EVALUATION REPORTS
TEXAS DEPARTMENT OF AGRICULTURE
AGENCY SUMMARY
Texas Department of Agriculture

Background/Authorities

The Texas Department of Agriculture (TDA) is a multi-faceted agency that promotes, regulates, and certifies the state's agricultural products, and provides consumer protection under the authority granted in Act of June 10, 1981, the 67th Legislature, Chapter 388, 4 (1), 1981 Texas General Laws, codified as the Texas Agriculture Code. The agency's responsibilities include: monitoring gas pump regulations; certifying organic growers; promoting Texas agricultural and rural products; certifying commercial weights and scales; regulating plant sales and health; regulating agricultural, residential and commercial pesticide applications; promoting rural health services; administering the state's participation in Community Development Block grants for city and county infrastructure improvements; licensing; the international marketing of agricultural products and services; and, the administration of the state's food and nutrition school meal and other food nutrition programs.

This evaluation only addresses sites owned by TDA. As described in detail below, the agency leases numerous facilities in the state for livestock exports, seed testing, pesticide laboratory services, warehousing, administrative functions, and imported plant roadside inspections.

Four leased livestock export facilities are located in Brownsville, Laredo, Houston, and El Paso, and the fifth livestock export facility, in Del Rio, is owned by TDA. These facilities are where livestock are inspected and passed from Texas sellers to international buyers.

A pesticide laboratory, located in College Station, provides pesticide support functions, including pesticide residue and product formulation analyses.

A 65.5 acre site leased from Texas Juvenile Justice Department (TJJD) supports agricultural production, research and experimentation and an additional 5.5 acre site serves as a metrology lab for testing weights and measures.

TDA’s headquarters are located in the Stephen F. Austin Building in Austin. TDA’s Regional Offices, sub-offices and Food and Nutrition sub-offices, located throughout the state, are in leased or Texas Facilities Commission owned buildings.

Real Property Assets

TDA's two real property assets are the William H. Pieratt Seed Testing Laboratory, located in Giddings, and an export livestock pen, located in Del Rio.

Asset Description

The William H. Pieratt Seed Testing Laboratory, located east of Giddings, Lee County, at the intersection of US 290 and CR 226, is a triangular-shaped 2.56 acre site supporting two buildings with 11,053 square feet of office space, and associated parking areas. The Del Rio Export Pen is a 7.682 acre tract located on Farley Lane in Del Rio, Val Verde County, with associated pens and facilities currently under construction.

GLO Recommendations

Retain the William H. Pieratt Seed Testing Laboratory, and the Del Rio Export Pen for continued agency operations.

AGENCY COMMENTS

All comments from received TDA have been incorporated into the report.

Decisions relative to departmental operations, including disposition of real property, are made by the school superintendent and board of directors.

The agency is subject to the regulations of Texas Revised Civil Statutes Article 601b, which requires that the Texas Facilities Commission acquire or lease all real property for TSBVI. The purchase of real properties requires legislative authority. Sale of agency properties is regulated by Texas Natural Resources Code § 31.158, et seq., which requires that all sales authorized by the legislature be administered by the Texas General Land Office (GLO).

Real Property Assets

The Texas School for the Blind and Visually Impaired owns two tracts of land totaling approximately 290.58 acres. This report evaluates these properties. The school does not lease any property.

TSBVI provides a full-time educational program to pupils at the Austin site. The school serves blind and visually impaired students, most of whom live in TSBVI facilities throughout the year. Additionally, TSBVI provides consultation services and materials to local schools with visually impaired and blind students.

The Texas School for the Blind and Visually Impaired has occupied the Austin site since 1916 and intends to continue current operations. The school is the sole location of agency administration and educational services. Periodic additions and renovations have been made, and the layout and design are suitable and appropriate to its use. The site is easily accessible to students, and convenient to commercial services.

The agricultural tract on FM 608, south of Roscoe, Nolan County, Texas, is comprised of 247 acres and is used for raising cotton. It is level, rural acreage with no improvements. The surrounding area is farmland, and there are no known, or pending developments which would affect existing utilization.
