FEMA-4029-TX

Narratives

Disaster Damage:

According to the Texas Governor’s website, 2011 was one of the worst wildfire seasons in recent memory. While extensive areas of Texas experienced damage from the 2011 wildfire season, the most significant losses and major damage to homes, businesses, public lands (parks) and other public facilities (hospitals & schools) stemmed from a series of devastating wildfire events within the counties that were Presidentially declared disasters in the 2011 Federal Emergency Management Agency (FEMA) DR-4029-TX major disaster declaration.

Recovery Needs:

A total of 3.9 million acres and approximately 5,900 structures were damaged and/or destroyed in Texas during the 2011 wildfire season, which occurred from November 15, 2010 through October 31, 2011. Weather conditions combined with the availability of large amounts of dry fuels led to the intensity of these wildfires. Bastrop County specifically experienced the most destructive fire with a final count of 34,457 acres burned and 3,017 homes destroyed and/or severely damaged. According to HUD, the top five counties that were most severely impacted by the 2011 wildfire season were Bastrop, Marion, Upshur, Travis, and Montgomery respectively. Although the HUD Needs Assessment identifies both housing and business damage, the GLO has opted to provide housing assistance in Bastrop County only because of the limited housing damage in remaining declared counties. The GLO also reviewed FEMA Individual Assistance (IA) data (number of IA eligible households) in order to support the determination of providing housing assistance to Bastrop County only; according to FEMA the top five counties with the highest concentration of eligible households are Bastrop, Waller, Travis, Montgomery, and Marion respectively. At this time, the GLO has funded the housing needs of Bastrop County only. Those needs consist of single family non-rental rehabilitation/reconstruction, and down payment assistance for low-to-moderate (LMI) income families. According to the Texas Forest Service the county that received the highest amount of damage with respect to acreage burned was Cass County (42,630 acres lost), with Bastrop County (35,193 acres lost) coming in second. Based on these numbers, it is clear that the infrastructure needs stretch far beyond Bastrop County. Upon review of FEMA Public Assistance (PA) numbers (amount of federal share funding each county is eligible for) Bastrop was the most heavily affected, with Leon, Walker, Gregg, and Upshur counties coming in very closely behind. The GLO has funded the infrastructure needs of Bastrop County, Coryell County, Newton County, and Walker County. Those needs consist of fire protection/equipment, street improvements, flood/drainage improvements, debris removal, and construction of community centers.

Overall Progress Narrative:

OVERALL NARRATIVE
During the reporting period, the GLO expended all grant funds under the B-12-DT-48-0001 Wildfire I Grant. All financial draws have been processed, and all accomplishment and beneficiary figures have been reported, specifically for the Bastrop County contract which occurred during the quarter. Final expenditures in this quarter were derived from administrative services costs and a multi-grant funded planning study for the Texas Disaster Information System, TDIS. The GLO is expected to send the Request for Grant Closeout to HUD in the upcoming quarter.

Activity Description:

Contractor shall make repairs and improvements to infrastructure for drainage and erosion and sedimentation control as needed along existing County rights-of-way. Contractor shall purchase and install erosion and sedimentation control and infrastructure materials, and perform any site work, including endangered species monitoring associated with the construction to repair existing rights-of-way and culverts damaged by the wildfires. Proposed repairs and improvements will ensure proper function of the existing infrastructure and drainage system.

Location Description:

