FEMA-4245-TX
FEMA-4272-TX

Narratives

Disaster Damage:

In 2015 Texas had two separate events that qualified for appropriation under Public Law 114-113. Both events resulted from heavy rains and winds that caused severe damage across nearly half the State or 134,000 square miles. The May event (DR-4223), also known as the Memorial Day Floods, occurred May 4 to June 23, 2015, and resulted in a declaration for 113 counties across Texas. The event in October (DR-4245) occurred October 22 to October 31, 2015, and resulted in a declaration for 22 counties. In total, 116 counties were impacted by these disasters, with 19 counties being designated as impacted by both disaster declarations.
During the first part of May, many locations across the State received well above normal rainfall that saturated the soils. When the Memorial Day weekend arrived, much of the region was at least 2-4 inches (100-300%) above average. These conditions meant that new rain would become run-off directly into rivers, streams, and flash flood prone areas.Certain areas of Texas saw more than 20 inches of rainfall in a matter of days. In total, about 8million acre feet of water flowed into the State’s reservoirs.
Central and eastern Texas were also hit by dangerous flooding in October of 2015 when rainfall patterns converged with remnants of Hurricane Patricia. In total 22 counties were part of this disaster declaration (DR-4245).
GLO-CDR estimates a combined loss of over $2 billion in unmet long-term recovery needs when considering the impact of the multiple disasters suffered by Texas in both 2015 and 2016. The Texas counties impacted by these floods represent 76 percent of the Texas population, or 20.9 million people - a total population greater than that of 48 states.

Recovery Needs:

The State’s unmet need for non-housing totals $69,689,983 and increases to $80,143,480 when including a resiliency multiplier of 15% ($10,453,497). The data for housing unmet needs comes from TDEM and the National Emergency Management Information System (NEMIS) database. The State’s unmet need for housing totaled $69,440,104. This figure increases to $79,856,120 when including the resilience multiplier of 15% ($10,416,016).
Unmet need as identified by the Small Business Administration (SBA) is $132,391,924 for housing and $23,218,266 for businesses. Per FEMA and SBA data, unmet need for the state of Texas totals $315,609,790.
These estimates are only looking at FEMA IA and PA estimates and SBA estimates and do not take into consideration lost property valuation, sales tax revenue, unemployment, agricultural losses, and loss of tourism revenue.
Recognizing the State’s long and well-documented history of flooding, as well as its ongoing efforts to mitigate future flooding in our most vulnerable areas, the State is committed to rebuilding resiliently. In assessing unmet needs, it is important to consider the additional costs of safeguarding housing and community development investments from future disasters. GLO-CDR estimates a combined loss of over $2 billion in unmet long-term recovery needs when considering the impact of the multiple disasters suffered by Texas in both 2015 and 2016.

Overall Progress Narrative:

OVERALL NARRATIVE
During the reporting period, two contracts completed administrative closeout, all financial obligations were completed as recorded and accomplishments and beneficiaries were reported accordingly. All contracts, except those in the Disaster Recovery Reallocation Program which are progressing through construction, are in the closeout phase, undergoing financial and document review to be administratively closed in the upcoming quarters.

SUBRECIPIENT HOUSING & INFRASTRUCTURE
Three Disaster Recovery Reallocation Programs contracts for Jacinto City are active and moving through the contract lifecycle. All remaining 2015 Floods contracts have completed construction and are in various closeouts.

PLANNING
The only outstanding planning contract under this allocation, for the Texas Integrated Flood Framework (TIFF), has been completed. There are no additional planning contracts anticipated under this disaster.
