File 464

Travis 1st Class

Corrected fieldnote

The surveyor indicates by these fieldnotes, & by several plats of other surveys on the old Foot league that the distance from the South line of Eutors Survey No. 52 253 to the North line of the Gervais league is 22 10 varas instead of 1830. this would give the original league survey a length of about 6600 varas & consequently also to the leagues no. 6, 2 & 1 East of this.
