FEMA-4269-TX
FEMA-4272-TX
FEMA-4332-TX
FEMA-4377-TX

Narratives

Mitigation Needs Assessment:

This Action Plan considers and addresses critical mitigation needs over a large geography while maintaining as much local control as possible through several programs aimed at creating more resilient communities through improved infrastructure, housing, building and land use policies and practices, and hazard mitigation planning.
These programs were developed to meet CDBG-MIT, federal, and state requirements and regulations, as well as to fund mitigation activities that protect against loss of life and property as efficiently and expeditiously as possible. Public service activities including housing and legal counseling, public outreach, and education may need to be utilized to complement several of these programs.
While the majority of funds are allocated to various local and regional mitigation activities—which will encompass any non-planning and non-housing projects, assistance to homeowners through the reconstruction of homes will comprise more than twleve (12) percent of the total allocation. Both the Housing Oversubscription Supplemental Program and the Resilient Home Program will allow the GLO to assist homeowners impacted by Hurricane Harvey to inhabit new homes that are proven to match or exceed HUD’s requirements, creating more resilient communities that recover more quickly from the next disaster event.
As noted above, the GLO recognizes that a comprehensive response to the threats and impacts of natural hazards involves the implementation of well-considered local and regional mitigation activities in the form of infrastructure projects, buyouts of homes in the floodplain, and other interventions that are vital for the protection, resiliency, and viability of communities. Accordingly, seventy-two (72) percent of the funds will address hazard mitigation needs related to local and

regional mitigation activities.
Planning encompasses a wide array of activities that ensure that policies and practices are developed and implemented to reduce impacts from future natural hazards. These activities will be focused on regional approaches to planning in addition to specific local solutions that promote sustainable mitigation planning and policy informed by an evaluation of short- and long-term hazard risk. These activities will involve: (1) the creation of FEMA-approved Local Hazard Mitigation Action Plans; (2) local land use, zoning, and comprehensive plans; (3) regional planning studies; and (4) the adoption of building codes and floodplain ordinances that reduce the risk of future hazard impacts.
The GLO has allocated five (5) percent for administrative costs, including contract administration, compliance monitoring, and the provision of technical assistance to applicants and subrecipients. Based on experience, it is expected that some subrecipients will need direct support implementing their programs; therefore, the GLO is allocating three (3) percent for project delivery. Providing direct support to subrecipients will help ensure that programs are implemented as efficiently and expeditiously as possible. Project delivery costs may include but are not limited to site specific environmental costs, project selection, and application intake/eligibility screening for a specific program.
At least 50 percent of all program funds will benefit LMI persons.
As required, a Mitigation Needs Assessment (the Assessment) was completed to identify longterm risks and investment priorities for CDBG-MIT funding allocated as a result of the 2015 Floods, 2016 Floods, Hurricane Harvey, and the 2018 South Texas Floods. The Assessment takes into account a comprehensive set of data sources that cover multiple geographies and sectors. The Assessment includes specific details about hazard risks within the eligible most impacted and distressed communities, and includes details for housing, infrastructure, and land use. The Assessment may be amended as additional information becomes available or existing information is updated.

Proposed Use of Funds:

The GLO will conduct a mitigation competition to address risks in the 2015 Floods HUD MID and State MID areas. Each applicant may submit a total of two applications, whether applying as the lone applicant or jointly with another jurisdiction(s). Each application must consist of one project. $46,096,950.00.
The GLO will conduct a mitigation competition to address risks in the 2016 Floods HUD MID and State MID areas. Each applicant may submit a total of 2 applications, whether applying as the lone applicant or jointly with another jurisdiction(s). Each application must consist of one project. $149,296,701.36.
The GLO will conduct a mitigation competition to address risks in the Hurricane Harvey HUD MID and State MID areas. Each applicant may submit a total of three individual applications and three joint applications. Each application must consist of one project. $975,704,817.11.
The GLO will conduct a mitigation competition to address risks in the 2018 South Texas Floods HUD MID and State MID areas. Each applicant may submit a total of two applications, whether applying as the lone applicant or jointly with another jurisdiction(s). Each application must consist of one project. $4,047,240.
Harris County will develop a local MOD for allocation of funds to eligible entities, including units of local government, special purpose districts, and port and river authorities. The GLO encourages the prioritization of regional investments with regional impacts in risk reduction posed by hurricanes, tropical storms and depressions, flooding, wind and other hazards to develop disasterresistant infrastructure; upgrading of water, sewer, solid waste, communications, energy, transportation, health and medical, and other public infrastructure to address specific, identified risks; financing multi-use infrastructure; and green or natural mitigation infrastructure development. $750,000,000.
Under the Regional Mitigation program (COG MODs), each COG region impacted by Hurricane Harvey has been allocated funds. Each COG will develop a local MOD for allocation of funds to local units of government and Indian tribes. $1,166,997,000.00.
The Hazard Mitigation Grant Program (HMGP) is one of the three FEMA Hazard

Mitigation Assistance (HMA) grant programs. HMGP provides up to 75 percent of the eligible costs associated with hazard mitigation projects selected for funding. Selected subrecipients must contribute at least 25 percent of the total project costs, known as match or non-federal share. $100,000,000.00

The GLO Coastal Resources division conducts ongoing coastal planning efforts through the Texas Coastal Resiliency Master Plan (Resiliency Plan) as described in Mitigation Needs Assessment. $100,000,000.00.

The Hurricane Harvey Homeowner Assistance Program (HAP) is a state-run housing program administered under the State of Texas Plan for Disaster Recovery: Hurricane Harvey for $5.676 billion in CDBG-DR funding. At present, the HAP program is oversubscribed, with the number of HAP applications for assistance exceeding the available program funds needed to move forward with reconstruction of damaged homes. Consequently, HAP applicants eligible for assistance are being waitlisted until further funding becomes available. $400,000,000.00.

The Resilient Housing Program (RHP) will replace owner-occupied single family homes damaged by Hurricane Harvey with a reconstructed home that meets additional resiliency and mitigation standards required of the RHP. Eligible participants will be drawn from the GLO's existing waiting list of eligible HAP applicants. $100,000,000.00.

The GLO is partnering with the Texas Division of Emergency Management (TDEM) to provide CDBG-MIT funds for the development of an enhanced State of Texas Hazard Mitigation Plan (enhanced SHMP), as well as providing funds for the development of Local Hazard Mitigation Plans (LHMP) for eligible areas. $30,000,000.00

The GLO supports the adoption of policies that both reflect local and regional priorities and will have long-lasting effects on community risk reduction. The Resilient Communities Program will fund the development, adoption, and implementation of modern and resilient building codes and flood damage prevention ordinances to ensure that structures built can withstand future hazards. $100,000,000.00.

The GLO is committed to the purposes of planning in the areas that are eligible for CDBG-MIT funds, and to the completion of some of the projects identified as a result of the studies. $115,091,280.53.

State administrative costs including subrecipient administration costs will not exceed five (5) percent, $215,092,050.00.

Based on experience, it is expected that some subrecipients will need direct support implementing their programs; therefore, the GLO is allocating three (3) percent for project delivery. $129,055,230.00.

Overall Progress Narrative:

OVERALL NARRATIVE
During the reporting period, all programs are currently underway. The Housing Oversubscription and Resilient Home programs are over ninety percent complete and program closeout is expected this year. The Subrecipient Infrastructure Programs are constituting the large majority of draws as the bulk of these projects are well into construction and reaching the various milestones for release of funding. The GLO is beginning to plan for a Mitigation Reallocation Program to repurpose unutilized funding from programs that did not award the full program budget as allocated in the current Action Plan Amendment.

GLO's efforts to Affirmatively Furthering Fair Housing: GLO's efforts to Affirmatively Furthering Fair Housing: To-date across all grants, GLO has completed 945 AFFH reviews of subrecipient and multifamily projects being considered for funding to determine whether projects are consistent with goals of affirmatively furthering fair housing. Within Q1 2026, GLO completed 1 such review.

Resilient Communities Program
To date, Resilient Communities Program has 178 contracts active contracts ($44,818,203.30), 0 contracts closed, and 105 applications in review ($26,597,811.87). In Q1 2026, 0 contracts were closed, 0 contracts in close-out-process, 1 contract amended (time extension), and 33 contracts established ($9,094,368.00).

Hazard Mitigation Program
To date, Local Hazard Mitigation Program Plan has 81 active contracts ($6,950,015), 17 contracts closed ($1,147,730.42), 26 applications in review ($2,002,560.00). In Q1 2026, 3 contracts ($217,000.00) were closed, 4 contracts in close-out process ($346,001.00), and 1 contract established ($50,000.00).

Housing Oversubscription Supplemental Program
State of Texas: During the reporting period, the Homeowner Assistance Program received 0 applications. As of the end of Q1 2026, GLO was in the process of reviewing 0 projects for eligibility, had approved 0 Homeowner Assistance Program applications for assistance, and completed construction on 0 households.

City of Houston: During the reporting period, the GLO continued to reconcile across systems for program closeout.

Harris County: During the reporting period, the GLO continued to reconcile across systems for program closeout.

Resilient Home Program
During the reporting period, the Resilient Home Program received 0 applications. As of the end of Q1 2026, GLO was in the process of reviewing 0 projects for eligibility, had approved 0 Resilient Home Program applications for assistance, and completed construction on 0 households.

Planning Program
There are 8 additional active planning contracts with 3 pending. These include LRGV of RBFS, a Technical Flood Model Reviewer for RBFS, and an Infrastructure Benefit Study, which is about to expire.

Subrecipient Infrastructure Competitions and Programs
MIT-Coastal: 2 contracts active. MIT-MOD: 195 contracts active, 1 contract closeout underway. MIT-C: 200 contracts active and 2 are undergoing closeout activities. HMGP-S: 11 contracts are active, 3 are undergoing closeout activities.

Harris County Flood Control District Mitigation Program
For 2026 Q1, Harris County Flood Control District has a total of seventeen (17) Infrastructure applications, with fifteen (15) approved and underway. Two (2) applications are still under preliminary review pending approval for official submission.

Harris County Mitigation Method of Distribution Program
For 2026 Q1, Harris County has submitted a total of ten (10) Infrastructure applications, all of which have been approved and are underway. For their Planning Program a total of twenty (23) applications have been submitted with nineteen (19) approved and underway, one (1) recommended for approval and three (3) under review.

Activity Description:

Regional and State Planning studies may include, but are not limited to, flood control, drainage improvement, resilient housing solutions, homelessness, surge protection, economic development, infrastructure improvement or other efforts to mitigate risks and future damages and establish plans for comprehensive recovery efforts.

Location Description:

Activities shall take place within a CDBG-MIT eligible area.

Activity Progress Narrative:

There are 8 additional active planning contracts with 3 pending. These include LRGV of RBFS, a Technical Flood Model Reviewer for RBFS, and an Infrastructure Benefit Study, which is about to expire.

Activity Description:

The Texas A&M AgriLife Extension Service’s Green Infrastructure for Texas (GIFT) Program empowers Texans, such as those affected by disasters, to build resilient communities adaptable to social, economic, and environmental change. The GIFT Program provides necessary resources about nature-based solutions to stormwater management. Through outreach, coalitionbuilding, education, and on-the-ground projects, GIFT inspires communities to implement Green Infrastructure (GI) projects at any scale.

Location Description:

This project will assist communities impacted by other disasters in the HUD identified most impacted and distressed areas.

Activity Progress Narrative:

This is also for the Green Infrastructure Study (GIFT), that splits funding with Harvey

Activity Description:

Using a combination of 2018, 2019, and MIT funding to provide better service for vulnerable regions, the Texas GLO is working with Texas A&M AgriLife Extension Service to enhance existing Community Health and Resources Management (CHARM) capabilities to provide regional planning and coordination capabilities. This will require super-computing capabilities and large-scale stakeholder engagement for the Lower Rio Grange Valley (LRGV) and East Texas communities affected by the 2018 & 2019 disasters. In addition, CHARM workshops to walk communities through the process of developing RCP/LHMPP plans and create a training program to increase local competence and capacity.

Location Description:

This project will assist communities impacted by other disasters in the HUD identified most impacted and distressed areas.

Activity Progress Narrative:

This is ongoing for CHARM.

Activity Description:

Texas A&M Agrilife Research will develop, or cause to be developed, linked surface flow models and groundwater flow models supporting comprehensive flood-risk reduction program for the Coryell County Watershed project.

Location Description:

The goal of the Coryell County Watershed project is to reduce flood-related risks in the Leon River Watershed and Cowhouse Creek Watershed in Coryell County and surrounding counties.

Activity Progress Narrative:

Activity is ongoing for the Leon River Watershed and Cowhouse Creek Watershed Flood Study.

Activity Description:

The Texas Water Development Board shall perform the continued maintenance and enhancement of the existing Texas Water Development Board (TWDB) Model Storage and Management System (MS2) application and its hosting/sharing of related data through the Texas Disaster Information System (TDIS), administered by the Institute for a Disaster Resilient Texas (IDRT).

Location Description:

This application and related data is designed to accomodate statewide regional flood planning processes.

Activity Progress Narrative:

Activity is ongoing for a grant with TWDB.

Activity Description:

The University of Texas at Austin shall perform a study of the Colonias of the Lower Rio Grande Valley and update the 2014 Office of the Attorney General maps of Colonias through 2023 using a remote sensing-imagery and machine-learning approach paired with social/political data. Subrecipient will apply the approach in the LRGV where there is a high density of Colonias by providing a Regional-scale overview of Colonias evolution since 2014.

Location Description:

This study will be performed at the University of Texas at Austin and in the studied area of the Lower Rio Grande Valley, covering Hidalgo, Starr, Cameron, and Willacy Counties.