Construction shall take place at the following locations throughout the approximately ninety-four (94) linear miles of County rights-of-way located within the burn perimeter in Bastrop County, Texas: Burn Zone 1 in the Pioneer Pines Area [Exhibit 1 includes Alum Creek Dr., Bowie Dr., Dickenson Ln., Pine Valley Dr., Quiet Dr., Travis Rd. for approximately 742 l.f. with approx. 227 culverts]; Burn Zone 2 in the North Circle D Area [Exhibit 2 includes Blue Jay Rd., Bonham Ln., Buffalo Trl., CardinalDr., Cardinal Loop, Charolais Dr., Comanche Dr., Davy Crockett Rd., Jim Bowie Dr., Mallard Rd., N.Bob While Dr., N. Mockingbird Ln., N. Travis Ln., Pintail Ln., Plover Dr., Ponderosa Loop, Robin Rd., S. Bob White Dr., S. Mockingbird Ln., and Tonkawa Dr. for approximately 20,174 l.f. with approx. 2,474 culverts]; Burn Zone 3 in the South Circle D Area [Exhibit 3 includes Angus Ln., Brangus Ln., Bridle Ct., Cattlemens Dr., Charolais Dr., County Rd., Hereford Ln., Jersey Ln., Lariat Ct., Limousine Ln., Longhorn Dr., Mulberry Cv., Mulberry Ln., Painted Post, Pine Path, Rowel Court, Santa Gertudis Ln. for approximately 9,378 l.f.] with approx. 614 culverts; Burn Zone 4 in the KC Estates Area [Exhibit 4 includes Cassel Way, High Timbers Rd., KC Dr., Kelley Rd., N. Buckhorn Dr., Nugget Ln., Paintbrush Ln., Rainbow Dr., S. Bickhorn Dr.,Sage Rd., and Yucca Ln. for approximately 9,284 l.f.with approx. 572 culverts]; Burn Zone 5 in the Kinsey/Circle D East [Exhibit 5 includes Linda Ln., Lisa Ln., Pine Tree Loop, and Porter Rd. for approximately 8,282 l.f. with approx. 774 culverts]; Burn Zone 6, Pine Hill Estates Area [Exhibit 6 includes Boren Ln., Hillcrest

Dr., Kinsey Rd., Mustang Dr., Palamino Ct., Pinedale Dr., Pinehill Dr., Pinehollow Dr., Quarter Horse Loop, and Wildwood Dr. for approximately 6,105 l.f. with approx. 476 culverts]; Burn Zone 7, Tahitian Village Area [Exhibit 7 includes Akaloa Dr., Kaanapali Ln., Kainalu Ln., Kaohikaipu Dr., Makaha Dr., Mamalu Dr., Manawianui Dr., Mauna Kea Ln., Riverside Dr., Mauna Kea Ln., Mahalo Ct., Pahala Ct., Honopu Dr., Mahalua Ln., Kahalua Dr., Pukoo Dr., Alele Dr., Kipahulu Dr., Wiamea Ct., Pahoiki Ln., and Nakalele for approximately 10,080 l.f. with approx. 284 culverts]; Burn Zone 8, Pine Fores/Colo Vista Area [Exhibit 8 includes Colovista Dr., Crafts Prairie Rd., Green Acres Loop, Kaanapali Ln., Kainalu Ln., Lakeside Dr., Lakewood Ctl, Lakewood Dr., McAllister Rd., Oak Shadows Dr., Pine Shadows Ln., Pinecrest Dr., River Forest Dr., Timber Ln., W. Tanglebriar Ct., William Higgins Dr., Winfield Thicket Rd., and Woodland Ct. for approximately 45,425 l.f. with approx. 1248 culverts]; Burn Zone 9, Crafts Prairie Area [Exhibit 9 includes Alum Creek Rd., Forest Ln., Gotier Trace Rd., Harmon Rd., Peace Haven Ln., Pine Hill Loop, and Royal Pines Dr. for approximately 8,081 l.f. with approx. 624 culverts]; and Burn Zone 10, Cottletown Area [Exhibit 10 includes Cottle Town Rd., Gotier Trace Rd., Hidden Bluff, Long Trail, O'Grady Rd., Powell Rd., and Pinetree Loop for approximately 1,552 l.f. with approx. 72 culverts]. [Work limits associated with the project activities are contained within the existing County right-of-way (ROW) described as 25 feet from the centerline of the roadway, unless otherwise indicated.]

Activity Progress Narrative:

During the reporting period, this contract was administratively closed. All financial data is accurate and has been reconciled. All accomplishment and beneficiary data was confirmed and reported. Activity status was updated to completed.

