REAL PROPERTY EVALUATION REPORTS

Finance Commission of Texas
Health & Human Services Commission
Texas State Library & Archives Commission

September 2022
September 1, 2022

The Office of the Governor

The Office of the Lieutenant Governor

The Office of the Speaker of the House of Representatives

Members, Texas Senate and House of Representatives:

This report provides market analyses and other pertinent information to assist legislators in making land-use decisions.

Information and recommendations herein are based on property utilization at the time of the inspection.

If you have any questions or would like additional information, please contact Shaun Seale at (512) 463-5174 or shaun.seale@glo.texas.gov.

Sincerely,

George P. Bush
Commissioner, General Land Office

III. About the Report..............................................................62
OVERVIEW
AN OVERVIEW

CONTENTS

This report contains evaluations of state real property for the following agency:

♦ Texas Finance Commission
♦ Health and Human Services Commission
♦ Texas State Library & Archives Commission

Agency Summaries

Each report begins with an agency summary containing the following:

Background/Authorities:
The agency’s enabling legislation, operational mission, and real property management procedure.

Real Property Assets:
The agency’s real property holdings including function, location, size, physical and legal characteristics.

GLO Analysis and Recommendations

Following the summary is an analysis of salient real property factors and the General Land Office’s (GLO) recommendations regarding future disposition of the property. Recommendations for sale or lease of the properties are based on the following:

♦ an examination of appraisal data
♦ legal and physical limitations
♦ need for the property by other state agencies
♦ market conditions; and/or
♦ other factors influencing the value of the property to the state

Texas Facilities Commission Recommendations

Before publication, real property evaluation reports are submitted to the Texas Facilities Commission (TFC) to determine whether any reviewed properties are needed by other state agencies. Any TFC staff comments are included in the agency’s summary section of the report and are attached to the specific site analysis.
EVALUATION REPORTS
TEXAS FINANCE COMMISSION AGENCY SUMMARY
Agency Summary

Background/Authorities

The Finance Commission of Texas is the oversight board for the Texas Department of Banking, Department of Savings and Mortgage Lending, and the Office of Consumer Credit Commissioner. The governor-appointed Commission was first established in 1943 under HB 79, which was passed by the 48th Legislature and signed by Governor Coke R. Stevenson.

Today, the Commission has general rulemaking authority over most industries regulated by the Department of Banking and the Financial Regulatory Agencies.

Texas Finance Code §16.007 authorizes the Financial Regulatory Agencies to acquire, lease, or sell real property necessary or convenient to the functions of the agencies. The Banking Department currently leases space in Arlington, Houston, Lubbock, and San Antonio; leased property is not part of this evaluation.

Real Property Assets

The Finance Regulatory Agencies’ sole property, the Finance Commission Building, is in Austin.

Asset Description

The Finance Regulatory Agencies own one site that serves as the administrative head-quarters for the three agencies. The property is located on 2.15 acres at 2601 North Lamar in Austin. The agencies are currently searching for a new property to relocate their headquarters.

GLO Recommendations

The GLO recommends the Texas Finance Commission property be maintained for continued use until a new property is located for the headquarters.

Agency Comments

The Texas Finance Commission is in agreement with all the information in this report, regarding their agency.

Texas Facilities Commission Comments

No comments were received from the Texas Facilities Commission, regarding this report.

Finance Commission of Texas
Texas General Land Office

Analysis

The Texas State Finance Commission utilizes this site as an office for the Banking Department of Texas, Office of Consumer Credit Commission, and Texas Savings and Loan Department. It is at the southeast corner of North Lamar Boulevard and Longview Street in old West Central Austin. The site is improved with one three-story building, exterior security lighting, asphalt parking, and covered parking. The surrounding land uses include residential and commercial developments.

The Commission is currently searching for a new property to relocate their headquarters.

GLO Recommendation:
Retain for continued agency operations.
Health and Human Services Commission

Background and Authorities

House Bill 2292, 78th Legislature, Regular Session, 2003, consolidated 12 individual agencies into 4 agencies and the Health and Human Services Commission (HHSC), managed by an executive commissioner.

In 2015, Senate Bill 200, 84th Legislature, Regular Session, further restructured the health and human services system. The Department of Assistive and Rehabilitative Services was absorbed into HHSC on 9/1/16, and the Department of Aging and Disability Services by 9/1/17. Some Department of State Health Services (DSHS) programs (e.g., mental health and substance abuse programs) moved to HHSC to allow DSHS to focus on the core business of public health, overseen by the department's commissioner.

Later, House Bill 5, 85th Legislature, Regular Session, 2017, established the Department of Family and Protective Services as an independent agency, with some administrative support services provided by HHSC under contract.

