STATE AGENCY PROPERTY

RECOMMENDED TRANSACTIONS

Report to the Governor

October 2013
INTRODUCTION

SB 1262  Summary

Texas Natural Resources Code, Chapter 31, Subchapter E, [Senate Bill 1262, 74th Texas Legislature, 1995] amended two years of previous law related to the reporting and disposition of state agency land. The amendments established a more streamlined process for disposing of unused or underused agency land by defining a reporting and review sequence between the Land Commissioner and the Governor.

Under this process, the Asset Management Division of the General Land Office provides the Governor with a list of state agency properties that have been identified as unused or underused and a set of recommended real estate transactions. The Governor has 90 days to approve or disapprove the recommendations, after which time the Land Commissioner is authorized to conduct the approved transactions.

The statute freezes the ability of land-owning state agencies to change the use or dispose of properties that have recommended transactions, from the time the list is provided to the Governor to a date two years after the recommendation is approved by the Governor. Agencies have the opportunity to submit to the Governor development plans for the future use of the property within 60 days of the listing date, for the purpose of providing information on which to base a decision regarding the recommendations.

The General Land Office may deduct expenses from transaction proceeds. Proceeds are dispersed, as appropriate, to either the Texas Capital Trust Fund, the State Treasury to the credit of the affected agency, or as otherwise directed by the Legislative Budget Board.
The Report to the Governor

The report to the Governor contains 1) a list of sites that have recommendations for real estate transactions, 2) a set of property descriptions and recommendations for transactions (a separate page for each property), and 3) a list of all state agency properties that have thus far been identified as unused or underused by the Asset Management Division in the most current periodic review of agency land as per the process set forth in Texas Natural Resources Code, Section 31.1571, et. seq. (Exhibit A).

Recommended Transactions

Recommended transactions, in all cases, identify disposition options such as lease, sell or trade. In some cases recommendations are accompanied by specific language that defines issues that must be dealt with prior to a transaction. In these cases, the narrative is considered an essential element of the recommendation.
