

Texas General Land Office

LOCAL HAZARD MITIGATIONS PROGRAM (LHMPP)

Commissioner Dawn Buckingham, M.D.

The Texas General Land Office allocated \$25,000,000 to the Local Hazard Mitigation Plans Program (LHMPP). This program provides grants ranging from \$20,000 - \$100,000 for eligible entities to develop or update local hazard mitigation plans, or as cost share for hazard mitigation planning activities funded through other federal sources. LHMPP is funded through a Community Development Block Grant for Mitigation from the U.S. Department of Housing and Urban Development. For more information, please visit recovery.texas.gov/lhmpp.

Why is a hazard mitigation plan important?

- ✓ Mandatory eligibility requirement for several FEMA grant programs
- ✓ Identifies long-term strategies for risk reduction with input from stakeholders and the public
- ✓ Identifies cost-effective mitigation actions that focus resources on the greatest risks areas
- ✓ Integrates planning efforts and risk reduction with other community planning efforts
- ✓ Aligns risk reduction with other state, tribal or community objectives

Is a mitigation plan required? According to FEMA...

- ✓ An approved hazard mitigation plan is an eligibility requirement for several FEMA grant programs for grantees and subrecipients
- ✓ FEMA requires entities to submit an updated hazard mitigation plan every five years for review and approval to maintain eligibility

Every **\$1** spent on mitigation saves **\$6** on future disaster losses

Flood Mitigation Assistance (FMA) project grant	Yes*	Yes**

Enabling Legislation: Water Infrastructure Improvements for the Nation (WIIN) Act

FEMA Assistance Program	Required for a State/Tribal Applicant?	Required for a Sub-Applicant?
Rehabilitation of High Hazard Potential Dam (HHPD) Grant Program	Yes*	No

+ At the time of the Presidential major disaster declaration and at the time of obligation of HMGP grant funds.

++ At the time of obligation of HMGP grant funds for mitigation projects.

* By the application deadline and at the time of obligation of the BRIC or FMA award.

** By the application deadline and at the time of obligation of BRIC or FMA grant funds for mitigation projects.

Mitigation plans must include all dam risk in accordance with the requirements set forth in the Rehabilitation of High Hazard Potential Dams Grant Program Guidance. Dams owned by nonprofit organizations must be located in a jurisdiction with a FEMA-approved local or tribal mitigation plan that includes all dam risks in order to receive funds.