Activity Progress Narrative:

Activity is ongoing for a grant with UT at Austin.

Activity Description:

Sewer Facilities
The City of Newton shall replace manholes, perform upgrades of wastewater treatment plant, and rehabilitation of lift station and all related appurtenances.
Flood and Drainage
The City of Newton shall construct a Storage Basin to include land acquisition and complete all associated appurtenances.
These activities will meet the low to moderate income national objective.

Location Description:

Construction shall take place in the City of Newton. Sewer Facilities improvements will take place at City Wastewater Treatment Plant, Lift Station, Sewer Public Facilities Region 1, and Sewer Public Facilities Region 2. Flood and Drainage improvements will take place at Inline Detention Storage Basin.

Activity Progress Narrative:

During the reporting period, the City of Newton awarded the construction contract for the Sewer project and submitted an amendment for a budget modification, which was approved during Q1.

Activity Description:

Street Improvements
Newton County shall replace bridges and complete all associated appurtenances. This activity meets the low- and moderate-income national objective through the use of census tract and block group ACS 2015 LMISD.
Flood and Drainage Facilities
Newton County shall install one box culvert on Whitman Branch. This activity meets the

low- and moderate-income national objective through the use of a survey.

Location Description:

Street Improvements construction shall take place in Newton County at:

- Bridge 1 - CR 1021, Hunter Creek,
- Bridge 2 - CR 1022, Melhomes Creek/Irving Branch,

- Bridge 4 - CR 3037, East Branch White Oak Creek,
- Bridge 5 - CR 3038, East Branch White Oak Creek, and
- Bridge 7 - CR 3073, Whitman Branch.

Flood and Drainage Facilities construction shall take place approximately 55' east of Davison Street.

Activity Progress Narrative:

During the reporting period, Newton County had no activity. Closeout underway.

Activity Description:

Deep East Texas Council of Governments (DETCOG) shall install aerial and buried fiber optic lines to connect existing cell towers to the internet backbone. For towers where a direct fiber connection is not feasible, point-to-point microwave link technology will be utilized. All associated appurtenances will be completed. These activities will meet the low to moderate income national objective.

Location Description:

Construction shall take place at Deep East Texas Council of Governments (DETCOG) at Cell Tower 71, 65, 67, 69, 72-75, 78, 79, 80, 82, and Fiber Optic Lines.

Activity Progress Narrative:

During the reporting period, the activity had an amendment to extend the end date.

Activity Description:

City of Buffalo shall upgrade and expand the City of Buffalo’s Wastewater Treatment Plant. The project will include improvements or replacements to the gravity influent lines, aeration basins, clarifiers, blower facilities, sludge handling, disinfectant, electrical systems, and gravity outfall. These activities will meet the low to moderate income national objective.

Location Description:

Construction shall take place in the City of Buffalo at Wastewater Plant.

Activity Progress Narrative:

During the reporting period, the City of Buffalo had completed construction for its Sewer facilities project. A Ribbon Cutting event with the GLO Commission in attendance for the WW Treatment Plant took place on 1/9/2026.

Activity Description:

The City of Dayton shall rehabilitate sanitary sewer lines with pre-construction cleaning and pipe bursting, replace sanitary sewer lines, brehabilitate manholes, and complete associated appurtenances for the Hunnicutt Subdivision.
The City of Dayton shall rehabilitate sanitary sewer lines with pre-construction cleaning and pipe bursting, replace sanitary sewer lines, rehabilitate manholes, and complete associated appurtenances for the Sindt Subdivision.
These activities meet the low- and moderate-income national objective through the use of surveys for both projects.

Location Description:

Construction for the Hunnicutt Subdivision shall take place in the City of Dayton along State Hwy 321, Paul Street, Hunnicutt Street, McBride Street, Brooks Street, State Highway 321, and West Austin Street,
Construction for the Kindt Subdivision shall take place in the City of Dayton along Tram Road, End of Tyler Street, and Kindt Drive.
Service area for each project is distinct.

Activity Progress Narrative:

During the reporting period, the City of Dayton had construction underway for its sewer improvement project.

Activity Description:

Street Improvements
The City of Refugio shall excavate site, regrade and repair the existing road base, and complete associated appurtenances for the Whitlow Street project.
Flood & Drainage
The City of Refugio shall construct a new underground storm sewer with adjacent functionally dependent junction boxes and complete associated appurtenances for the Whitlow Subdivision Drainage project.
This activity meets the low- and moderate-income national objective through the use of surveys.

Location Description:

Construction for the Whitlow Street project shall take place in the City of Refugio along Huisache Street, Tallow Drive, La Cost Street, West Heard Street, West Bailey Street, Magnolia Drive, Lantana Street, and Douglas Street.
Construction for the Whitlow Subdivision Drainage project will take place in the City of Refugio along Magnolia Drive, Huisache Street, West Heard Street, Tallow Drive, Lantana Street, Douglas Street, La Cost Street, and West Bailey Street.
The Whitlow Subdivision Drainage project service area totally encompasses the service area for the Whitlow Street project. Beneficiaries are only counted once. All other service areas are distinct.

Activity Progress Narrative:

During the reporting period, the Town of Refugio had construction procurement for its street improvements and flood and drainage project.

Activity Description:

Public Facilities
Jasper County shall clear, grub, and grade site; pave concrete; construct building and parking area; install utilities, generator, and transfer switch; and complete associated appurtenances for the Pct 1 - Dixie Community Shelter of Last Resort Project.
Street Improvements
Jasper County shall prepare right-of-way; scarify, reshape, and compact road; stabilize base; install roadway shoulders; install roadway, driveway, and mailbox turnouts; relocate mailboxes; replace culverts; fertilize and

seed; complete stormwater pollution prevention plan; and complete associated appurtenances for the Pct 2/3 - CR 328/CR 317 project. Jasper County shall prepare right-of-way; scarify, reshape, and compact road; stabilize base; install roadway shoulders; install roadway, driveway, and mailbox turnouts; relocate mailboxes; replace culverts; fertilize and seed; complete stormwater pollution prevention plan; and complete associated appurtenances for the Pct 2 - CR 323 project.
Water Facilities
Jasper County shall remove and replace existing elevated storage tank; pipe yard; install fence, generator, and electrical; construct access road; and complete associated appurtenances for the Pct 2 - Kirbyville Water project. Jasper County shall acquire land; construct a new elevated storage tank; plug and abandon existing well; install a groundwater well, fence, chlorine feed equipment, flow meter, and electrical; pipe yard; construct access road; and complete associated appurtenances for the Pct 4 - Evadale Water project.
These activities meet the low- and moderate-income national objective through the use of surveys for the Pct 1 - Dixie Community Shelter of Last Resort, Pct 2/3 - CR 328/CR 317, Pct 2 - CR 323, and Pct 4 - Evadale Water, and State Median Income (SMI) waiver City-Wide LMISD for the Pct 3 - Kirbyville Water project.

Location Description:

Construction for the Pct 1 - Dixie Community Shelter of Last Resort project shall take place in Jaspter County at Dixie Community Shelter of Last Resort.
Construction for the Pct 2/3 - CR 328/CR 317 project shall take place in Jasper County along CR 317 and CR 328.
Construction for the Pct 2 - CR 323 project shall take place in Jasper County along CR 323 and CR 322.
Construction for the Pct 3 - Kirbyville Water project shall take place in Jasper County at Kirbyville Elevated Storage Tank.
Construction for the Pct 4 - Evadale Water project shall take place in Jasper County at Evadale Water Well/Tower.
Service areas for each project are distinct.

Activity Progress Narrative:

During the reporting period, Jasper County had 84% of construction complete for it Public Facilities, Street Improvements, water facility projects, and public facility projects.

B-19-DT-48-0001	$0.00	$0.00

Activity Description:

The City of Woodville shall complete Storm Water Pollution Prevention Plan (SWPPP); scarify, reshape, and recompact roadway; replace culverts and roadway turnouts; and complete associated appurtenances for the Carlow Hill Rd project.
The City of Woodville shall complete Storm Water Pollution Prevention Plan (SWPPP); scarify, reshape, and recompact roadway; replace culverts and roadway turnouts; and complete associated appurtenances for the Beech/Dogwood Area project.
These activities will meet the low- and moderate-income national objective through the use of city-wide LMISD and census tract and block group LMISD, both with the state Standardized Area Median Income (SMI) waiver

applied.

Location Description:

Construction for the Carlow Hill Rd project shall take place in the City of Woodville at Carlow Hill Rd.
Construction for the Beech/Dogwood Area project North Beech St, South Beech St, West Dogwood Street Section 1 and 2.
Service areas are not distinct and overlap. The projected beneficiaries for this activity are not duplicated.

Activity Progress Narrative:

During the reporting period, the city of Woodville has 50% of construction complete for its Street Improvement project.

Activity Description:

The City of Santa Fe shall rehabilitate current roadways, which includes a full depth repair finished with a final surface of asphalt, and complete associated appurtenances for both the North Road Improvements and South Road Improvements projects. This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective through the use of surveys.

Location Description:

Construction for the North Road Improvements project shall take place within the City of Santa Fe along 12th Street, North Main Street, 13th Street, Avenue H, 16th Street, and 17th Street.
Construction for the South Road Improvements project shall take place along Avenue M, Mulberry Street, 18th Street, 22nd Street, 21st Street, Avenue L, West 23rd Street, East 23rd Street, Avenue K, and 24th Street.
Service areas for each project are distinct.

Activity Progress Narrative:

During the reporting period, the City of Santa Fe completed construction and is pending submission of construction completion documentation for its Street Improvements projects. Environmental review underway for its Public Facilities project.

Activity Description:

The City of Livingston shall remove and replace concrete pavement, improve driveway inlets, and complete associated utility relocation. Utility relocation includes installation of water and sanitary sewer lines, reshaping of drainage ditches, completion of storm sewer system improvements, and completion of all associated appurtenances.
The City of Livingston shall remove and replace concrete pavement, install new water and sanitary sewer lines, improve driveway inlets and drainage, and complete associated appurtenances for the West Street Rehabilitation project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not

double count overlapping areas. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas.
These activities meet the low- and moderate-income national objective through the use of census tract and block group with the State Standardized Area Median Income (SMI) waiver applied for the above projects.
Please see the Geography tab for census defined activities.

Location Description:

Construction for the Willis Street Improvements project shall take place in the City of Livingston along Willis Avenue, W. West Street (Storm sewer), and N. Pine Avenue (ditches) for the Willis Street Improvements project.
Construction for the West Street Rehabilitation project shall take place in the City of Livingston along West Street from North Beatty Avenue to North Houston Avenue for the West Street Rehabilitation project.

Activity Progress Narrative:

During the reporting period, the City of Livingston submitted an amendment to add local funds and is 40% construction completed for their SI projects.

Activity Description:

Polk County shall demolish the existing Polk County building with asbestos and lead abatement, construct two shelters of last resort, install utilities and fire sprinkler system, pave and stripe road, and complete associated appurtenances for the Shelters of Last Resort project. This activity meets the low- and moderate-income national objective through the use of the FY-21 County-Wide LMISD with State Median Waiver applied.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, and complete associated appurtenances for the River Road project. This activity meets the low- and moderate-income national objective through the use of surveys.

Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, and complete associated appurtenances for the El Camino Road project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, and complete associated appurtenances for the Ellis Grimes project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, and complete associated appurtenances for the Timberline Drive project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall remove and replace bridge structures with piping; install abutment slab beams, reinforced slab, and backfill.
Street Improvements shall reconstruct road base and surface, install culverts and driveway turnouts, and complete associated appurtenances for the May Drive/Hodge Bottom Road project. This activity meets the low- and moderate-income national objective through the use of the FY-21 Cesus Tract/Block Group LMISD with State Median Waiver applied.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, riprap, and complete associated appurtenances for the Hidden Valley project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, riprap, and complete associated appurtenances for the One Such/Mabank project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall reconstruct road base and surface, install culverts and driveway turnouts, riprap, and complete associated appurtenances for the Route 66 project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall install filter systems, tanks, media, pipes, and valves, and complete associated appurtenances for the Leggett WSC project. This activity meets the low- and moderate-income national objective through the use of surveys.
Polk County shall install pressure tanks, tank saddles, foundation, pipes, and valves, modify control, and complete associated appurtenances for the Shiloh Ridge WSC project. This activity meets the low- and moderate-income national objective through the use of surveys.

Location Description:

Construction for the Shelters of Last Resort project shall take place in Polk County at Lake Livingston Shelter of Last Resort, and Polk County Shelter of Last Resort.
Construction for the River Road project shall take place in Polk County along Drew's Landing Road and River Road.
Construction for the El Camino Road project shall take place in Polk County along El Camino Road.
Construction for the Ellis Grimes project shall take place in Polk County along Ellis Grimes Road.
Construction for the Timberline Drive project shall take place in Polk County along Timberline Drive.
Construction for the May Drive/Hodge Bottom Road project shall take place in Polk County along Hodge Bottom Road and May Drive.
Construction for the Hidden Valley project shall take place in Polk County along Hidden Valley Road.
Construction for the One Such/Mabank project shall take place in Polk County along Rockdale Road, Carthage Road, Mabank Road, and One Such Road.
Construction for the Route 66 project shall take place in Polk County along Route 66 Road.
Construction for the Leggett WSC project shall take place in Polk County along Water Plant 6/8 and Water Plant 5/7.
Construction for the Shiloh Ridge WSC project shall take place in Polk County along Water Plant #2 and Water Plant #3.

Activity Progress Narrative:

During the reporting period, Polk County had engineering design underway for its Public Improvements project.

