State of Texas }
County of Hays }

To the County Surveyor of Hays County Texas

Sir

I hereby apply for a survey of Ten Acres of vacant and unappropriated land, under the laws of the State of Texas providing for the sale of tracts of land containing not more than 640 acres

Said land is situated in Hays County on the waters of Lone Man Creek a tributary of Blanco River, 16 miles N 44° W from the town of San Marcos, and is bounded as follows, on the north by the Jones Survey N° 106, on the East by the F. Francis Survey N° 5 — on

South by the Jesse Williams 84
on the East by vacant land
This survey is required with the
view of Purchasing the same
land from the State of Texas

(signed)

J. S. Cruz

Mr W. E. Goose
Acting Commissioner
Austin Texas

Yours of recent date, came to this Office, during my absence, hence the delay in answering. In your communication, You say that my explanation does not go far enough. Please (if convenient) overlook my last note, you will find instructions to strike out the Calls for the F. F. Brewer, with reasons given for the same as to the distance, from the S. W. corner of the Singleton, to the intersection of the West line of the Amelia Wilson League N°13, as it now stands on the map, it is 1112 varas, (eleven hundred and twelve) The Wilson was pushed west under one of Bart. Sims' miserably careless mistakes, in recording his field notes, placing the bearings of the South East Corner of the Stephen Townsend N°14, to the N. E cr of N°13 — as the Townsend was located, and the Jesusa Perez, N°14 was attempted to be located upon the same ground, but placed 334 varas south and 450 East, years elapsed, before the Corner of the Townsend now the N. E corner of the Wilson (so called) was found.

(over

once the (177½) acres of land once occupied
by the Wilson — For fear that you may not be able
to place your hand readily upon my last note to you
on the matter on hand, I will repeat as near as
I can recollect, my statement as to the means
employed to ascertain the exact location of
the South line of the Amelia Wilson, a slight
Controversy arose between your brother Otto and myself
as to the location of said line, I proposed to him that
We each employ a chainman and meet at the
(so called) N E cr of the Wilson and measure the
distance 4100 vrs, then run west until we
intersected the line established by myself, as
the east line of the Jesse Williams N° 4, this was
done with the result of intersecting said
line 100 vrs South of the N. E cr of the Williams
as established by me. While I have my doubts as to
the correctness of said location, yet it is justified by
the recognition by the State, ~~of the State~~ of the present
N. E cr of the Amelia Wilson,
