State of Texas } Corrected field notes of a survey
Hays County } of 74 acres made for James C Blalock
by virtue of his homestead application
No 201. Said survey is in Hays
County Texas on the waters of Barton's creek
a tributary of ~~the Co~~ Colorado River - about 25 miles
N.W. of San Marcos; and bounded as
follows — Beginning at the East corner
of the H. Brashe survey Thence S60°E 557
varas with the S.W line of the M.B. Raper
survey to it's South corner - Thence
S 30° W 200 varas to the N.W corner of the
H Benson survey No 137 - Thence South -
550 varas to the N.E corner of the F.A. Jolley
a stake and mound on the West line of
the H. Benson - From which a Live oak tree marked X bears N60°W 10 varas another
Live oak marked X M bears N17°W 13 varas - Thence N60°W 832 varas with F.A. Jolleys N.E
Boundary line to a stake & mound placed for the N.W cr of said Jolley survey -
Thence N30°E 676 varas to the place of Beginning ———

I Jno. H. McCrutt County Surveyor of Hays County Texas do certify that the above
Corrected field notes, are a correct copy of the field notes of James C Blalock
survey - as Recorded in Book D page 370 Record of Field Notes in my Office - except the
length of S.W. B. line changed from 820 to 832. and the length of N.W. B. line from 623 to
676 varas —

Signed
Jno. H. McCrutt
County Sur. Hays Co Texas

Corrections made March 16th 1891

Remarks - The F.A. Jolley notes as Recorded by B.C. Hardin in this Office, give the
N.E. B. line of the F.A. Jolley 776 - varas - This discrepancy arises I think from
the doubts existing as to the true location of the west line of the H. Benson
Jos. C. Eve, (who was County Surveyor of this County for several years) placed the
corner fully 100 varas South, and nearly the same distance East, of the
corner, that Hardin adopted, - on account of the declination of Bearing trees
it is very difficult, at times to locate the corners, especially in a mountain County
where so much depends upon the manner of chaining

Respectfully rendered
J.H. McCrutt
