Report

Provider will utilize this form to report progress quarterly, for the life of the contract and to submit a final project report. This Progress Report is to provide the GLO with evidence that the projects are attaining technical milestones and accomplishments necessary to achieve the objectives outlined in the original proposal. This is also an opportunity for your agency to identify any challenges or explain any desired changes in the composition, directions, or key personnel associated with the project. Finally, this report serves as a means to consult with specialists at the GLO and to detail the planned action for the project for the next reporting period.

Project Summary: Section 1 of Grant Application

**Texas General Land Office
Oil Spill Prevention and Response Program
Progress Report**

Deliverables/Timeline/Tasks: Section 4 of Application

Milestones and Accomplishments: Provide evidence that the projects are attaining technical milestones/accomplishments necessary to meet the objectives of the original proposal for the identified time period and/or overall objective:

Texas General Land Office
Oil Spill Prevention and Response Program
Progress Report

Identify problems or special opportunities which are critical to the progress of the research, and areas which may benefit from the consultation with specialists at the GLO:
