Commissioner General Land Office,

Dear Sir:-

Replying to your favor Nov. 25, 1919 relative to the E.A. Giraud file on 53.3 acres S.F.12235.

In compliance am sending you certified sketch of the work and connections actually run on the ground by me to determine the exhistance of this vacancy.

The whole question hinges on the actual available distance between the East line of the Thos. W. Thompson survey on the west and the west line of the S.G. Haynie on the East, in order to determine if there is between these fixed and recognised lines more distance than is called for in the Moses Merritt and the Henry Levering and the I.C. Stafford surveys.

The sketch which accompanies this letter is made from the actual survey on the ground by me, and shows the lines, corners ect as found on the ground and as recognised and occupied.

With this sketch in front of you it should be an easy matter to determine the justice or injustice of the Giraud Filing.

Copy of this letter goes forward to Mr. Giraud.

Respectfully,

J Baylor
