

Site Specific Information  
NOAA Chart 11339  
Calcasieu River Site #22

**Site Information**

Mean tidal range is 4.6 ft. River Channel is navigable by large vessels. Average currents are 0.3-knot flood and 0.8-knot ebb.

**Latitude:** N 30 ° 08.19  
**NOAA chart #:** 11339  
**Nearest ICW Marker:** N/A

**Longitude:** W 93 ° 19.00  
**County:** Calcasieu Parish  
**Date last visited:** 3/11/11

**Access**

**Closest Boat Ramp:**  
**Distance:**  
**Boat type recommended:**  
**Closest Airport:**  
**Closest Helicopter Landing:**

Calcasieu Point  
10 minutes  
Shallow, Aluminum hull  
Chenault Airport, Lake Charles  
Chenault Airport, Lake Charles

**Directions from MSU Lake Charles**

Access to this site is via boat only.

**Trustees/ Contact Numbers**

USCG MSU Lake Charles (337) 491-7800  
LOSCO-via rotating pager (800) 538-5388  
Pin # 129-340  
TGLO-via hotline (800) 832-8224

**Resources at Risk**

**Atlas Priority:** **Medium**  
**Environmental:** Marsh, wetlands  
**Economic:** N/A

**Safety / Cautionary Notes**

None noted

**Booming Strategy Recommendations**

**Recommendations:** Bayou Guy empties into a wide delta/marsh area along the eastern shore of the old river channel. This area has been washed out over the years and covers such a large area that protection of the area will require deflective booming. Boom should be deployed in a deflective pattern starting in the turning of the river and continuing around the turn to just past the mouth of Bayou Guy. Boom should be deployed in 200-ft lengths using a total of 2,000 feet in ten legs. Three anchors sets with three lighted buoys will be required for each deflective leg. Haymark Terminal can be used as a staging area. Exact protection requirements and locations will be determined by the Incident Commander in response to conditions at the time of the spill.

**Equipment:** 2000 ft Containment Boom (18" or greater)  
30 Lighted Buoy(s)  
30 Anchors w/Line and Buoys  
2 Work boats (>16 ft)  
2 Truck(s), Pickup  
2 Trailer(s), Supplies or Boom  
Poly lined roll-off boxes  
Metal Culvert Pipes  
Trac-hoe

**Number of personnel:** 10  
**Tidal influence:** Medium/4.6 ft.  
**Water depth at mouth:**
