

Site Specific Information  
NOAA Chart 11339  
Calcasieu River Site #2

**Site Information**

Mean tidal range is 4.6 ft. Channel is navigable. Average currents are 0.3-knot flood and 0.8-knot ebb. Site has fuel, water and ice. The site has multiple permanent slips for large pleasure craft.

**Latitude:** N 30 ° 13.10

**NOAA chart #:** 11339

**Nearest ICW Marker:** N/A

**Longitude:** W 93 ° 15.04

**County:** Calcasieu Parish

**Date last visited:** 3/11/11

**Access**

**Closest Boat Ramp:**

**Distance:**

**Boat type recommended:**

**Closest Airport:**

**Closest Helicopter Landing:**

Nalmar Landing

00 minutes

Shallow, Aluminum hull

Chenault Airport, Lake Charles

Chenault Airport, Lake Charles

**Directions from MSU Lake Charles**

Take the I-10 W ramp towards Westlake. Take exit 27 to the right towards La-378/Westlake 2.8 mi. Turn left onto I-10 E 0.2 mi. Turn right onto Mike Hooks Rd 0.4 mi. Nalmar Landing 1.3 m.

TGLO-via hotline (800) 832-8224

**Resources at Risk**

**Atlas Priority:** **Medium**  
**Environmental:** N/A  
**Economic:** N/A

**Safety / Cautionary Notes**

Marine traffic, water hazards, slips, trips, falls

**Booming Strategy Recommendations**

**Recommendations:** Boom should be deployed across the entrance to the marshland across the boat ramp. Approximately 1000 feet of boom will be required. The boom can be secured to the shoreline at the east side of the fuel dock and deployed at an angle towards the old bridge, thence to the west bank. Anchors will be required to hold the boom in place and a lighted buoy will be required to properly mark boom. This is a public boat ramp and marina and it may be necessary to stage a Jon boat at the site to open and close the boom as necessary. Exact protection requirements and locations will be determined by the Incident Commander or Qualified Individual in response to conditions at the time of the spill.

**Equipment:** 1000 ft Containment Boom (18" or greater)  
4 Lighted Buoy(s)  
2 Shoreline Anchors/Lines  
10 Anchors w/Line and Buoys  
2 Response vessels  
2 Truck(s), Pickup  
1 Trailer(s), Supplies or Boom

**Number of personnel:** 10  
**Tidal influence:** Medium/4.6 ft.  
**Water depth:** 6 – 18 ft.