Real Property Assets

State Operated Facilities at HHSC operates the state supported living centers (SSLC) and state hospitals. DSHS retains ownership of the Texas Center for Infectious Disease (TCID) in San Antonio. The Criss Cole property in Austin, formerly overseen by DARS, houses services to persons with blindness or other visual disability, and is now under HHSC ownership. It is located near other headquarter buildings of the HHSC system.

State Hospitals

There are 11 state hospitals, many of which are located in smaller towns, though state hospitals are also located in Austin, El Paso, Wichita Falls, San Antonio and Waco. In Harlingen, HHSC operates a unique facility with a co-located hospital and living center. Undeveloped land in the portfolio includes rural/agricultural, floodplain, and acreage potentially appropriate for future development. Improvements on most campuses are aged, with the exception of TCID, and designs vary to fit the uses (e.g., hospital/lab, visiting family living units, office space, maintenance buildings or other related support structures for programs).
State Supported Living Centers

The 13 living centers (accounting for the one in Harlingen), are generally located in larger cities. However, they are infrequently located in areas of high demand, from a real estate perspective. Like the state hospitals, undeveloped land includes rural/agricultural, floodplain and acreage potentially appropriate for future development. The Corpus Christi SSLC owns two group homes utilized as residential sleeping units for persons served by the campus.

GLO Recommendations

Currently the GLO recommends selling one HHSC property. The property is in Carlsbad. It is detached from the San Angelo SSLC, consists of .32 acres, and is configured as two lots. These two lots were previously utilized for a water storage tank and pump house, and are identified as surplus.

AGENCY COMMENTS

No comments were received from HHSC, regarding this report.

Texas Facilities Commission Comments

No comments were received from the Texas Facilities Commission, regarding this report.

Texas Health and Human Services Commission

Analysis

The Texas Health and Human Services Commission utilizes this site as a state supported living center for the care and treatment of the mentally and physically handicapped. Located along both sides of U.S. Highway 87 in Carlsbad, the site is improved with 80 buildings, a cemetery, and asphalt parking. The surrounding land uses include rangeland, residential, and recreational developments. Currently, there is a surface lease of approximately 935 acres (Parcel A) with the occupied living center on 95.99 acres (Parcel A). There are two town lots of 0.32 acres (Parcel B) that previously housed a water storage tank and a pump house which are no longer required for facility operations.

It is recommended for Parcel A to continue in the present use and Parcel B for residential development. HHSC and the GLO concur with the proposed sale of Parcel B. This property was recommended for disposition on the 2013, 2014, and 2016 Governor’s Report and was not disapproved.

GLO Recommendation:

Retain Parcel A for continued agency operations. GLO recommends the sale/lease of Parcel B.

Recommendation:
Retain for continued agency operations.
TEXAS STATE LIBRARY & ARCHIVES COMMISSION AGENCY SUMMARY
Agency Summary

Background/Authorities

The Texas State Library and Archives Commission (Commission) was established in 1909 to encourage the development of libraries statewide and to preserve the state’s archival records. Originally named the Texas Library and Historical Commission, the agency was renamed in 1979 and supports diverse information services by enhancing statewide library services, preserving the Texas archives, assisting public agencies with records management, and meeting the reading needs of people with disabilities. The Commission’s enabling authority is contained in Chapter 441.00 of the Texas Government Code and maintains authority through separate provisions in the Chapters 195 and 201-205 in the Local Government Code and Chapter 91.081-084 of the Human Resources Code. The Commission also provides services through three primary federal statues relating to library programs carried out on behalf of the federal government.

The Commission’s headquarters is the Lorenzo de Zavala State Archives and Library Building within the Capitol Complex in Austin. The building is owned by the Texas Facilities Commission and houses the state’s archival collection and library holdings; a conservation lab; components of the Talking Book Program; staff administering the Library Development and Networking (LDN) Division; the Archives, Reference and Information Services (ARIS) Division; a component of the State and Local Records Management (SLRM) Division; the Information Technology Services; Administration; and Executive Offices.

Other staff are deployed in three additional sites as of June 2021. The State and Local Records Management Division operates the Commission’s State Records Center, a facility at 4400 Shoal Creek Blvd., and the Records Center Annex in a state-owned building on Promontory Point, both in Austin. The Shoal Creek site also houses the material distribution center for the Talking Book Program. Other Commission staff are deployed at the Commission’s facilities in Liberty overseeing the Sam Houston Regional Library and Research Center (Center), and several historic buildings connected to the Center.