Activity Description:

Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 2 - CR 2175/2200 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 3 - CR 4005 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 3 - CR 4020/4025 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 3 - CR 4070 Area project.

Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 4 - CR 4774 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 1 - CR 1060/1065 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 1 - Ivanhoe Drive project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 1 - CR 1325 project.
These activities meet the low- and moderate-income national objective through the use of surveys for projects Pct 2 - CR 2175/2200, Pct 3 - CR 4005, Pct 3 - CR 4020/4025, Pct 3 - CR 4070, Pct 4 - CR 4774, Pct 1 - CR 1060/1065, and Pct 1 - CR 1325. Project Pct 1 - Ivanhoe Drive meets the national objective through the use of city-wide LMISD.

Location Description:

Construction for the Pct 2 - CR 2175/2200 project shall take place in Tyler County at CR 2200 at CR 2175.
Construction for the Pct 3 - CR 4005 project shall take place in Tyler County at CR 4005.
Construction for the Pct 3 - CR 4020/4025 project shall take place in Tyler County at CR 4020 and at CR 4025.
Construction for the Pct 3 - CR 4070 Area project shall take place in Tyler County at CR 4075, CR 4074, CR 4073, CR 4071, CR 4070, and CR 4072.
Construction for the Pct 4 - CR 4774 project shall take place in Tyler County at Cr 4774.
Construction for the Pct 1 - CR 1060/1065 project shall take place in Tyler County at CR 1065 and CR 1060.
Construction for the Pct 1 - Ivanhoe Drive project shall take place in the City of Ivanhoe at Ivanhoe Drive.
Construction for the Pct 1 - CR 1325 project shall take place in Tyler County at CR 1325.
All service areas are distinct covering the city of Ivanhoe and scattered sites around Tyler County.

Activity Progress Narrative:

During the reporting period, Tyler County had 50% of construction underway for its Street Improvements project.

Activity Description:

The City of Newton shall install water main and fittings, fire hydrant assemblies, and driveway crossings, ground storage tank, booster pumps, pump building, chlorination system, piping, power generator, electrical controls, fencing; and complete associated appurtenances. for the Water Improvements project.
The City of Newton shall rehabilitate oxidation rotors, replace lift station pumps, perform electrical and piping modifications, and complete associated appurtenances for the Sewer Improvements project.
These activities meet the low- and moderate-income national objective through the use of city-wide LMISD with the state Standardized Area Median Income (SMI) waiver for both projects.
Please see the documents tab for the source data of the service area.

Location Description:

Construction for the Water Improvements project shall take place in the City of Newton at TX Hwy 87.
Construction for the Sewer Improvements project shall take place in the City of Newton at 2118 Davidson St.
Service areas for both project are the same and constitute a city-wide benefit.

Activity Progress Narrative:

During the reporting period, the City of Newton Awarded construction and contract and issued NTP for their Sewer project, held precon for the booster pumps and elevated storage tanks, and completed installation of water main and fittings, fire hydrant assemblies, and drive way crossings.

Activity Description:

Fort Bend County shall prepare, clear, and grub site, seed, excavate, stockpile, backfill, dispose of material, install stone, and complete associated appurtenances for the Evacuation Route - US 59/IH 69 Bridge River Bank Erosion Repair project.
Fort Bend County shall acquire land, excavate and dispose material, construct detention basin including weir, outfall pipes, backslope interceptor structure, and complete associated appurtenances for the Mustang Bayou Detention Basin project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not double count overlapping areas. The projected beneficiaries in the Measure tab represent the “Total Number of

Persons” to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas. This activity meets the low- to moderate-income national objective through the use of census tracts and block groups for the Evacuation Route - US 59/IH 69 Bridge River Bank Erosion Repair project and use of surveys for the Mustang Bayou Detention Basin project.

Location Description:

Construction for the Evacuation Route - US 59/IH 69 Bridge River Bank Erosion Repair project shall take place in Fort Bend County along the Brazos River.

Construction for the Mustang Bayou Detention Basin project shall take place in Fort Bend County at 3823 Kansas St, Fresno.

Activity Progress Narrative:

During the reporting period, Fort Bend County completed environmental review for its flood and drainage project.

Activity Description:

The City of League City shall acquire land, install detention pond and storm sewers, and complete associated appurtenances for the Interurban W. Wilkins, W. Saunders and W. Galveston Drainage Project.
The City of League City shall remove and replace existing concrete driveways and sidewalks, complete fire hydrant assembly, install storm sewer system and manholes, and complete associated appurtenances for the Main and Wesley Dr Drainage Project.
These activities meet the low- and moderate-income national objective through the use surveys. The City of League City is a HUD Exception Grantee with a LMI Threshold of 37.73%.

Location Description:

Construction for the Interurban W. Wilkins, W. Saunders and W. Galveston Drainage Project shall take place in League City at Interurban W. Wilkins St, Interurban W. Saunders St, and Interurban Detention Pond northeastward of the intersection of W Galveston St and Interurban St.
Construction for the Main and Wesley Dr Drainage Project shall take place in League City at Wesley St, Highland Terrace and Alleway from Main St at Highland Terrace Dr.
Service areas are distinct for each project.

Activity Progress Narrative:

During the reporting period, the City of League City had acquisition underway for its flood and drainage improvements project.

Activity Description:

Flood and Drainage
The Houston-Galveston Area Council shall provide riverbank erosion repair, install stone and seed, and complete associated appurtenances for the Fort Bend County - Brazos River Erosion at Simonton Pinch Point project.
Sewer Improvements
The Houston-Galveston Area Council shall install gravity sewer, service laterals, manholes, lift station, and force main; upgrade central pump station; rehabilitate vacuum pit and collections line; and complete associated appurtenances for the City of Surfside Wastewater Improvements project.
This activity meets the low- to moderate-income national objective through the use of census tract and block

group ACS 2015 LMISD for the Fort Bend County - Brazos River Erosion at Simonton Pinch Point project.

This activity meets the low- to moderate-income national objective through the use of City-Wide ACS 2015 LMISD for the City of Surfside Wastewater Improvements project.

Location Description:

Construction shall take place in Austin County, Fort Bend County, and Waller County at Simonton Pinch Point - North and Simonton Pinch Point - South.

Activity Progress Narrative:

During the reporting period, HGAC had engineering design and environmental review underway for its flood and drainage project.

Activity Description:

Jefferson County Drainage District No. 7 shall demolish an existing pump station; construct a pump house; install SCADA, air pumps, tanks, piping, controls, bay, and box culverts; relocate utilities; improve existing pump stations, including motor controls and generators; install or replace and elevate electrical components and instrumentation; and complete associated appurtenances for the Pump Station Improvements project.
Jefferson County Drainage District No. 7 shall increase capacity at the existing detention site. Improvements include site excavation; installation of a drain system, siphon structure, overshot gate, bridge, pumps and riprap; and completion of associated appurtenances for the Halbouty Detention Pond Expansion project.

These activities meet the low- and moderate-income national objective through the use of city-wide 2015 ACS LMISD with the State Median Income waiver applied.

Location Description:

Construction for the Pump Station Improvements project shall take place in the City of Port Arthur at Shreveport Pump House, Foley Avenue Pump Station, Delmar Pump Station, Memorial Pump Station, Houston Pump Station, Central Pump Station, Lakeview Pump Station, West Port Arthur Pump Station, and the 9th Avenue Pump Station.
Construction for the Halbouty Detention Pond project shall take place in the City of Port Arthur at the Halbouty Detention Pond.

Activity Progress Narrative:

During the reporting period, Jefferson County Drainage District 7 had preliminary engineering design underway for its flood and drainage project.

Activity Description:

Hardin County shall install culverts and headwalls, construct and elevate road, and complete associated appurtenances for the Gore Store Channel Crossing and Roadway Improvements (Silsbee/Kountze/Village Mills) project for the Silsbee Roadside Ditch & Channel Improvements (West side of FM 92, North/South of Hwy. 327) project. This activity meets the low- and moderate-income national objective through the use of Census Tract/Block Group based on the FY-21 LMISD State Median Income waiver applied. Hardin County is a HUD Exception Grantee. Its LMI threshold is 49.52%.
Hardin County shall excavate, install linings, adjust storm culvert elevations, excavate and rehabilitate roadside ditches, replace culverts and roadway, install headwalls, and complete associated appurtenances for the

Silsbee Roadside Ditch & Channel Improvements (West side of FM 92, North/South of Hwy. 327) project. This activity meets the low- and moderate-income national objective through the use of Census Tract/Block Group based on the FY-21 LMISD State Median Income waiver applied.

Location Description:

Construction for the Gore Store Channel Crossing and Roadway Improvements (Silsbee/Kountze/Village Mills) project shall take place in Hardin County along Gore Store Road.
Construction for the Silsbee Roadside Ditch & Channel Improvements (West side of FM 92, North/South of Hwy. 327) shall take place in Hardin County along Myrtle Street, Outlaw Avenue, Barefield Street, Norvell Street, Gerson Street, Harris Street, Weevil Street, Boll Street, West Avenue K-P, West Martin Luther King Jr. Drive, Gary Lane, Dillion Drive, Avenue P Extended, Maxwell Drive, Briarwood Street, Lindsey, Marshall Lane, Ikes Lane, Forrester Street, Magnolia Avenue, Engle Avenue, Chance Street, Durdin Drive, Woodrow Street, South 14th-21st Street, South 16th 1/2 Street, Pine Street, South 6th-12th Street, Pinecrest Drive, Lindsey Road, Turtle Creek Drive, Case Road, Live Oak Road Sweat Road, Hendricks Channel, Hendricks Storm Sewer and Road Repair (1) (George Street), Hendricks Storm Sewer and Road Repair (2) (Wade Street), and Hendricks Storm Sewer and Road Repair (3) (Leola Street).

Activity Progress Narrative:

During the reporting period, Hardin County had construction procurement underway for its flood and drainage project

Activity Description:

The City of Galveston shall remove and replace existing storage tanks and foundation, modify SCADA, and complete associated appurtenances for the 59th Street Water Storage Tank project.
The City of Galveston shall install a waterline on the Galveston Causeway bridge to include concrete reaction blocks, air valves, expansion joints, hanger assemblies, bridge bent extensions, and other associated appurtenances. Further, the subrecipient shall install a portion of the waterline by open cut methods, butterfly valves, wet connections and appurtenances along the proposed alignment which includes the crossing of wetlands at Galveston Island. The project also includes the construction of an above-ground Pressure Reducing Station and Metering Station on Galveston Island that includes the installation of pressure reducing valves

(PRV), full-port electromagnetic flow meter, pressure transmitters, air valve, butterfly valves and aboveground piping. Construction of control panel concrete pole, cast-in-place base and installation of electrical duct banks by trenchless methods, control panel box and electrical systems is also required. The City of Galveston will remove existing RCP culverts and replace with new culverts along the waterline alignment in Virginia Point and the removal and replacement of existing asphalt pavement along the IH-45 Frontage Road, gravel driveway restoration and removal and replacement of existing concrete pavement on railroad causeway bridge access road on Galveston Island for the Causeway Waterline project.
This activity meets the low- and moderate-income national objective through the use of the FY-21 City-Wide LMISD with state Standardized Area Median Income (SMI) waiver applied.

Location Description:

Construction for the 59th Street Water Storage Tank project shall take place in the City of Galveston at 59th Street Pump Station.
Construction for the Causeway Waterline project shall take place in the City of Galveston at Water Transmission Main from Virginia Point to the tie-in point on Galveston Island, and PRV & Metering Station at Virginia Point.

Activity Progress Narrative:

During the reporting period, Galveston had engineering design and environmental review underway for its water facilities project.

Activity Description:

The City of La Grange shall acquire easement; excavate channels; install storm sewers, junction boxes, storm inlets, storm sewer tie-ins, outfalls, and culverts; relocate utilities; reconstruct streets; and complte associated appurtenances for the Citywide Drainage Project. This activity meets the low- to moderate-income national objective using the city-wide LMISD data with the State Median Income waiver applied.

Location Description:

Construction for the Citywide Drainage project shall take place in the City of La Grange at Franklin Street, Washington Street Drainage, Main Street, Weikel Schiller, and Beefhead Ditch.

Activity Progress Narrative:

During the reporting period, the City of La Grange completed construction procurement for Parts 3,4,5 of the overall city-wide Flood & Drainage project. Additionally, Parts 1 and 2 are still undergoing communication with landowners regarding land acquisition for easements.

Activity Description:

The City of Jasper shall acquire land, install sewer lines, rehabilitate and replace manholes, repair pavement, reconnect services and complete associated appurtenances for the Citywide Sewer Improvements project.
The City of Jasper shall scarify, reshape and compact road, stabilize subgrade, resurface roads, install culverts and turnouts, and complete associated appurtenances for the Hi Truitt/Temple project.
This activity consists of the above projects with the same service areas. The projected beneficiaries in the Measures tab represent the “Total Number of Persons” to benefit from the service area. These activities meet the low- to moderate-income national objective using the FY-21 city-wide LMISD with the State Median Income waiver applied. Please see the documents tab for the source data of the service area.

Location Description:

Construction for the Citywide Sewer Improvements project shall take place in the City of Jasper along Peachtree and Childers Streets, property easements from the intersection of 2nd and College Street to Peachtree Street, Water Street, Willow Drive, property easements from the Wastewater Treatment Plant to Marvin Hancock Drive, and North Peachtree and Eleanor Streets. Construction for the Hi Truitt/Temple project shall take place on Temple Spur, Temple Drive, and Hi Truitt Road. Projects share the same service area.

Activity Progress Narrative:

During the reporting period, the City of Jasper had completed street improvement and completed engineering design for its sewer facility project.

