Hon. J. T. Robison,
Commissioner General Land Office,
Austin, Texas.

Dear Sir:-

Relative to W.G. Douglass 2 acre mineral file, my attention has been called to the fact that in writing the field notes of the same the beginning corner is called to be the southeast corner of the H.F. Gillette survey.

This fact called to my attention by your office. Will you kindly correct the notes now on file in your office to read Beginning at the ~~###~~ southwest corner of the H.F. Gillette, ect. in order that the notes in your office will conform to the recorded notes in this office.

Respectfully,

County Surveyor, Harris County, Tex.

Mr. W. G. Douglass,
Cedar Bayou, Texas.
Dear Sir:-

On examination of the field notes of a scrap survey of 2 acres in your name, it is noted that the survey calls to begin at the southeast corner of the H. F. Gillette survey. This was probably an error made in writing up the notes as it is evident that the southwest corner is the corner intended to be called for. You will please have the surveyor to send corrected notes or authorize this office to make the change on the notes now on file, stating that the correction has been made on the surveyor's records. On receipt of which this file will have further attention.

Yours very truly,

J. T. Robison

Dear Sir:-

This is in reference to a survey containing 2 acres made for you in Harris County. This land is embraced in the field notes of a survey made in 1908 for P. G. Omahundra, the final action upon whose file has never been taken by this Department. I am inclined to think that if Mr. Omahundra so desires he has a right to correct his field notes and purchase the land in question. I have written him in regard to it. If he takes no further action within a reasonable time, I will cancel his file, appraise the land and give you an opportunity to purchase it. Mr. Omahundra's address is Beaumont, Texas.

Yours very truly,

Walker/LNC

Commissioner.
