TEXAS PARKS AND WILDLIFE DEPARTMENT AGENCY SUMMARY
Agency Summary

Background/Authorities

The Texas Parks and Wildlife Department (TPWD) provides outdoor recreational opportunities by managing and protecting wildlife and wildlife habitat and acquiring and managing an inventory of parkland. TPWD inherited the functions of former state entities created to protect Texas natural resources. In 1895 the legislature created the Fish and Oyster Commission to regulate the fishing industry. In 1907 the Game Department was added to that Commission. The State Parks Board was created as a separate entity in 1923 and in the 1930's, projects of the Federal Civilian Conservation Corps added substantial acreage to the State's parkland. The term oyster was dropped from the wildlife agency's name in 1951, and in 1963, the Parks Board and Game and Fish Commission were merged to form the Texas Parks and Wildlife Department. The legislature placed authority for managing the fish and wildlife resources in all Texas counties with the TPWD when it passed the Wildlife Conservation Act of 1983.

TPWD responsibilities include the protection and promotion of the State's natural and cultural heritage; to provide opportunities for outdoor recreation; to promote education; research, and stewardship of environmental resources; and to promote the conservation of natural, and recreational resources.

An executive director, who carries out the policies set by the Texas Park and Wildlife Commission, heads TPWD. The Commission is comprised of nine members, appointed (to overlapping six-year terms) by the Governor, with the advice and consent of the Senate.

The organizational structure of TPWD includes the executive office and 10 divisions:
- Wildlife
- Coastal Fisheries
- Inland Fisheries
- Law Enforcement
- State Parks
- Infrastructure
- Communication
- Administrative Resources
- Human Resources
- Information Technology

TPWD has 29 Registration and Title Offices across the state. The offices are located in:

Abilene, Amarillo, Austin (HQ), Beaumont, Brownsville, Brownwood, Bryan, College Station, Corpus Christi, El Paso, Fort Worth, Garland, Houston (North), Houston (South), Kerrville, LaMarque, Lubbock, Lufkin, Midland, Mount Pleasant, Rockport, Rusk, San Angelo, San Antonio, Temple, Tyler, Victoria, Waco, and Wichita Falls.

TPWD Evaluation Consideration

The Texas Parks and Wildlife Department manages a wide range of real property holdings and employs a broad scope of responsibility over its uses.

The agency has not historically measured the success of its operations in terms of
intensity of use or commercial return. Rather, TPWD measures successful utilization in terms of preservation of habitat, a dedication to quality of life, and resource protection matters. The inherent conflict between the GLO’s valuation of highest and best use and TPWD’s preservation philosophy creates a paradox in the evaluation process. The GLO has approached this conflict by incorporating TPWD’s mission as a decisive factor in generating land use recommendations.

**Property Management**

The Executive Director of the Texas Parks and Wildlife Department may, with the approval of the Parks and Wildlife Commission, sell, lease, or exchange real property that is no longer suitable for the purpose for which it was acquired (Parks and Wildlife Act Sec. 11.001). Additionally, H.B. 2108 and S.B. 872 further expands TPWD’s ability to dispose of real property no longer needed by authorizing TPWD to provide funds to local governments when they agree to assume responsibility for Department facilities.

**Real Property Assets**

GLO completed evaluations on 161 TPWD tracts throughout the state. Under the Texas Natural Resources Code, Section 31.151, et seq., each state agency is to maintain records of all owned real property and report the information to the GLO Asset Management Division for review and record keeping.

**GLO Recommendations**

GLO makes land-use recommendations to sell or lease the following TPWD property:

McKinney Falls Park excess acreage disconnected from the main park acreage.

GLO further recommends retaining the remainder of TPWD properties for agency operations.

**AGENCY COMMENTS**

All comments from received TPWD have been incorporated into the report.

**TEXAS FACILITIES COMMISSION COMMENTS**

No comments were received from TFC concerning this agency’s property.

Texas Parks and Wildlife Department

Texas General Land Office

Analysis

The Texas Parks and Wildlife Department (TPWD) utilizes these sites as a state headquarters and a state park. The headquarters is located on Smith School Road and the park is located on McKinney Falls Parkway in Austin. The sites are improved with 27 buildings, fencing and asphalt parking. The surrounding land uses include vacant land, industrial, residential and commercial developments. Parcel A is 720.93 acres and Parcel B is 7 acres.

The appraisal indicates the highest and best use is to continue in the present use for Parcel A and for industrial or office development for Parcel B. The GLO recommends sale of the underutilized Parcel B. This property was recommended for disposition on the 2013 and 2014 Governor's Report and was not disapproved.

TPWD plans to sell Parcel B themselves.

GLO Recommendation:

Retain Parcel A for continued agency operations.
Dispose of the underutilized Parcel B.

The Texas Parks and Wildlife Department utilizes this site as a state park. It offers a nine-hole golf
course, swimming pool, picnicking, and overnight camping facilities. Located two miles southwest of
Lockhart on FM 20, the site is improved with eight buildings, fencing and asphalt parking. Various
deeds have reversion clauses calling for reversion if utilized for any purpose other than a state park.
The surrounding land is utilized for rangeland and residential development.