Activity Description:

Sewer Facility Improvements
The City of Richmond shall remove and replace clarifiers and complete all associated appurtenances for the Clarifier Improvements at Waterwater Treatment Plant project.
Water Facility Improvements
The City of Richmond shall install pad, altitude control valves, pipe, valves, supports, and electrical, modify SCADA system, and complete associated appurtenances for the Elevated Storage Tank Altitude Valves project, and shall install pad, generator, fuel storage tank, transfer switch, and electrical and complete associated appurtenances for the Downtown Water Plant Generator Project.

This activity consists of three individual projects that each have the same city-wide serivce area for the City of Richmond. The projected beneficiaries represent the total number of persons to benefit from the service area.
This activity meets the low- and moderate-income national objective using the City-Wide ACS 2015 LMISD for these projects.

Location Description:

Construction shall take place in the City of Richmond at the following locations.
The Clarifier Improvements at Wasterwater Treatment Plant project shall take place at 220 Legion Dr.
The Elevated Storage Tank Altitude Valves project shall take place at Richmond Parkway Elevated Storage Tank at 1606 Richmond Pkwy, Downtown Elevated Storage Tank at 104 South Fourth St, and George Elevated Storage Tank at 1816 George St.
The Downtown Water Plant Generator project shall take place at 104 South Fourth Street.

Activity Progress Narrative:

During the reporting period, the City of Richmond had amendment submitted for scope change.

B-19-DT-48-0001	$0.00	$0.00

Activity Description:

Aransas County shall excavate, install pipe, culverts, inlets, junction boxes and headwalls, repair pavement, and complete associated appurtenances for the Lamar Drainage project.
Aransas County shall excavate, install pipe, pave road, and complete associated appurtenances for the Cactus St Improvements project.
Aransas County shall excavate, install pipe, pave road and complete associated appurtenances for the Broadway St Improvements project.
Aransas County shall excavate, install pipe, pave road and complete associated appurtenances for the Palmetto

St Improvements project.
Aransas County shall excavate, install pipe, pave road and complete associated appurtenances for the Chaparral St Improvements project.
Aransas County shall excavate, install pipe, pave road and complete associated appurtenances for the Mesquite St Improvements project.
Aransas County shall excavate, install pipe, pave road and complete associated appurtenances for the Myrtle St Improvements project.
Aransas County shall install microwave antennas, clock and radio, and complete associated appurtenances for the Communication Infrastructure project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not double count overlapping areas. The projected beneficiaries in the Measure tab represents the total number of persons to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas. This activity meets the low- and moderate-income national objective using the County-Wide ACS 2015 LMISD with the State Standardized Area Median Income (SMI) waiver applied.

Location Description:

Construction shall take place in Aransas County at 4th St and Palmetto St, Lakeside Dr, S Lake Drive, E Lake Dr, E Lake Dr west easement, Easement west of Conlin St, 12th St, and Bee Tree Cir for the Lamar Drainage project.
Construction shall take place in Aransas County at Cactus St for the Cactus St Improvements project.
Construction shall take place in Aransas County at Broadway St for the Broadway St Improvements project.
Construction shall take place in Aransas County at Palmetto Ave for the Palmetto St Improvements project.
Construction shall take place in Aransas County at Chaparral St for the Chaparral St Improvements project.
Construction shall take place in Aransas County at Mesquite St for the Mesquite St Improvements project.
Construction shall take place in Aransas County at Myrtle St for the Myrtle St Improvements project.
Construction shall take place in Aransas County at Tower 1 at Texas State Hwy 188, Tower 2 at Texas State Hwy 35 N, and Tower 3 at N Live Oak for the Communication Infrastructure project.

Activity Progress Narrative:

During this reporting period, Aransas County billed for grant administration, engineering, and environmental?related services for its F&D (Lamar Drainage), SI (Fulton Streets), and PF (Communication Infrastructure (including the commencement of the bid for communication infrastructure) improvement projects.

Activity Description:

Sewer Facilities
The City of Fayettville shall install above ground aeration basin, catwalk, pipe, blowers, pumps, electrical; and complete associated appurtenances for the Wastewater Improvements project.

Water Facilities
The City of Fayetteville shall install water line, gate valves, fire hydrants, pipe, and electrical controls; construct booster pumps building and install booster pumps; reconnect services and fire hydrants; pave road; and complete associated appurtenances for the Water System Improvements project.

This activity consists of projects with the same service areas. The projects are as follows, Wastewater Improvements project and Water System Improvements project. The projected beneficiaries in the Measures tab tab represent the “Total Number of Persons” to benefit from the service area. This activity meets the low- and moderate-income national objective using the City-Wide ACS FY-2021 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the Wastewater Improvements project and Water System Improvements project. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Fayetteville. Construction for the Wastewater Improvemnts project shall take place at the Wastewater Treatment Plant. Construction for the Water Systems Improvement project shall take place on Fayette Street, North Live Oak Street 1, North Live Oak Street 2, North Washington Street and Franklin Street, Bell Street and Church Street, North Rusk Street, East Franklin Street, Post Oak Lane and East Main Street, and the Water Treatment Plant.

Activity Progress Narrative:

During the reporting period, the City of Fayetteville completed Environmental Record Review and had construction procurement underway for Sewer Facilities project. Additionally, engineering drawings need to be submitted to TXDOT for permit approval for its Water Facilities project.

Activity Description:

Sewer Facilities
The City of Carmine shall rehabilitate wet wells; install pumps, pipe, and electrical; and complete associated appurtenances for the 4G and Park Lift Station Upgrades project.
Water Facilities
The City of Carmine shall acquire land; drill and construct a new water well; install a pump; connect to water system; install a generator; and complete associated appurtenances for the New Water Well and Generator project.
This activity consolidates the distinct service areas of each of the following projects into one total reportable area, 4G and Park Lift Station Upgrades project and New Water Well and Generator project. The projected

beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective using surveys. The City of Carmine is a HUD Exception Grantee. Their LMI threshold is 46.25%. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Carmine. Construction shall take place at 4G Lift Station and Park Lift Station for the 4G and Park Lift Station Upgrades project. Construction shall take place at Pratt Hill Water Plant and Water Well 3-Brunn Lane for the New Water Well and Generator project.

Activity Progress Narrative:

During the reporting period, the City of Carmine completed Environmental Record Review and had construction procurement underway for its Water Facilities project. Amendment request is also currently under review to remove Sewer Facility project from overall Contract.

Activity Description:

Water Facilities
San Patricio County shall install mixing and tank heating system, manifold, pumps, pump house winterization, water supply, bladder, and complete associated appurtenances for the Odem Water Improvements project.
Flood & Drainage
San Patricio County shall acquire land; excavate channel; grade ditch; install riprap and culverts; and complete associated appurtenances for the Peters Swale project.
San Patricio County shall excavate; remove and replace pavement and pipe; install inlets and manholes; and complete associated appurtenances for the Colony Improvements project.

San Patricio County shall acquire land; excavate; regrade ditches; remove pipe; install culverts and wingwalls; remove and replace pavement; and complete associated appurtenances for the Taft Drainage Improvements project.
San Patricio County shall excavate ditches; install culverts and pipe; remove and replace pavement; and complete associated appurtenances for the Lake City project.
San Patricio County shall regrade channel; relocate utilities; and complete associated appurtenances for the Aransas-Pass-Dredging of Navigation District Channel project.
San Patricio County shall regrade ditch; install culverts; remove and replace pavement; and complete associated appurtenances for the SH 188 at CR 630 project.
San Patricio County shall excavate; remove and replace pavement; install culvert; and complete associated appurtenances. for the FM 1945 Culvert Replacement project.
This activity consolidates the distinct service areas for the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas.

Location Description:

Construction shall take place in San Patricio County.
Construction shall take place at Odem Water Imporvements for the Odem Water Improvements project.
Construction shall take place at Peters Swale and Peters Swale - Tributary for the Peters Swale project.
Construction shall take place at Sodville Road/County Road 1272/Easement and Easement/County Road 57A for the Colony Improvements project.
Construction shall take place along Toland Avenue/Easement/US Highway 181 for the Taft Drainage Improvements project.
Construction shall take place along Stephens Loop, Paisano Hills, Morgan Street, South Mesquite Drive, McGloin Drive, Mark Avenue, Mark Alan Lane, Laurie Drive, Lakeview Drive, Lake Terrace Drive, Lake Street, Kelly Lane, Island Drive, Holman Road, Haston Drive, Cox Drive, Bayview Drive, Baldwin Avenue, 4th Streed, 3rd Street, and 2nd Street for the Lake City project.
Construction shall take place along Aransas Pass Navigation Channel 1-4 for the Aransas Pass-Dredging of Navigation District Channel project.
Construction shall take place along TX State Highway 188 for the SH 188 at CR 630 project.
Construction shall take place at the Farm to Market Road 1945 for the FM 1945 Culvert Replacement project.

Activity Progress Narrative:

During the reporting period, San Patricio County had preliminary engineering design underway for its flood and drainage projects.

Activity Description:

The City of Bay City shall remove and replace culverts; install inlets and storm sewer; regrade ditches; and complete associated appurtenances for the City of Bay City: Area 14 - Drainage Improvements project.
The City of Bay City shall remove culverts; stabilize creek bank; and complete associated appurtenances for the City of Bay City: Area 19 - Drainage Improvements project.

This activity consolidates the distinct service areas of each of the following projects into one total reportable area for the above projects. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate- income national

objective using Census Track/Block Group LMISD. LMISD based on FY-21 LMISED with State Median Income Waiver applied for the City of Bay City: Area 14 - Drainage Improvements project, and using surveys for the City of Bay City: Area 19 - Drainage Improvements project. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Bay City. Construction shall take place along Avenue A, Le Tulle Avenue, Moore Avenue, Roberts Road, Wihtson Street, Avenue D, Avenue C, Duncan Street, Pearl Street, Basin Street, Robinson Avenue, Rampart Street, Moore Avenue, and Nolan Avenue for the City of Bay City: Area 14 - Drainage Improvements project. Construction shall take place along Cottonwood Creek for the City of Bay City: Area 19 - Drainage improvements project.

Activity Progress Narrative:

During the reporting period, City of Bay city has begun bidding Area 14 and completing design/ acquisition for area 19 for its F&D project.

Activity Description:

City of Port Lavaca shall complete acquisition; construct a new stormwater pond; upgrade storm drain system; replace and regrade ditch; and complete associated appurtenances for the Corporation Ditch Project.
City of Port Lavaca shall excavate the site and shoreline; install erosion control; and complete associated appurtenances for the Harbor of Refuge Drainage Project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not double count overlapping areas. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas. This activity meets the low- and moderate-income national objective using Census Tract and Block Group

ACS 2015 LMISD for both projects.
Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in City of Port Lavaca Along Half League Road/Schooley Street/Easement, Half League Outfall, Stormwater Pond, Along Corporation Concrete Ditch, and Along Corporation Grass Ditch for the Corporation Ditch Project.
Construction shall take place in City of Port Lavaca Along Harbor of Refuge western shoreline for the Harbor of Refuge Drainage Project.

Activity Progress Narrative:

During the reporting period city of Port Lavaca is continuing to work on environmental review working toward AUGF for their F&D project.

Activity Description:

Sewer Facilities
Refugio County shall rehabilitate clarifier; upgrade electricals and bar screen; and complete associated appurtenances for the Woodsboro WWTP Improvement project.
Refugio County shall install chlorination equipment; upgrade chlorination chamber; remove sludge; replace line; and complete associated appurtenances for the Bayside WWTP Improvements project.
Water Facilities
Refugio County shall install reverse osmosis pilot plant; install grates and membranes; and complete associated appurtenances for the Bayside Water Facility project.

Flood and Drainage
Refugio County shall treat surface; install prime coat, textile, crown and base; regrade ditch; and complete associated appurtenances for the Old Gin Rd Drainage Improvements project.
Refugio County shall treat surface and base; install prime coat, textile, crown and base; regrade ditch; and complete associated appurtenances for the Kelley-Elliot Rd Drainage Improvements project.
Refugio County shall treat surface; install prime coat and crown; reconstruct pavement; regrade ditch; and complete associated appurtenances for the Jackson Road Flood Improvements project.
Refugio County shall install foundation, crown, and prime coat; treat surface; regrade ditch; and complete associated appurtenances for the Fox Road Flood improvements project.
Refugio County shall replace culverts, and complete associated appurtenances for the Bayside Drainage project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas.
This activity meets the low- and moderate-income national objective using City-Wide ACS 2020 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the Woodsboro WWTP Improvement project, Bayside WWTP Improvement project, and Bayside Water Facility project.
This activity meets the low- and moderate-income national objective using surveys for the Old Gin Rd Drainage Improvements project, Kelley-Elliot Rd Drainage Improvements project, Jackson Road Flood Improvements project, Fox Road Flood Improvements project, and Bayside Drainage project. Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in Refugio County.
Construction shall take place at Woodsboro WWTP 145-147 Farm to Market Road 1360, Woodsboro, TX for the Woodsboro WWTP Improvement project.
Construction shall take place at Bayside WWTP 180 Autry Road, Bayside, TX for the Bayside WWTP Improvements project.
Construction shall take place at Bayside Water Treatment Plant 601 4th Street, Bayside, TX for the Bayside Water Facility project.
Construction shall take place at Old Gin Road From Farm to Market Road1360 southward to Vega Road for the Old Gin Rd Drainage Improvements project.
Construction shall take place along Kelley Road and Elliot Road for the Kelley-Elliot Rd Drainage Improvements project.
Constructions shall take place along Jackson Road for the Jackson Road Flood Improvements project.
Constructions shall take place along Fox Road for the Fox Road Flood Improvements project.
Constructions shall take place along Paisano Street/2nd Street and Bayview Street/2nd Street for the Bayside Drainage Project.

