

Texas General Land Office

Mitigation Reallocation Program (MRP)

The Mitigation Reallocation Program (MRP) is designed to utilize deobligated and unutilized program funds to provide the opportunity for communities with mitigation needs to access remaining CDBG-MIT funds. The program budget is currently **\$92,000,000**. As additional funds are deobligated, the GLO may increase the funding available for MRP.

More information at
recovery.texas.gov/mrp

Eligible Project Activities:

- Flood and drainage improvements.
- Water system improvements.
- Wastewater improvements.
- Street improvements.
- Permanently affixed emergency communications equipment.

Eligible Entities:

- Units of local government (cities and counties)
- Indian Tribes
- Special purpose districts:
 - Municipal utility districts
 - Water control and improvement districts
 - Special utility districts
 - Flood and drainage districts
 - Navigation districts
 - Port authorities
 - River authorities
- Each eligible entity may submit up to three (3) eligible projects.

MRP two-phased process:

Step 1 – Call for Project Submissions

- Eligible entities submit brief project proposals through the Texas Integrated Grant Reporting (TIGR) system.
- Projects are scored using established criteria outlined in the Mitigation Action Plan, as amended, found on the GLO website.
- Submitting a project does not guarantee an invitation to apply.

Step 2 – Invitation to Apply

- Invitations are issued in score order.
- Invited applicants will submit a full application through the TIGR system.
- Invitations continue until available funding is fully allocated.
