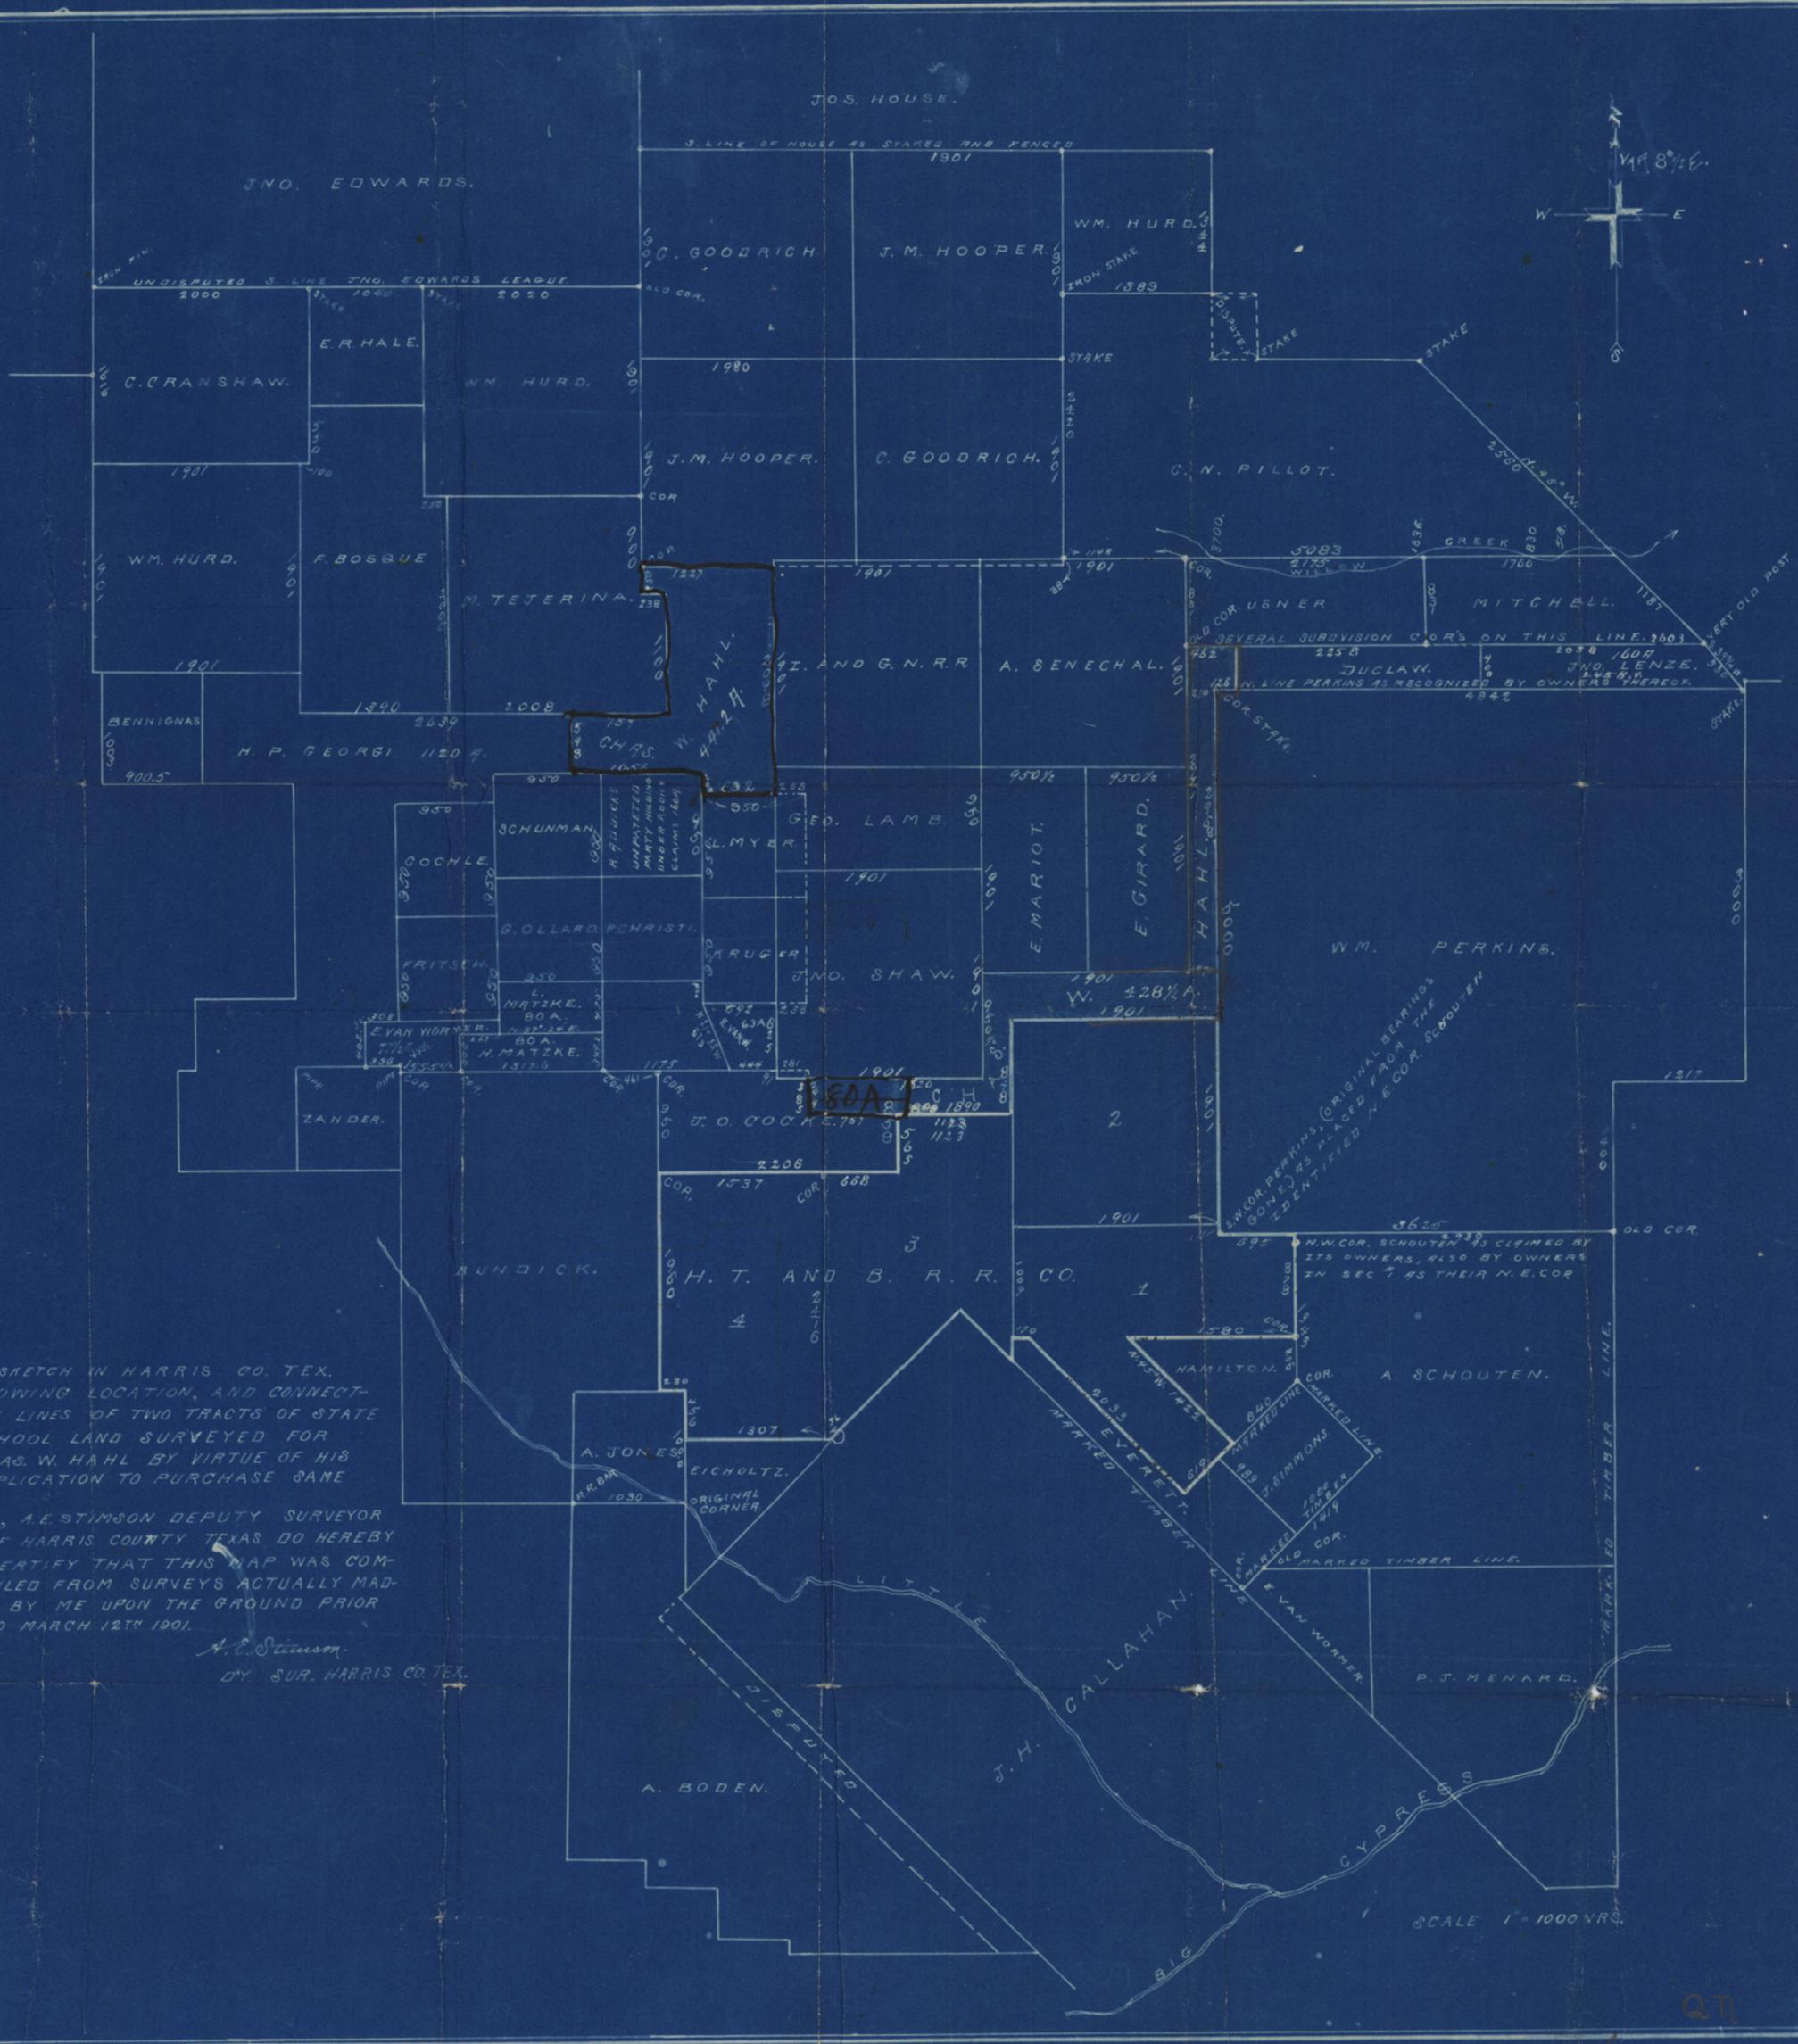

I have to offer as explanation, that in former work or notes the Jun. Lenze, patented preemption and the Duclos claim preemption were shown on map in accordance with the first survey made for Jno Lenze allowing the Lenze S.E. cor to be common with the N.E. cor of Wm. Perkins 241/2 labor Survey. Field notes of which are on file in the land office.

Just prior to the patenting of the Lenze 160 acre Preemption, the field notes were corrected to conform to a suggestion from the land office that S. cor of the E. Smith league be used as S.E cor of Lenze Survey, placing same (Smith S.Cor.) where it is supposed to have originally been on the N. line of Perkin's Survey 350 vrs W. of the Perkins N.E. Cor. from from which point it was floated prior to the patenting of the Mitchell and Usner Surveys. all of which will appear by reference to connecting ~~his~~ lines and explanation furnished the land office in the Lenze Matter.

Respectfully,