Activity Progress Narrative:

During the reporting period, Refugio County had preliminary engineering design underway for its flood and drainage and Sewer Facilities projects.

Activity Description:

Sewer Facilities
Nueces County shall improve the wastewater treatment plant site, electrical control room, bar screen structure, clarifiers, chlorine chamber, oxidation ditch, and sludge beds; improve lift stations; install sewer line; rehabilitate and install manholes; pavement restoration; and complete all associated appurtenances for the Banquete Sewer Improvements project.
Water Facilities
Nueces County shall acquire property; install waterline, bore and casing, fire hydrants; upgrade water ground

storage tank and water plant pump; and complete all associated appurtenances for the Banquete Water Improvements project.
Flood and Drainage Improvements
Nueces County shall acquire property; construct a detention pond with a loading pad; install riprap, drainage structures, and retaining wall; and complete associated appurtenances for the Robstown project.
Nueces County shall acquire property; construct a detention pond, loading pad, and outfall structure; regrade existing roadside ditches; resetting driveways; relocate utilities; and complete associated appurtenances for the Tierra Grande Drainage project.
Nueces County shall acquire property; construct a detention pond, loading pad, and outfall structure; regrade roadside ditches; reconstruct driveways; and complete associated appurtenances for the Golden Acres Drainage project.
Nueces County shall acquire property; construct a drainage channel; regrade roadside ditches; and complete associated appurtenances for the Agua Dulce Drainage project.
Nueces County shall construct a detention pond with loading pad; relocate utilities; regrade existing roadside ditches; reconstruct driveways; and complete associated appurtenances for the Driscoll Drainage project.
Nueces County shall acquire property; install drainage pipes, drain inlets, Headwall/Wingwall outfall, and riprap; regrade drainage ditches, and associated appurtenances for the Clarkwood/CR34 Drainage project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not double count overlapping areas. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas.
This activity meets the low- and moderate-income national objective using City-Wide ACS 2020 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the Banquete Sewer Improvements project, the Banquete Water Improvements project, Robstown Drainage project, Agua Dulce Drainage project, and Driscoll Drainage project.
This activity meets the low- and moderate-income national objective using surveys for the Tierra Grande Drainage project, Golden Acres Drainage project, and Clarkwood /CR34 Drainage project.

Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in Nueces County.
Construction for the Banquete Sewer Improvements project shall take place at Wastewater Treatment Plant 1400' west of the intersection of Old Robstown Road and Emshoff Road, Lift Station 552' east of the intersection of Old Robstown Road and Fourth Street, Sewer Main, Line A, and Line C.
Construction for the Banquete Water Improvements project shall take place along Wesley Street and Old Robstown, Elsa/Emilio/Elia, Falmar Street, Ware Street, 4th Street (North), West of 4th Street, Gladys Street, Pearl Street, Farm to Market 666, and Water Plant 350' west of intersection of Fourth Street and Old Robstown.
Construction for the Robstown Drainage project shall take place Robstown Detention Pond.
Construction for the Tierra Grande Drainage project shall take place along County Road 61 Ditch Re-Grade and Tierra Grande Detention Pond.
Construction for the Golden Acres Drainage project shall take place at Golden Acres Detention Pond, County Road 77 Ditch Re-grade, and Golden Drive and Al Theis Street Ditch Re-grade.
Construction for the Agua Dulce Drainage shall take place along Drainage Channel from 950' north of 4th Street and County Road 105 east through easement along property line to Farm to Market 70 and County Road 105.
Construction for the Driscoll Drainage project shall take place along FM 665 Detention Pond & Loading Pad and West Avenue A, North 1st Street Ditch Re-Grade & Utility Relocation.
Construction for the Clarkwood/CR34 Drainage shall take place along County Road 34/McGloin Road.

Activity Progress Narrative:

During the reporting period, Nueces County had environmental reviews on 6 of the 12 projects

Activity Description:

Fayette County shall replace headworks collection system; replace lift station; install an automated bar screen; construct an oxidation ditch and a clarifier; install a waste activated sludge (WAS) dewatering system, and associated appurtenances for the WWTF for Ellinger Sewer & WSC Project.
Fayette County shall upgrade the radio frequency equipment, communication tools, sensors, antennae system; electrical, and associated appurtenances for the EMS Communication Equipment Winchester and EMS Communication Equipment Schulenburg Projects.
Fayette County shall acquire land; excavate, grade, and construct channel; install box culvert;

install berms, and associated appurtenances for the Plum Drainage/Flooding Mitigation Project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas.
This activity meets the low- and moderate-income national objective using surveys for the WWTF for Ellinger Sewer & WSC and Plum Drainage/Flooding Mitigation Project, using Census Tract and Block Group ACS 2020 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the EMS Communication Equipment Winchester project, and using City-Wide ACS 2020 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the EMS Communication Equipment Schulenburg project. Fayette County is a HUD Exception Grantee. Their LMI threshold is 46.25%. Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in Fayette County at Ellinger WWTP 320 West Train Street, and Jarmon Lift station for the WWTF Ellinger Sewer & WSC Project.
Construction shall take place in Fayette County at 1398 Farm to Market Road 448 for the EMS Communication Equipment Winchester Project.
Construction shall take place in Fayette County at 312 Paulus Street for the EMS Communication Equipment Schulenburg Project.
Construction shall take place in Fayette County at Plum Drainage, east of Railroad Street for the Plum Drainage/Flooding Mitigation Project.

Activity Progress Narrative:

During the reporting period, Fayette County completed Environmental Record Review and had completed engineering design for WWTP/Lift Station. Additionally, land acquisition communication with landowners and engineering design is currently underway for the Flood & Drainage project. EMS Communication towers are currently in holding pattern (Interlocal Agreement with LCRA), however tower/equipment is soon to be delivered.

Activity Description:

City of Patton Village shall remove and replace roadways, rehabilitate ditches, install culverts, and complete associated appurtenances for the Long Street Road Street and Drainage Improvements Project. This activity meets the low- and moderate-income national objective using the City-Wide ACS 2020 LMISD. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Patton Village along Riley Road and North Lakeview Drive, and Long Street.

Activity Progress Narrative:

During the reporting Period, the City of Patton Village had engineering design underway for its street improvement project.

Activity Description:

The City of Clute shall excavate, clear, grub, and grade ditch, remove piping, install channel lining, headwall, rip rap, and green infrastructure, and complete associated appurtenances for the Pin Money Phase 2: Inline Detention and Improvements project. This activity meets the urgent need income national objective using Census Tract and Block Group ACS 2020 LMISD. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Clute at Pin Money Street for the Pin Money Phase 2: Inline Detention and Improvements project.

Activity Progress Narrative:

During the reporting period, the activity was created and budgeted in DRGR.

Activity Description:

Liberty County shall conduct a planning study to include survey data collection through bathymetric, terrestrial and aerial surveys; mapping jurisdictional boundaries with the capacity report, labelling and referencing ditches/outfalls with recorded rightsof-way for the jurisdiction; hydrologic and hydraulic study; plan development with detailed maps, identifying problem areas and recommended priority of projects for future flood mitigation and related activities.

Location Description:

Planning studies project shall take place within Liberty County.

Activity Progress Narrative:

During the reporting period, Liberty County reached 45% completion of its planning study.

Activity Description:

The City of League City shall update the Clear Creek and Dickinson Bayou hydrologic and hydraulic models with Atlas 14 rainfall and current topographic conditions and revise the riverine special flood hazard areas for the FIRM Map Update project. The City of League City shall survey data collection through LiDAR, rain gauge data, GIS base map data, repetitive flood loss claims, record drawings, and other relevant information to collect key drainage infrastructure information such as channel and storm sewer geometry, perform a hydrologic and hydraulic study, and plan development with detailed maps, identifying problem areas and recommended priority of projects for the League City Drainage Studies project.

Location Description:

The planning studies will take place throughout the City of League City.

Activity Progress Narrative:

During the reporting period, the City of League City continued with its planning study.

Activity Description:

Tyler County shall shall install a generator, concrete pad, electrical conduits, and fencing and complete associated appurtenances for an existing Shelter of Last Resort for the Pct 3 - Colmesneil Area Generator project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 1 - CR 4265 project.
Tyler County shall remove and replace existing roadway, improve driveway turnouts and culverts, and complete all associated appurtenances for the Pct 1 - CR 1220 project.
These activities meet the urgent need national objective through the use of surveys for the Pct 1 - CR 4265 and

Pct 1 - CR 1220 projects and through the use of the census tract block group with the State Median Income (SMI) Waiver LMISD for the Pct 3 - Colmesneil Area Generator project.

Location Description:

Construction for the Pct 3 - Colmesneil Area Generator project shall take place in Tyler County at Pct 3 - Colmesneil Area Generator.
Construction for the Pct 1 - CR 4265 project shall take place in Tyler County at CR 4265.
Construction for the Pct 1 - CR 1220 project shall take place in Tyler County at CR 1220.
Service Areas for each project are distinct.

Activity Progress Narrative:

During the reporting period, Tyler County completed 70% engineering on its street improvements project.

Activity Description:

Fort Bend County shall prepare, clear, and grub site, seed, excavate, stockpile, backfill, dispose of material, install stone, and complete associated appurtenances for the Memorial Park River Bank Erosion Repair project.
Fort Bend County shall install erosion protection, construct tiebacks, and complete associated appurtenances for the Levee Improvement District #10 Erosion Repair project.
Fort Bend County shall prepare, clear and grub site, seed, install grade control structures, excavate and dispose material, and complete associated appurtenances for the Steep Bank Creek Bank Erosion Repair project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all

projects' service areas. This activity meets the urgent need income national objective using Census Tract and Block Group ACS 2015 LMISD for the projects.

Location Description:

Construction for the Memorial Park River Bank Erosion Repair project shall take place in Fort Bend County along the Brazos River.

Construction for the Levee Improvement District #10 Erosion Repair project shall take place in Fort Bend County along the Brazos River.
Construction for the Steep Bank Creek Bank Erosion Repair project shall take place in Fort Bend County along Steep Bank Creek.

Activity Progress Narrative:

During the reporting period, Fort Bend County completed environmental review for its flood and drainage project.

Activity Description:

Hardin County shall install channel lining, storm sewer, culverts, and headwall; pave roadway; acquire land; construct a detention pond; and complete associated appurtenances for the El Pinto – Fletcher Channel and Detention Improvements (Lumberton) project. This activity meets the Urgent Need Income national objective through the use of surveys.
Hardin County shall shall conduct a hydrologic and hydraulic study, rehabilitate roadside ditches and drives, replace culverts, and complete associated appurtenances for the Lumberton, Woodcrest Area Roadside Ditch Improvements project. This activity meets the Urgent Need Income national objective through the use of Census Tract/Block Group LMISD.

Hardin County shall conduct a hydrologic and hydraulic study, excavate ditch, clear and shape channel, replace culverts, and complete associated appurtenances for the Kountze, Roadside Ditch & Channel Improvements project. This activity meets the Urgent Need Income national objective through the use of Census Tract/Block Group LMISD.
Hardin County shall conduct a hydrologic and hydraulic study, install channel lining and headwalls, adjust box culverts, and complete associated appurtenances for the Lumberton, Adler Ditch Channel Improvements project. This activity meets the Urgent Need Income national objective through the use of Census Tract/Block Group LMISD.

Location Description:

Construction for the El Pinto – Fletcher Channel and Detention Improvements (Lumberton) shall take place in Hardin County along Fletcher Channel, El Pinto Roadway, El Pinto Channel and the Dentention Pond.
Construction for the Lumberton, Woodcrest Area Roadside Ditch Improvements shall take place in Hardin County along Cedar Drive, Birch Drive, Ash Drive, Dogwood Drive, Rice Drive, Wingfield Drive, Cornell Drive, Harvard Drive, Princeton Street, South Wind Street, Crosswind, North Wind Street, 2nd Street, 1st Street, Hickory Street, Ratliff Drive, 3rd Street, Yale Street Duke Street, Chestnut Street, Windwood Boulevard, and West Wind Street.
Construction for the Kountze; Roadside Ditch & Channel Improvements project shall take place along East Williford Road Drainage Channel, Old Farm to Market 418 Drainage Channel, Chile Daniel Road Drainage Channel, Villa Road Drainage Channel, Dale Street Drainage Channel, Barrett Street Drainage Channel, Blackgum street, North Cypress Street, North Walnut Street, North Ash Street, North Oak Street, North Beech Street, North Cherry Street, Old Farm to Market Road 418, Cypress Street, South Walnut Street, South Ash Street, South Oak Street, South Beech Street, South Cherry Street, Walters Lane, Kimberly Lane, East Wiliford Road, East Brown Street, Mil Street, Allums Street, Bear Street, Fox Street, Deer Street, Tiger Street, 1st-4th Street, Villa Road, Riggs Street, PAN-AM Road, Feagin Street, Cariker Street, Marshall Street, Tubb Street, Martin Luther King Street, Charles Street, Dale Street, East Vanderburg Street, Barret Street, Otis Street, Wiggins Street, Smith Street, Allen Street, and Lindsey Street.
Construction for the Lumberton, Adler Ditch Channel Improvements project shall take place in Hardin County at Adler Ditch.

