2024 Disasters: Local Communities Program (LCP)

The Texas General Land Office (GLO) allocated **\$97,033,950** for the Local Communities Program (LCP), which provides funding for disaster relief, long-term recovery, and restoration of infrastructure or economic revitalization projects to help eligible communities recover from the 2024 Disasters (24D). The program supports projects that restore public infrastructure, strengthen local economies, and address long-term recovery needs in eligible disaster impacted areas.

Who Can Apply

To be considered, applicants must be a local government (city or county) or Indian tribe located in one of the 92 counties designated as eligible by HUD. HUD designated 27 counties as most impacted or distressed (MID) and requires at least 80% of program funds be granted to MID applications.

The GLO's Call for LCP Project Submissions will open February 19th and close March 23rd at 5:00 p.m. (Central Time). Only project proposals submitted by this deadline will be eligible for scoring and a potential invitation to apply. Each eligible entity may submit up to two project proposals.

How the Process Works

The LCP will use a **two-step application process**:

Step 1 – Call for Project Submissions

- Entities submit brief project proposals.
- Projects are scored using established criteria.
- Submitting a project does not guarantee an invitation to apply.

Step 2 – Invitation to Apply

- Invitations are issued in score order.
- Invited applicants will submit a full application through the Texas Integrated Grant Reporting (TIGR) system.
- Invitations continue until available funding is fully allocated.

Eligible Project Types

Projects must support one or more of the following:

- Disaster relief and recovery
- Public infrastructure restoration or improvement
- Economic revitalization
- Long-term community resilience
