By way of explanation I will state that I have run out the John Stuart Survey for C. T. Day, beginning at a Pile of stone inside and near the fence of R. J. Sledge's Pasture and close to a mot of Timber, this corner was shown to me by Wm H Vaughan and others, and I now have in my office the sworn statement of the said Wm H Vaughan that the above described corner is the commencing corner of the John Stewart Survey No. 1. I have since run out the T. B. Westbrook Survey No. 7. commencing at the E. corner that I made for the John Stewart Survey No. 1. Thence N 35° E. 2200 vs to a pile of stone near the W. bank of Plum Creek, (Brushy Prong), of said Creek as now known. Thence N 45° W. 3046 3/10 vs. Thence S 45° W 2167 vs. to the E. line of the John Stewart. Thence S 45° E. 3428 3/10 vs. to the beginning. I have run this survey with corrected Field-Notes, as the original are incorrect and will not balance. I have run a line on the E & W. of the A. Welch & C. Walter for W. C. Mullens who pointed out the S corner of the J. M. M. Hall Survey & D. Hamilton pointed out the E. corner of the same. W. C. Mullens fencing according to these lines. I measured from E. line of.