Activity Progress Narrative:

During the reporting period, Hardin County had engineering design and construction procurement underway for its flood and drainage projects

Activity Description:

San Patricio County shall excavate; regrade ditches and channel; install culverts, pipe, inlets, and junction boxes; repair bulkheads, pavement and driveway; and complete associated appurtenances for the Ingleside on the Bay project.
San Patricio County shall regrade ditch; install culverts; remove and replace pavement; and complete associated appurtenances for the CR 2249 at SH 188 project.
This activity consolidates the distinct service areas for the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the Urgent Need national objective using City-Wide ACS FY 2021 LMISD with

the State Standardized Area Median Income (SMI) waiver applied for the Ingleside on the Bay project, and survey for the CR 2249 at SH 188 project. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in San Patricio County.
Construction shall take place along Starlight Drive, Post Oak Drive, Live Oak Street, Ebony Street, Bayshore Drive, Parkview Place, Sunset, Bayshore Circle, and Bayshore Court for the Ingleside on the Bay project.
Construction shall take place along County Road 2249 for the CR 2249 at SH 188 project.

Activity Progress Narrative:

During the reporting period, San Patricio County had preliminary engineering design and environmental review underway for its flood and drainage projects.

Activity Description:

Sewer Facilities
Refugio County shall remove and replace lift stations and electrical controls; install pumps; upgrade electrical controls; and complete associated appurtenances for the Refugio (Town) Lift Station Improvements project.
Flood and Drainage
Refugio County shall excavate base; treat surface; install prime coat, textile, crown and base; regrade ditch and outfall structure; install pipe; and complete associated appurtenances for the Austwell Drainage Improvements project.
Refugio County shall excavate base; treat surface; install prime coat, textile, crown and base; regrade ditch;

and complete associated appurtenances for the Kelso Rd Drainage Improvements project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the urgent need national objective using City-Wide ACS 2015 LMISDs with the State Standardized Area Median Income (SMI) waiver applied for the above projects.
Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in Refugio County at Lift Station 1-5 for the Refugio (Town) Lift Station Improvements project.
Construction shall take place along Austin Street, Stevens Street, Luthardt Street, Mernitz Street, Hexter Street, Gisler Street, Emison Street, Dunson Street, Haynes Street, Dilworth Street, Vandenberge Street, Proctor Street, Main Street, McDowell Street, and Bay Street for the Austwell Drainage Improvements project.
Construction shall take place at Kelso Road for the Kelso Rd Drainage Improvements project.

Activity Progress Narrative:

During the reporting period, Refugio County had preliminary engineering design and environmental review underway for its flood and drainage projects.

Activity Description:

San Jacinto County shall complete acquisition, reconstruct and repair roadway surface, subgrade and base, replace culverts, conduct erosion and sediment control, and complete associated appurtenances for the Rocky Creek project.
San Jacinto County shall reconstruct and repair roadway surface, subgrade and base, clean and re-shape roadside ditches, replace culverts, conduct erosion and sediment control, and complete associated appurteances for the Lakeview Estates Road project.
San Jacinto County shall reconstruct and repair roadway surface, subgrade and base, clean and reshape roadside ditches, replace culverts, conduct erosion and sediment control, and complete associated

appurtenances for the Saddle Surrey-Stage Coach-Mount Zion project.
San Jacinto County shall reconstruct and repair roadway surface, subgrade and base, clean and reshape roadside ditches, replace culverts, conduct erosion and sediment control and complete associated appurtenances for the Hickman Creek Drive-Horseshoe Way Loop project.
San Jacinto County shall reconstruct and repair roadway surface, subgrade and base, clean and reshape roadside ditches, replace culverts, conduct erosion and sediment control and complete associated appurtenances for the Camilla Lake Road project.
This activity consolidates the service areas of each of the above projects into one reportable area that does not double count overlapping areas. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects without duplicating the same beneficiaries from overlapping project service areas. This activity meets the urgent need national objective using surveys. Please see the documents tab for the source data of the service area.

Location Description:

Activity Progress Narrative:

During the reporting period, San Jacinto County completed engineering design for its Street Improvements project.

Activity Description:

The City of Yoakum shall replace sanitary sewer trunk lines and main, install manholes, excavate and repair trench, and complete associated appurtenances. This activity meets the low- to moderate-income national objective through the use of city-wide LMISD with the state Standardized Area Median Income waiver.

Location Description:

Construction shall take place in the city of Yoakum at East Side Drainage from the north of the intersection of FM 682 and Kimberly Lane to the northwest and at West Side Drainage from the north of US 77 west of City Hall

to the northeast.

Activity Progress Narrative:

During the reporting period, the City of Yoakum completed engineering design for their Sewer project.

Activity Description:

1. Colorado County shall build a communication tower and equipment building; install fence, solar panels, access drive; and complete associated appurtenances for the Communication Tower public improvements project.
Colorado County shall install generators with foundations, water lines, and complete associated appurtenances for the Rock Island WSC water improvements project.
Colorado County shall install generators with foundations and complete associated appurtenances for the WCID 2 water improvements project.
Colorado County shall install a generator, pressure storage tank, and complete associated appurtenances for

the Sheridan Water Supply Improvement water improvements project.
Colorado County shall install generators with foundations and complete associated appurtenances for the Sheridan Sewer sewer improvements project.
Colorado County shall install generators with foundations, sludge pump, and complete associated appurtenances for the WCID 2 sewer improvments project.
Colorado County shall replace sewer pipes and complete associated appurtenances for the Glidden Sewer-Norway Street sewer improvement project.
2. This activity consolidates the overlapping service areas of the Communication tower, Rock Island WSC, WCID 2 water improvement, Sheridan Water Supply Improvements,Sheridan Sewer, and WCID 2 sewer improvement projects with the distinct service area of the Glidden Sewer-Norway Street project into one reportable area that does not double count beneficiaries from overlapping service areas.
3. This activity meets the low- to moderate-income national objective using a) Census Tract and Block Group ACS 2021 LMISD with the State Standardized Area median Income (SMI) for the Communication Tower and Sheridan Sewer projects and b) surveys for all other projects.
Please see the documents tab for the source data of the service area.

Location Description:

Construction for the Communication Tower project shall take place in Colorado County at 306 Main Street Garwood, TX. Construction for the Rock Island WSC project shall take place in Colorado County at Main Street (County Road 106) and 11th Streets, Rock Island Well 1 Generator at 3326 Country Road 106, and Rock Island Backup Well Generator at the southeast corner of the intersection of 6th Street and County Road 106.

Construction for the WCID 2 water improvements project shall take place in Colorado County at the Garwood Water Well 1 Generator at 605 Townsend Street and Garwood Backup Well Generator at 1104 Lions Park Drive.

Construction for the Sheridan Water Supply Improvements project shall take place in Colorado County at PWS Generator and PWS Pressure Tank at 5514 West 1st Street .

Construction for the Sheridan Sewer project shall take place in Colorado County at the Sheridan WWLS Generator east of the West 2nd Street and Avenue H intersection and the Sheridan WWTP Generator at 5399 2nd Street.

Construction for the WCID 2 sewer improvements project shall take place in Colorado County at WWLS north of the intersection of State Highway 71 and Lions Park Drive and the WWTP Generator and WW RAS Pump at 1100 Mansfield Street.

Construction for the Glidden Sewer-Norway Street project shall take place in Colorado County at Norway Street.

Activity Progress Narrative:

During the reporting period, Colorado County had 90% of construction complete for its sewer and water improvement projects. Construction is underway for its public facilities project.

Activity Description:

The City of Centerville shall replace sewer lines, install manholes, reconnect services, repair roadways, and complete associated appurtenances for the Church St Sewer Improvements project and the FM 1119 Sewer Improvements project. This activity meets the low- and moderate-income national objective through the use of surveys for both projects.

Location Description:

Construction for the Church St Sewer Improvements project shall take place in the City of Centerville at Church St.

Construction for the FM 1119 Sewer Improvements project shall take palce in the City of Centerville at FM 1119 Offshoot and FM 1119.

Activity Progress Narrative:

During the reporting period, the City of Centerville is nearing completion (90%) of engineering design for its Sewer Facilities project.

Activity Description:

1. The City of Oakwood shall replace pumps, upgrade lift station structure, upgrade electrical and control panel components, and complete associated appurtenances for the Oakwood Citywide Sewer Improvements project.
The City of Oakwood shall install SCADA systems and controls, install generator on a concrete pad, install a propane tank, modify electrical, and complete associated appurtenances for the Oakwood Citywide Water Improvements project.
2. This activity consists of projects with the same service areas. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from the service area.
3. This activity meets the low- to moderate-income national objective using the City-Wide ACS 2021 LMISD with the State Standardized Area Median Income (SMI) waiver applied for all projects.

Please see the Documents tab for a detailed breakout of each individual service area.

Location Description:

Construction shall take place in the City of Oakwood at the Main Lift Station (27537 FM 542) for the Oakwood Citywide sewer improvements project.
Construction shall take place at the Walston Well southwest of North Oliver Street and Walston Street, the Broad Street Well at 123 Broad Street, and City Hall at 135 Broad Street.

Activity Progress Narrative:

During the reporting period, the City of Oakwood had completed Environmental Record Review and completed engineering design for its Sewer and Water Facilities projects.

Activity Description:

The City of Smithville shall expand detention pond, regrade channels, demolish drainage structures, install riprap, culverts, headwall, and junction boxes, relocate utilities, repair pavement, and complete associated appurtenances. This activity meets the low- and moderate-income national objective using Census Tract and Block Group ACS 2011-2015 LMISD without the State Standardized Area Median Income (SMI) waiver applied.

Location Description:

Construction shall take place in the City of Smithville at Webster/North St, Harper St, Bruner Blvd, Drainage Channel west of Washington St, and at the Detention Pond at North Smithville High School for the Detention

Pond Drainage Improvements project.

Activity Progress Narrative:

During the reporting period, the City of Smithville had 30% engineering design completed for its Flood & Drainage project.

Activity Description:

Bastrop County shall remove existing drainage structures, excavate pond, install culverts, headwalls, clear, enlarge and regrade channel, repair pavement, relocate utilities, and complete associated appurtenances for the Detention Pond Drainage Improvements (Smithville) project.
Bastrop County shall excavate, install embankment, culverts, wingwalls, guardrail and riprap, remove and replace pavement, and complete associated appurtenances for the Ranchette Street Drainage Improvements project.
Bastrop County shall remove headwalls and pipe, install embankment, culverts, wingwalls and riprap, remove and replace pavement, and complete associated appurtenances for the Cardinal Drive Drainage Improvements

project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective using Census Tract and Block Group ACS FY-2021 LMISD for the Smithville Drainage Improvements project and through surveys for the Ranchette Street Drainage Improvements and Cardinal Drive Drainage Improvements projects. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in Bastrop County at Webster/North St, Harper St, Bruner Blvd and Drainage Channel west of Washington St for the Detention Pond Drainage Improvements (Smithville) project.
Construction shall take place in Bastrop County at Ranchette St for the Ranchette Street Drainage Improvements project.
Construction shall take place in Bastrop County at Cardinal Dr for the Cardinal Drive Drainage Improvements project.

Activity Progress Narrative:

During the reporting period, Bastrop County had 50% engineering design completed for its Flood & Drainage project.

Activity Description:

1. Milam County shall rework and stabilize subgrade, install base and pavement, and complete associated appurtenances for the CR 240 Improvements street improvements project.
Milam County shall rework and stabilize subgrade, install base and pavement, and complete associated appurtenances for the CR 342 Improvements street improvements project.
Milam County shall rework and stabilize subgrade, install base and pavement, and complete associated appurtenances for the CR 306 Improvements street improvements project.
Milam County shall rework and stabilize subgrade, install base and pavement, and complete associated appurtenances for the CR 215 Improvements street improvements project.

2. This activity consolidates the distinct service areas of the all previously named projects into one reportable service area. The projected beneficiaries in the Measure tab represent "Total Number of Persons" to benefit from all projects' service areas.
3. This activity meets the low- to moderate-income national objective through surveys.
Please see the Documents tab for beneficiary documentation.

Location Description:

Construction for the CR 240 Improvments project shall take place in Milam County along CR 240 from FM 485 southward.
Construction for the CR 342 Improvments project shall take place in Milam County along CR 342 from State Hwy 36 eastward.
Construction for the CR 306 Improvments project shall take place in Milam County along CR 306 from US Hwy 79 north-northeast.
Construction for the CR 215 Improvments project shall take place in Milam County along CR 215 from FM 486 eastward.

Activity Progress Narrative:

During the reporting period, Milam County completed engineering design for its Street Improvement project.

Activity Description:

Sewer Facilities
The City of Lexington shall install algae control equipment, solids control baffle, and electrical and complete associated appurtenances for the Algae Control Equipment Project.
Water Facilities
The City of Lexington shall install splash pad, elevated storage tank, interior and exterior coating systems, pipe, lighting, and SCADA system and complete associated appurtenances for the Elevated Storage Tank project.
This activity consists of projects with the same service areas. The projects are as follows, Algae Control Equipment project and Elevated Storage Tank project. The projected beneficiaries in the Measures tab tab

represent the “Total Number of Persons” to benefit from the service area. This activity meets the low- and moderate-income national objective using the City-Wide ACS FY-2021 LMISD for both projects. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Lexington. Construction shall take place at Algae Control Equipment for the Sewer Facilities project and at the Elevated Storage Tank for the Water Improvements project.

Activity Progress Narrative:

During the reporting period, the City of Lexington had Environmental completed and Engineering Design underway at 50% on the Sewer Facilities and Water Facilities project.

