E 591—Application and Affidavit for Homestead—C 4 Robert Clarke & Co., Stationers, Printers and Blank Book Makers, Galveston.

THE STATE OF TEXAS,
County of Hays

To the County *Surveyor*
of Hays County Texas

By virtue of the accompanying affidavit, made in accordance with Arts. 3939 and 3940, Revised Statutes, and under the provisions of "*An Act for the relief of actual occupants of the public lands*," approved April 24, 1879,

I, Henry C. Whisenant

hereby apply for a survey of the following premises, _____ acres, to-wit:

All the vacant and unappropriated public land lying north of the M Bailey N° 75 in Hays County on the waters of the Rio Blanco, and bounded by said River until it intersects the West line of the D Holderman N° 33 thence with the Holderman west line south to intersection of the north line of said Bailey Survey

and I further state that I claim the same for myself in good faith, under the laws granting homestead donations; that I am without any homestead of my own, and that I have actually settled upon the land which I claim, and that I believe the same to be vacant and unappropriated public domain. I further state that I am* head of a family

[Signed] H. C. Whisenant, Applicant.

THE STATE OF TEXAS,
County of Hays

H C Whisenant Before the undersigned authority personally appeared applicant, who, being by me duly sworn, according to law, deposes and says that the above and foregoing statement is true and correct.

[Signed] H. C. Whisenant. Applicant.

Sworn to and subscribed before me, this 14 day of June A. D. 1897

Jas. G. Storey.

DUTY OF THE SURVEYOR.

ARTICLE 3940. Said application shall be filed with the said Surveyor, and recorded by him in a well bound book, kept for recording pre-emption and homestead applications; and the said Surveyor shall give a receipt therefor, if desired.

ARTICLE 3941. It shall be the duty of the Surveyor of the proper district or county to survey the land described in the application aforesaid, as soon as practicable and within twelve months after the date of said application, and the field notes thereof shall be certified to, recorded and mapped, as required by law in other cases, the applicant paying all legal surveyor's fees.

Oct 29/97 for 81⅝ acres.

To the Commissioner of the Genl. Ld Office Austin Texas

Dear Sir

The following explanation of the plat, shewing the work done by me under the file N°239 made by H.C. Whisenant for a homestead Donation, is respectfully submitted —

Supposing that the mouth of Hog Creek would be the surest starting point to locate correctly the 2n Bailey N°75 — I began at that point, ran East, with a variation of the needle of 9° East, 1100 varas this produced a conflict of 219 varas with the D. Holderman N°33, I then ran the meanders of the Rio Blanco, from the mouth of Hog Creek up as follows 1st S 59½° W 550 vs 2nd S 21½° W 290 vs 3° S 55° W 630, to the N.E corner of the Wm Gray N°73, we found no bearings to corner, (no doubt destroyed by overflows of the River) we started South from the point, and at 64 3/5 varas found a Live oak and Post tree, with old marks, Blaze and two chaps. This tree I made a bearing, to the N.E corner of 73, I will here state that we meandered the west bank of the River, supposing that we would find fewer obstructions, I then platted my meanders on the west bank and corrected back, making fewer courses, but preserving the Contour of the river, we went no further on the west line, believing that a correct report could be made on the Bailey with what work we had done, From this point N.E cor of the Gray N°73, I have laid down on the plat, Sims's Meanders, as you will see, they do not follow the Course of the river, but cut across a stony ridge that Comes down directly (or nearly so) to

the west bank of the River, their departure
west from the mouth of Hog Creek is 245
varas, and are short in Latitude 142 varas
my work, develops the fact that, there is no
Conflict between the Bailey and Holderman,
Closing on the Holderman, and running
South 2906 varas, which is equal to the
Latitude of my meanders of the River South
from the mouth of Hog Creek to the Corner
of the Gray N°73 thence with the Gray South
1785 varas to the S.W. cor of the Bailey—
The length of the South line of the Bailey
is increased to 1409 varas—
The conflict as shown on the County (map)
Bailey and Holderman, was caused by
assuming that Sam's Notes were correct, and
that the North line of the Bailey should be
produced 100 varas, East— Thereare 641 acres
within the boundaries of the Bailey as shown
by my Plat and Field Notes,—

Respectfully

John H. Gillett
