Texas General Land Office

Oil Spill Prevention and Response

Grant Application

Section 1: Project Summary

A **concise** one or two paragraph (1000 character maximum) project summary section that **describes the activity** that would result if the project is funded and how the proposed project will benefit the spill response program, response community or oil spill related science. (Please limit this section to an succinct account of the above requested information)

Texas General Land Office

Oil Spill Prevention and Response

Grant Application

Section 2: Description - Research, Testing, and Development of Oil Discharge Prevention and Response Technology and Training.

State the research objectives of the applications and explain their importance and how it pertains to Section 1: Project Summary. Please reference how the proposed work will fulfill an objective described in the Request of Applications (RFA). Please see the RFA for further information. It should address the practical merits of the proposed activity and the potential impacts of a successful conclusion of the activity. Application must explain how the research will enhance, assist, or move forward the Texas General Land Office's mission obligation to promote Oil Spill Prevention and Response research. Max 3000 characters.

Oil Spill Prevention and Response

Grant Application

Section 8: Project Budget

Please use the the Budget Table example below to detail all categories of projected expenditures.

Project Budget						
Budget	FY2022		FY2023		Total	
Personnel						
Fringe						
Travel						
Supplies						
Equipment*						
Contractual						
Other						
Subtotals:						
Indirect						
Totals:						

* Equipment costing more than \$5,000.00 that is purchased with contract funds is the property of the GLO. A description of the equipment purchased and the purchase price must be noted on the Progress Report Form Grantee submits to the GLO.

* Note if travel is expected for a task, estimated number of staff, and frequency in section 4.

*Description of equipment should include: year, make/model, vin/serial #, purchase price, inventory number (if applicable), receipt of purchase and location of equipment.

Section 9: Budget Justification

Provide a brief justification of all major budget elements listed above.
