Hon. Wm. H. McDonald,
Commissioner, General Land Office,
Austin, Texas.

Dear Sir:

W. T. Carter III, of Houston, Texas, has filed an application for Survey with a view to purchase certain lands in Harris County, Texas, situated in the Harris & Carpenter Survey, about 16 miles South 86° East from the County site.

My two sisters and I own a tract of land located immediately South of and adjoining the tract described in the W. T. Carter III Application for Survey, and on April 22nd, 1937, for the purpose of protecting our interests in the event that that area should be found to be a vacancy, I filed with A. C. Stimson, County Surveyor, Harris County, Texas, an Application for Survey with the view to purchase the 280-acre tract of land which we own and on which our ancestors, and we, have paid taxes for over 60 years.

I have been informed that the South line of the Tract on which W. T. Carter III has made Application for Survey, and the North line of our tract are one and the same line.

However, I wish to respectfully request that you do not take any action in respect to the W. T. Carter III Application until we shall have had an opportunity of having our tract surveyed. I am confident that a survey of our land will show our North Line to be the same as the W. T. Carter III South line, but, in order to avoid any possibility of a conflict or misunderstanding, I request that we be allowed time in which to have our tract surveyed before any action be taken on the W. T. Carter III Application.

It would appear that G. E. Hueni has filed an application for Lease of 802.54 acres of land in the Harris & Carpenter Survey, in Harris County, Texas, and that said Application appears to include and cover our land. Under our application for Survey, with the view to purchase, we would seek the purchase of the land under the preference right to purchase given by Article 5421 C, Vernon's Annotated Texas Civil Statutes, and we therefore request that no

action be taken by you in respect to said Application for Lease filed by the said G. E. Hueni. It is my understanding that since we have filed an Application for Survey, with the view to purchase, that insofar as the tract of land filed on by us, if we qualify under the Statute, we will have the preference right to purchase, and that any Application by another for Lease will not be recognized.

Yours very truly,

Hon. Wm. H. McDonald, Land Commissioner
General Land Office

Dear Sir:

In connection with the W. T. Carter III application for patent; this tract has been enclosed to my personal knowledge, for the past twenty years. The property was acquired by foreclosure on a mortgage made in 1928 or 1929 when values were extremely high. Mr. Carter has already paid considerably more than the entire tract is at present worth.

The taxes on the same have been paid continuously, and I have at the present time in my office in Houston a certificate from the Tax Collector that all taxes up to and including 1936 have been paid on this property. In view of the fact that under the description in the patent to the Harris-Carpenter survey, the Carter land is within the bounds of the same, and the further fact that Carter has a regular chain of title from the State and has heretofore paid for said land, it is my recommendation that you make this award at the minimum price within your discretion; especially since the Permanent School Funds under the 1931 Act will receive a one-sixteenth of the minerals therein.

Yours very truly

J. S. Boyles,
Licensed Land Surveyor

HOMER C. DEWOLFE
ATTORNEY
308-307 KIRKWOOD BUILDING
AUSTIN, TEXAS

May 28th, 1937

For Mr. H. McDonald, Land Commissioner
General Land Office
Austin, Texas

Dear Sir:

In connection with the W. T. Carter III application for patent; this tract has been enclosed to my personal knowledge, for the past twenty years. The property was acquired by foreclosure on a mortgage made in 1928 or 1929 when values were extremely high. Mr. Carter has already paid considerably more than the entire tract is at present worth.

The taxes on the same have been paid continuously, and I have at the present time in my office in Houston a certificate from the Tax Collector that all taxes up to and including 1936 have been paid on this property. In view of the fact that under the description in the patent to the Harris-Carpenter survey, the Carter land is within the bounds of the same, and the further fact that Carter has a regular chain of title from the State and has heretofore paid for said land, it is my recommendation that you make this award at the minimum price within your discretion; especially since the Permanent School Fund under the 1931 Act will receive a one-sixteenth of the minerals therein.

Yours very truly

J. S. Boyles