Activity Description:

Sewer Facilities
The City of Jewett shall improve oxidation ditch, and complete associated appurtenances for the Jewett Sewer Facility Improvements project.
Street Improvements
The City of Jewett shall reconstruct roadway; pave road; and complete associated appurtenances for the South Broadway Street Improvements project.
The City of Jewett shall reconstruct roadway; pave road; and complete associated appurtenances for the Oakwood Street Improvements project.
This activity consists of projects with the same service areas. The Sewer projects are as follows, Jewett Sewer

Facility Improvements project, and the Street Improvements projects, South Broadway Street Improvements project and Oakwood Street Improvements project. The projected beneficiaries in the Measures tab represent the “Total Number of Persons” to benefit from the service area. This activity meets the low- and moderate-income national objective using the City-Wide ACS FY-21 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the above projects. The City of Jewett is a HUD Exception Grantee. Their LMI threshold is 49.37%. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Jewett. Construction shall take place at Jewett Wastewater Treatment Plant for the Jewett Sewer Facility Improvements project. Construction shall take place along South Broadway Street for the South Broadway Street Improvements project. Construction shall take place along Oakwood Street for the Oakwood Street Improvements project.

Activity Progress Narrative:

During the reporting period, the City of Jewett completed Environmental Record Review and had preliminary engineering design underway (75%), with concurrent cost estimate analysis of WWTP, which could result in a possible reduction in scope for its Sewer and Street Improvement projects.

Activity Description:

Bee County shall acquire land; install water well, disinfection system, generators, pipe, electrical, access road, and complete associated appurtenances. for the Pettus MUD Water Improvements.
Bee County shall install chlorination system and pumps; replace fire hydrants; and complete associated appurtenances for the Tynan WSC Water Improvements project.
Bee County shall install lift station pumps, generator, and complete associated appurtenances for the Pettus MUD Sewer Improvements Project.
Bee County shall improve clarifier, aeration system and lift station; install chlorination system, controls; and complete associated appurtenances for the Tynan WSC Sewer Improvements project.

This activity consolidates the distinct service areas of each of the following projects into one total reportable area; Pettus MUD Water and Sewer Improvements projects and Tynan WSC Water and Sewer Improvements projects. The projected beneficiaries in the measure tab represent the total number of persons to benefit from all projects' service area. This activity meets the low- and moderate-income national objective using surveys for the Pettus MUD projects and through using City-Wide ACS 2015 LMISD with the State Standardized Area Median Income (SMI) waiver applied for the Tynan WSC projects.

Location Description:

Construction shall take in Bee County northwest of the intersection of North Commerce St and North St, and north of North St between US HWY 181 and North Commerce St for the Pettus MUD Water Improvements project.
Construction shall take place in Bee County at Patience St, Cotton St, Natoma St, Water Treatment Plant at 314 FM 796, 4th St, and Avenue F for the Tynan WSC Water Improvements project.
Construction shall take place in Bee County at 10375 US HWY 181 for the Pettus MUD Sewer Improvements proejct.
Construction shall take place in Bee County at Avenue G and Tynan WWTP northwest of intersection of FM 796 and TX State HWY 359 for the Tynan WSC Sewer Improvements project.

Activity Progress Narrative:

During the reporting period, County is at 30% design completed.

Activity Description:

Water Facilities
The City of Alice shall renovate water storage tank; repair, improve and upgrade the water treatment plant; install generator and bridge; and complete associated appurtenances for City of Alice Water System Improvements project.
Public Facilities
The City of Alice shall install communication repeaters and generator, and complete associated appurtenances for the City of Alice Public Services System Improvements project.
Sewer Facilities
The City of Alice shall install fence and roads, and complete associated appurtenances for the City of Alice

Wastewater System Improvements project.
This activity consolidates the service areas of each of the following projects into one reportable area that does not double count overlapping areas, one Water Facilities project, City of Alice Water System Improvements, one Public Facilities, City of Alice Public Service System Improvements, and one Sewer Facilities project, City of Alice Wastewater System Improvements. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective using City-Wide ACS FY-2021 LMISD. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Alice. Construction shall take place at West Elevated Storage, North Elevated Water Tower, South Elvated Storage Tank, Lake Findley Pump Station, and Alice Water Treatment Plant for the City of Alice Water System Improvements project. Construction shall take place at the Alice Police Department and Alice Fire Department for the City of Alice Public Services System Improvements project. Construction shall take place at the Northeast WWTP and South WWTP for the City of Alice Wastewater System Improvements project.

Activity Progress Narrative:

During the reporting period, the City of Alice had the following complete: Public Service Design 100%; Water-WTP design 30%; Elevated Storage Tank- design 50%.

Activity Description:

The City of Todd Mission shall construct a new water plant consisting of a water well, ground storage tank, booster pumps, pressure tank, and generator and shall complete associated appurtenances for the Todd Mission Water Facilities Improvements project. This activity meets the low- and moderate-income national objective using City-Wide ACS FY-2021 LMISD with the State Median Income waiver applied for the Todd Mission Water Facilities Improvements project. Please see the documents tab for the source data of the service area.

Location Description:

Construction shall take place in the City of Todd Mission at Todd Mission Water Facilities Improvements project.

Activity Progress Narrative:

During the reporting period, the City of Todd Mission had preliminary engineering design underway for its Water Facilities project.

Activity Description:

Sabine County shall scarify, reshape, and stabilize roads; apply asphalt prime coat; oil sand surface; create roadway and driveway turnouts; replace culverts; and complete associated appurtenances for the Pct 1 - Tom Lowe Drive project.
Sabine County shall scarify, reshape, and stabilize roads; create roadway and driveway turnouts; replace culverts; and complete associated appurtenances for the Pct 2 - Beechwood Area project.
Sabine County shall scarify, reshape, and stabilize roads; create roadway and driveway turnouts; replace culverts; and complete associated appurtenances for the Pct 4 - Shamrock Shores Area project.
These activities meet the urgent need income national objective through the use of surveys.

Location Description:

Construction for the Pct 1 - Tom Lowe Drive project shall take place in Sabine County along Tom Lowe Drive.
Construction for the Pct 2 - Beechwood Area project shall take place in Sabine County along Beechwood Loop, Ridgewood Drive, and Beechwood Drive.
Construction for the Pct 4 - Shamrock Shores Area project shall take place in Sabine County along Shamrock Drive, Emerald Drive, and Ireland Drive.
Service areas for each project are distinct.

Activity Progress Narrative:

During the reporting period, Sabine County has reached 95% of completion on construction on the street improvements project

Activity Description:

1. Colorado County shall install generators with foundations; water lines; blast and recoat water supply tanks, and complete associated appurtenances for the Glidden Water Supply project.
Colorado County shall install a water well; ground storage tank; pipe; electrical service, and complete associated appurtenances for the Barten Water Improvments project.
Colorado County Shall replace sewer pipes and complete associated appurtenances for the Glidden Sewer-Shirley Oaks project.
2. This activity consolidates the overlapping service areas of the following projects into one total reportable area that does not doublecount beneficiaries in overlapping areas: Glidden Water Supply, a water

improvements project; Barten Water Improvements, a water improvements project; and Glidden Sewer-Shirley Oaks project, a sewer improvements project. The projected beneficiearies in the Measure tab represent the "Total Number of Persons" to benefit from all projects' service areas.
3. This activity meets the urgent need national objective using a) Census Tract and Block Group ACS 2021 LMISD with the State Standardized Area median Income (SMI) for the Glidden Water Supply project, b) surveys for the Barten Water Improvements project, and c) surveys for the Glidden Sewer-Shirley Oaks project.
Please see the documents tab for the source data of the service area.

Location Description:

Construction for the Glidden Water Supply project shall take place in Colorado County along Glidden Waterline Alley from Clayborne Street eastward to FM 2434 between Thelma and Henry Streets, and Glidden Well 2 Generator at 305 Taylor Street, Glidden Well 3 Generator at 137 Clayborne Street, and Glidden PWS Tanks at 200 Clayborne Street.
Construction for the Barten Water Improvements project shall take place in Colorado County at Columbus Barten WSC at 1014 Barten Road.

Activity Progress Narrative:

During the reporting period, Colorado County had 90% of construction complete for its sewer and water facilities projects.

Activity Description:

Street Improvements
The City of Ivanhoe shall repair, reconstruct, and elevate driving surface, and complete all associated appurtenances.
Flood and Drainage
The City of Ivanhoe shall replace undersized culverts, repair undersized roadside ditches, repair earthen spillways, and complete all associated appurtenances.
These activities will meet the low to moderate income national objective.

Location Description:

Construction shall take place in the City of Ivanhoe. Street Improvements will take place at Region 1- Street Improvements (Site 32), Region 2- Street Improvements (Sites 28,29&33), and Region 4- Street Improvements (Sites6). Flood and Drainage Improvements will take place at Region 1- Flood and Drainage (Sites 13,14, & 15), Region 2- Flood and Drainage (Sites 26, 27, 30, & 31), Region 3- Flood and Drainage (Sites 19, 21, & 22), and Region 4- Flood and Drainage (Sites 7,8,12, &37).

Activity Progress Narrative:

During the reporting period, the City of Ivanhoe completed construction and is pending submission of construction completion documentation for its Street Improvements and Flood and Drainage project.

Activity Description:

City of Port Lavaca shall construct breakwaters/living shorelines and enhance the shorelines by creating marsh habitats, and oyster reefs-fish habitats. These activities will meet the low to moderate income national objective.

Location Description:

Construction shall take place in the City of Port Lavaca at Living Shoreline Project North Structure (A-E), and Living Shoreline Project South Structure (A-G).

Activity Progress Narrative:

During the reporting period, the city of Port Lavaca held pre-construction meeting and contractor began to mobilize.

Activity Description:

The Resilient Housing Program (RHP) will replace owner-occupied single family homes damaged by Hurricane Harvey with a reconstructed home that meets additional resiliency and mitigation standards required of the RHP.

Location Description:

Activities shall take place in a 2017 Hurricane Harvey CDBG-DR eligible county.

Activity Progress Narrative:

Quarterly expenditure for state costs in support of activity delivery.

Activity Description:

The Resilient Housing Program (RHP) will replace owner-occupied single family homes damaged by Hurricane Harvey with a reconstructed home that meets additional resiliency and mitigation standards required of the RHP.

Location Description:

Activities shall take place in a 2017 Hurricane Harvey CDBG-DR eligible county.

Activity Progress Narrative:

Quarterly expenditure for state costs in support of activity delivery.

Activity Description:

Building Codes
The City of Orange shall develop, adopt, and implement building codes that foster a greater degree of resiliency by meeting or exceeding the International Residential Code (""IRC"") 2012. Each developed and adopted Building Code must meet or exceed the requirements set forth in the IRC 2012.
Comprehensive Plan
The City of Orange shall develop and adopt a Comprehensive Plan that must include, at a minimum, the following elements for all base studies: identification of local hazard risk(s) that align with the City's local hazard mitigation plan (if one exists), a population study, a housing study, a land use plan, an infrastructure study, additional studies (e.g. environmental, economic, etc.) may be included, and zoning ordinances or

similar to support the adoption of the Comprehensive Plan.

Location Description:

Planning activities shall take place in the City of Orange.

Activity Progress Narrative:

Milestone 1 of 5 Complete. Milestone 2 in progress.

Activity Description:

Grimes County shall conduct the following Planning Activities according to the requirements set forth below and in the RCP Application Guide. Grimes County's planning Activities performed under this Contract will result in the development and formal adoption by Subrecipient of plans, codes, and/or ordinances. Grimes County shall develop and adopt a Land Use Plan that formalizes long-term community goals into governing policies that determine future land use and the location and types of structures that may be built within a given jurisdictional area. The Land Use Plan shall contain, at a minimum, the following elements, an integration of relevant portions of an applicable local hazard mitigation plan, if one exists, identification of local hazard risks, explanation of how the plan mitigates the identified local hazard risks, additional studies (e.g., environmental,

economic, etc.) may also be included, and zoning Ordinance(s) or equivalent enforcing regulation(s) or code provision(s).

Location Description:

Planning studies project shall take place within Grimes County.

Activity Progress Narrative:

Milestone 1 of 5 Complete. Milestone 2 in progress.

Activity Description:

The City of Whitehouse shall conduct the following Planning Activities according to the requirements set forth below and in the RCP Application Guide. The City of Whitehouse's planning Activities performed under this Contract will result in the development and formal adoption by Subrecipient of plans, codes, and/or ordinances. The City of Whitehouse shall develop and adopt a Land Use Plan that formalizes long-term community goals into governing policies that determine future land use and the location and types of structures that may be built within a given jurisdictional area. The Land Use Plan shall contain, at a minimum, the following elements, an integration of relevant portions of an applicable local hazard mitigation plan, if one exists, identification of local hazard risks, explanation of how the plan mitigates the identified local hazard risks, additional studies (e.

g., environmental, economic, etc.) may also be included, and zoning Ordinance(s) or equivalent enforcing regulation(s) or code provision(s).

Location Description:

Planning studies project shall take place within the City of Whitehouse.

Activity Progress Narrative:

During the reporting period, the activity was created and budgeted in DRGR.

Activity Description:

West Central Texas Council of Governments for the City of Anson shall conduct the following Planning Activities according to the requirements set forth below and in the RCP Application Guide. West Central Texas Council of Governments for the City of Anson's Planning Activities performed under this Contract will result in the development and formal adoption by Subrecipient of plans, codes, and/or ordinances. West Central Texas Council of Governments for the City of Anson shall develop and adopt a Comprehensive Plan that must include, at a minimum, the following elements for all base studies: identificiation of local hazard risk(s), population study, housing study, land use plan, infrastructure study, additonal studies, and zoning ordinance(s), or similar governing regulation(s) or code provision(s).

Location Description:

Planning studies shall take place in West Central Texas Council of Governments for the City of Anson.

Activity Progress Narrative:

During the reporting period, the activity was created and budgeted in DRGR.