The ARIS Division oversees the appraisal, organization, preservation, and access of permanently valuable government records, including documents, maps, books, photographs, audio materials, videos, manuscripts, and other primary materials. ARIS also administers the Sam Houston Center, which serves as a regional research facility, museum, and repository of state and local records.
Library Development and Networking programs enhance the capacity and resources of Texas public, academic, and school libraries. The LDN division provides statewide service that include training, grant opportunities, access to digital content, interlibrary loan, consulting services for library staff, and reading, technology, and youth support programs.

State and Local Records Management programs assist government agencies through records storage, development of state and local government retention schedules, and assistance with records management issues. The government information analysts, who work on records management training and records schedules, are in the de Zavala Building. The SLRM division's staff members who manage the records storage and image operations are at the Shoal Creek and Promontory Point facilities.

The Talking Book Program serves the reading needs of Texans with visual, physical, or reading disabilities. The circulation component of the TBP division provides digital reading machines and materials; staff are housed with these materials at the Shoal Creek facility. The division's reader support services and administration staff are housed at the de Zavala Building.

The agency is subject to the regulation of Texas Revised Civil Statutes Article 601b, which require that the Texas Building and Procurement Commission acquire or lease all real property for the Commission. Sale of Commission properties is also regulated by Texas Natural Resources Code 31.158, et seq., which requires that the legislature or the governor authorize all sales and, unless otherwise directed, then those sales are administered by the Texas General Land Office (GLO).

**Real Property Assets**

The Texas State Library and Archives Commission owns four tracts of land totaling 144.96 acres. These properties are the Sam Houston Regional Library/Research Center and land, the Price Daniel home and land; and the Miriam Partlow House, meeting room, and land, all in Liberty; and, the Texas State Records Center and land in Austin.

**GLO Recommendations**

The GLO recommends retaining all four properties.

**AGENCY COMMENTS**

The Texas State Library and Archives Commission concurs with the GLO's recommendations.

**Texas Facilities Commission Comments**

No comments were received from the Texas Facilities Commission, regarding this report.

GLO Recommendation:
Retain for continued agency operations.
ABOUT THE REPORT
Evaluation Process

ABOUT THE REPORT

Statement of Purpose
Evaluation reports have been prepared in accordance with the Texas Natural Resources Code, Sections 31.157, et seq. This legislation requires that the Asset Management Program Area of the Texas General Land Office (GLO) identify and evaluate designated state-owned real property and accomplish the following:

- identify real property not being used or being substantially underused, and
- determine current market value, for properties recommended for disposition

Appraisal Process
Appraisals are performed by GLO staff or outside third party fee appraisers, whose findings are contained in reports on file in the Agency's Appraisal Division. Field staff measure and examine buildings to determine structure, composition, and condition. The resulting data is processed using the Marshall and Swift Valuation Service to derive replacement and depreciation values. Using the Market Data approach, area markets are examined, and the current market value of the land is determined.

House Bill 957 of the 79th Legislature requires a value determination for all properties recommended for disposition. If a property is not recommended for disposition, a value determination shall be in a form deemed appropriate by the Commissioner. As such, properties recommended for disposition shall be the subject of a full appraisal while properties not recommended for disposition shall be the subject of an inspection and utilization analysis.

All findings are based on market data and conditions as of the appraisal date. Appraisers do not make forecasts of future market trends not already indicated by current real estate activity.

Evaluation Process
Analysis
The GLO analysis staff reviews appraisal findings and performs additional research to determine the following:

- pattern of land utilization for each facility
  - land that is economically underutilized
  - land not being used for agency or facility functions
- development potential for underutilized/unused property

This analysis should be viewed as a preliminary feasibility study which identifies potential alternate uses. Additional research would be necessary prior to marketing the property to insure accurate forecasts of land use, income streams, transaction costs and implementation scenarios.
Evaluation Process

Definition of Terms

Evaluation reports may employ the terms defined below.

**Market Value** -

The amount one can expect to receive if the property were sold on the open market, and the highest price which a property will bring if offered for sale in the open market, with reasonable time allowed to find a knowledgeable buyer and assuming reasonable financing terms. This definition implies the concept of a willing buyer and seller, neither of whom is put under undue duress and both having been given time to consummate the sale.

As a result of rounding, market value is not expressed as the sum of land, improvements, and site improvements that are reported.

**Highest and Best Use** -

The most profitable, likely, legal use to which a property can be placed. It is that which may be reasonably expected to produce the greatest net return and/or enjoyment over a given period of time.

**Floor-to-Area Ratio (FAR)** -

A measure of development intensity used to judge relative land utilization. FAR is the ratio of built gross floor area compared to the gross site area. This factor is a useful index of economic efficiency when compared with typical FARs for given categories of use.

**Grade** -

The horizontal elevation of a finished surface of the terrain from where a height will be measured.

**Lot** -

A parcel with a separate number or other designation as shown on a plat.