Activity Description:

1. Harris County shall construct two stormwater detention ponds and improve existing drainage system for the Pine Trails Subdivision Improvements project. Construction for detention basins will include excavation, concrete slop paving, pilot channel, headwall and interceptor structions, and access road. Drainage system construction shall include installing reinforced concrete pipes and boxes, junction boxes, manholes, inlets, and associated pavement grading and repair. Harris County shall complete all associated appurtenances for the Pine Trails Subdivision Drainage Improvements project.
Harris County shall construct a detention basin and install drainage improvements to include cross sloping of roadways and sidewalks, replacement and upsizing of storm sewer reinforced concrete pipes and boxes installing inlets, junction boxes, and manholes. Construction of detention basin shall include excavation, inflow

and outflow pipes, concrete slab and access path, and completion of all associated appurtenances for the North Forest Subdivision Drainage Improvements project.
Harris County shall construct two detention basins and install drainage improvements which include, re-sloping roadways, ditch regrading, cross culvert, outfalls, culvert and driveway replacement, junction boxes, manholes, and inlets along with a closed sewer system and shall complete all associated appurtenances for the Ralston Acres Subdivision project.
Harris County shall construct drainage improvements including replacing and upsizing existing storm sewers; installing box culverts, drainage inlets, and junction boxes; and completing all associated appurtenances for the Barwood Subdivision Drainage Improvements project.
Harris County shall install drainage improvements including installation of a storm sewer system; regrading of roadside ditches, roadways, and sidewalks; and completing associated appurtenances for the Tower Oaks Meadows Subdivision Drainage Improvements project.
Harris County shall reconstruct the street along the Chimney Rock Road and install concrete boxes beneath the roadway for stormwater runoff conveyance. Harris County shall also construct an above-ground detention basin implementing bioswales and grading and complete associated appurtenances for the Chimney Rock Road and Anderson Park Drainage Improvements project.
2. This activity consolidates the distinct service areas of the following projects into one total reportable area: Pine Trails Subdivision Drainage Improvements, North Forest Subdivision Drainage Improvements, Ralston Acres Subdivision, Barwood Subdivision Drainage Improvments, Tower Oaks Meadows Subdivision Drainage Improvments, and Chimney Rock Road and Anderson Park Drainage Improvements projects. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas.
3. This activity meets the low- to moderate-income national objective using Census Tract and Block Group ACS 2015 LMISD for the Pine Trails Subdivision Improvements project and surveys for the remaining projects.

Location Description:

Construction for the Pine Trails Subdivision Drainage Improvements project shall take place in Harris County at Pine Trails Detention Basins 1 and 2, and Pine Trails Drainage Improvement Sites Phases 1 through 6.
Construction for the North Forest Subdivision Drainage Improvements project shall in Harris County at North Forest Drainage Improvments and at the North Forest Detention Pond.
Construction for the Ralston Acres Subdivision project shall take place in Harris County at the North Detention Pond, South Detention Pond, John Ralston Road, and Ralston Acres.
Construction for the Barwood Subdivision Drainage Improvements project shall take place in Harris County at the Barwood Subdivision from the intersection of Barrow Lane and Advance Drive to the intersection of Channel E132-00-00 and Pantano Drive, and along Barwood Aste Lane.
Construction for the Tower Oaks Meadows Subdivision Drainage Improvements project shall take place in Harris County at the Tower Oaks Meadows Subdivision from northwest of the intersection of Marrs Dr and Dakar Dr to the eastern end of Dakar Drive and the intersection of Foxboro Dr and Channel 132-00-00.
Construction for the Chimney Rock Road and Anderson Park Drainage Improvements project shall take place in Harris County at Chimney Rock Rd and Anderson Park.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed Harris County for costs associated with three (3) Flood and Drainage projects for its Mitigation Method of Distribution Program.

Activity Description:

Harris County Flood Control District shall construct channel improvements by installing concrete channel lining transitioning to earthen channel, reinforced silt fence, sodding, and seeding. Subrecipient shall also construct three stormwater detention basins: two (2) dry bottom and one wet bottom with a concrete lined side inlet weir and associated appurtenances for the Channel Conveyance Improvements and Stormwater Detention Basins on P118-23-00 project.
Harris County Flood Control District shall enclose the open Saltwater Ditch storm sewer system and will construct an outfall at Sims Bayou consisting of a headwall, concrete slope, and riprap. Two storm water detention basins will also be constructed and shall complete associated appurtenances for the Flood Reduction

Improvements along Saltwater Ditch project.
Harris County Flood Control District shall remove and dispose of a large volume of accumulate fill dirt and concrete debris to mitigate a flood hazard impacting adjacent neighborhoods and shall complete associated appurtenances for the Lauder Stormwater Detention Basin - Phase 3A project.
Harris County Flood Control District shall construct four dry bottom detention basins which will include excavation, grading, the installation of maintenance berms, backslope sysems and swales, drainpipes into the basin, interior pilot channels, turf establishment and shall complete all associated appurtenances for the Stormwater Detention Basins on Halls Bayou near Hardy West project.
This activity consolidates the overlapping service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas.
This activity meets the low- and moderate-income national objective using Census Tract and Block Group ACS 2020 LMISD.

Location Description:

Construction shall take place in Harris County at P118-23-02 and P118-23-00 Channel Improvements, P518-23-01, P518-23-02, and P518-23-04 for the Channel Conveyance Improvements and Stormwater Detention Basins on P118-23-00 project.
Construction shall take place in Harris County at Saltwater Ditch, C120 West Basin, and C120 East Basin for the Flood Reduction Improvements along Saltwater Ditch project.
Construction shall take place in Harris County at Aldine Bender Rd for the Lauder Stormwater Detention Basin - Phase 3A project.
Construction shall take place in Harris County at Detention Basin 1-3 where Halls Bayou meets Woodmoss Dr, East of Scoreggan Ln and East of Pine Vale Ln for the Stormwater Detention Basins on Halls Bayou near Hardy West project.

Activity Progress Narrative:

During the quarter, an amendment to the contract was executed to revise project scope.

Activity Description:

Harris County Flood Control District shall improve the conveyance of stormwater across the San Jacinto River Authority main canal, which will include installation of reinforced concrete boxes storm sewer pipers and shall complete associated appurtenances for the Barrett Station Drainage Improvements project.
Harris County Flood Control District shall construct three new stormwater detention basins south of Halls Bayou. Construction will include clearing of vegetation and installing of reinforced concrete pilot channels, concrete outfalls, backslope swales, and concrete outfall weirs and associated appurtenances for the Channel Conveyance Improvements and Stormwater Detention Basin on P118-08 project.
Harris County Flood Control District shall construct a stormwater detention basin and perform channel widening

in a section of Halls Bayou. Construction shall include clearing, grading, pipe removal, and installation of backslope swales, concrete interceptors, concrete lined pilot channels, and spillway and associated appurtenances for the Hahl North Stormwater Detention Basin project.
Harris County Flood Control District shall construct channel improvements by widening the existing channel along the bank of Hopper Road. Construction shall include excavation with intermediate shelf and side slope and associated appurtenances for the Halls Bayou Channel Conveyance Improvements Downstream of Hopper project.
This activity consolidates the overlapping service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective using Census Tract and Block Group ACS 2015 LMISD.

Location Description:

Construction shall take place in Harris County at Sandman Ave, Milo Dr, FM 1942, and Crosby-Lynchburg Rd for the Barrett Station Drainage Improvements project.
Construction shall take place in Harris County at Detention Basin 1-3 south of Halls Bayou for the Channel Conveyance Improvements and Stormwater Detention Basin on P118-08 project.
Construction shall take place in Harris County at Halh North Stormwater Detention Basin and Halls Bayou East of East Hardy Rd for Hahl North Stormwater Detention Basin project.
Construction shall take place in Harris County at Hall Bayou Channel south of intersection of Hopper Rd to Briarwick Ln for Halls Bayou Channel Conveyance Improvements Downstream of Hopper project.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed Harris County for costs associated with one (1) Flood and Drainage projects for its Mitigation Method of Distribution Program.

Activity Description:

1. Harris County shall install drainage improvements with an outfall into Cypress Creek which includes construction of a supplemental storm water system with reinforced concrete sewer trunk line, inlets, and manholes; regrading roadside ditches; sloping asphalt roadways; installation of driveway culverts; and completion of all associated appurtenances for the Dowdell Woods Subdivision project.
Harris County shall construct drainage improvements including ditch regrading, installation of RCP storm sewer trunk line, inlets, manholes, driveway culverts, roadway improvements with outfalls into Cypress Creek, and completion of all associated appurtenances for the Cypress Creek Estates Drainage Improvements project.
2. This activity consolidates the distinct service areas of the all listed projects into one total reportable area. The projected beneficiaries in the Measures tab represent the "Total Number of Perons" to benefit.

3. This activity meets the urgent need income national objective using surveys.
Please see the documents tab for the source data of the service area.

Location Description:

Construction for the Dowdell Woods Subdivision project shall take place in Harris County at William Dowdell Dr., Ramona Dr., and Jefferson Oaks.
Construction for the Cypress Creek Estates Drainage Improvements project shall take place in Harris County at the Cypress Creek Estates subdivision.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed Harris County for costs associated with two (2) Flood and Drainage project for its Urgent Need Mitigation Method of Distribution Program.

Activity Description:

Harris County Flood Control District shall make improvements along the channel bank and flowline in Taylor Gully, construct a wet bottom detention basin, replace the Rustling Elms Drive bridge class culvert with a bridge, and complete associated appurtenances for the Taylor Gully CCI and Woodridge Stormwater Detention Basin project.
Harris County Flood Control District shall construct two stormwater detention basins and conduct channel improvements along two segments of Cypress Creek, improvements include stabilizing bank slopes and installing maintenance berm and backslope swales with interceptors and outfall pipes. The associated basins will have a later weir and outfall pipe and complete associated appurtenances for the Cypress Creek Channel

Rehabilitation and Stormwater Detention Basin Main Stem Batch 5 project.
Harris County Flood Control District shall construct channel improvements consisting of reshaping, removal of impediments, removing and replacing existing outfalls and constructing a backslope swale system. Construction will include a wet-bottom detention basin establishing stable slopes and an inflow weir structure and shall complete associated appurtenances for the South Mayde Creek Channel Conveyance Improvements and Stormwater Detention Basins project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the low- and moderate-income national objective using Census Tract and Block Group ACS 2020 LMISD.

Location Description:

Construction shall take place in Harris County at Taylor Gully Channel Conveyance, S-3 Stormwater Detention Basin, and Rustling Elms Drive Bridge for the Taylor Gully CCI and Woodbridge Stormwater Detention Basin project.
Construction shall take place in Harris County at Kuykendahl Road Detention Basin, Cypress Creek Improvement Kuykendahl Road Crossing, IH-45 Detention Basin, and Cypress Creek Improvement IH-45 Crossing for the Cypress Creek Channel Rehabilitation and Stormwater Detention Basin Main Stem Batch 5 project.
Construction shall take place in Harris County at South Mayde Creek Channel, and Sand Pit Basin East of Ensbrook Meadow Ln for the South Mayde Creek Channel Conveyance Improvements and Stormwater Detention Basins project.

Activity Progress Narrative:

During the quarter, an amendment to the contract was executed to revise project scope.

Activity Description:

Harris County Flood Control District shall contstruct three stormwater detention basin compartments, associated weirs, outfall structures and shall complete associated appurtenances for the Stormwater Detention Basin on South Mayde Creek near Grand Avenue Parkway Phase I project.
Harris County Flood Control District shall construct a 414 acre-feet stormwater detention volume in the Clear Creek Watershed, which will include an inlet weir and outfall pipe into Cypress Creek and shall complete associated appurtenances for the West TC Jester Stormwater Detention Basin project.
Harris County Flood Control District shall replace two existing dry bottom stormwater detention basins and construct two additional basins along the southern bank of Willow Creek, construction shall also include inflow

and outflow structures and complete all associated appurtenances for the Boudreaux Stormwater Detention Basin Phase I project.
This activity consolidates the distinct service areas of each of the above projects into one total reportable area. The projected beneficiaries in the Measure tab represent the “Total Number of Persons” to benefit from all projects’ service areas. This activity meets the urgent need income national objective using Census Tract and Block Group ACS 2015 LMISD for all projects.

Location Description:

Construction shall take place in Harris County at W2, W3, and W4 Basins along Grand Parkway for the Stormwater Detention Basin on South Mayde Creek near Grand Avenue Parkway Phase I project.
Construction shall take place in Harris County at West TC Jester SWBD for the West TC Jester Stormwater Detention Basin project.
Construction shall take place in Harris County at Boudreaux SWDB West, Southwest, East and Southeast locations for the Boudreaux Stormwater Detention Basin Phase I project.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed Harris County for costs associated with one (1) Flood and Drainage projects for its Urgent Need Mitigation Method of Distribution Program.

Activity Description:

Harris County will offer a county-level CDBG-MIT (MIT) Infrastructure Program and develop a Method of Distribution (“MOD”) and Planning studies to encourage the prioritization of regional investments with regional impacts in risk reduction posed by hurricanes, tropical storms and depressions, flooding, wind and other hazards to develop disaster-resistant Infrastructure; upgrading of water, sewer, solid waste, communications, energy, transportation, health and medical, and other public Infrastructure to address specific identified risks; financing multi-use Infrastructure; and green or natural mitigation Infrastructure development.

Location Description:

Planning studies will take place throughout Harris County, focusing on areas that will benefit the most impacted

and distressed areas and mitigate from future disasters.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed Harris County for costs associated with one (1) project for its Mitigation Planning Program.