Activity Description:

Contractor shall purchase and install a new approximately four hundred fifty foot (450 ft.) tall tower, a concrete climate controlled weather proof equipment shelter, an LED hazard lighting system, 18 KVA UPS system, 5-GTR 8000 repeaters, combiners and software, cabling, a transmitting/receiving and microwave antenna system, and provide other associated appurtenances and perform site work associated with construction. In addition, Contractor shall purchase and install one (1) fifty to two hundred kilowatt (50 kW - 200kW) generator with transfer switch, pad for generator mounting, and associated appurtenances. Construction shall take place at the Smithville Remote Tower. In addition, contractor shall purchase and install 5-GTR 8000 repeaters, combiners and software, cabling, a transmitting/receiving and microwave antenna system (Rosanky/KROX Remote Tower Only), and provide other associated appurtenances, and perform site work associated with construction. Construction shall take place at the following locations in Bastrop County, Texas: at the Bastrop Prime Tower, at the Elgin Remote Tower, and at the Rosanky/KROX Remote Tower. This Radio Tower activity was partially funded by the Wildfire II grant #B-13-DS-48-0001, and that activity also reported 4 public facilities for this radio tower project.

Activity Description:

Contractor shall construct two new roadway sections and improve an existing roadway section to connect an ingress/egress route of approximately 3.19 miles from Ulupau Circle at its intersection with Poi Court to a connection with SH 71. Section 1 will be new roadway approximately twenty-four feet (24 ft.) wide, including eight inches (8 in.) of flexible base layer on a sub grade stabilized with fly ash and lime. This section will include a box culvert structure creek crossing and 1 or more road crossing culverts. This section will include signage, marking, erosion control, seeding and right of way shaping, grading and compacting of the sub-grade. Pavement will be two-course aggregate surface or if budget permits, a two-inch (2 in.) asphaltic concrete surface. Section 2 will be a rehabilitated section of existing roadway approximately twenty-four feet (24 ft.) wide. Work will include clearing, shaping, excavation, grading and reworking of existing sub-grade and base. This section will include signage, marking, erosion control, seeding and right of way. Pavement will be two-course aggregate surface or if budget permits a two-inch (2 in.) asphaltic concrete surface. Section 3 will be a new roadway approximately twenty-four feet (24 ft.) wide, including eight inches (8 in.) of flexible base layer on a sub grade stabilized with fly ash and lime. This section will include a box culvert structure creek crossing and 5 or more road crossing culverts. This section will include signage, marking, erosion control, seeding and right of way shaping, grading and compacting of the sub-grade. Pavement will be two-course aggregate surface or a two-inch (2 in.) asphaltic concrete surface, if budget permits. Construction shall take place in Tahitian Village Subdivision in two phases with Phase 1 on New Roadway Section 1a from intersection of Ulupaua Circle and Poi Court to north end of Colovista Dr., on New Roadway Section 1b on Colovista Dr. to River Forest Dr., on Existing roadway section 2a on Colovista Dr. from River Forest Dr. to Oak Shadows Dr., on Existing roadway section 2b on Oak Shadows Dr., from Colovista Dr. to McAllister Dr., on New Roadway Section 3 from intersection of Oak Shadows Dr. and McAllister Rd. to SH 71, and with Phase 2 on Old Piney Trail from the existing East End to Squirrel Run (30.095081, -97.110223) in Bastrop, Texas.

Location Description:

Construction shall take place in two phases with Phase 1 and 2 in the Tahitian Village Subdivision as follows: on New Roadway Section 1a from intersection of Ulupaua Circle and Poi Court to north end of Colovista Dr., on New Roadway Section 1b on Colovista Dr. to River Forest Dr., on Existing roadway section 2a on Colovista Dr. from River Forest Dr. to Oak Shadows Dr., on Existing roadway section 2b on Oak Shadows Dr., from Colovista Dr. to McAllister Dr., on New Roadway Section 3 from intersection of Oak Shadows Dr. and McAllister Rd. to SH 71, and with Phase 2 on Old Piney Trail from the existing East End to Squirrel Run (30.095081, -97.110223) in Bastrop, Texas.

Activity Description:

The Texas GLO and A&M University are working to create and oversee a system capable of securing the state's disaster data needs, which will ultimately serve as a critical tool in assisting Texas communities to develop better disaster recovery and mitigation plans known as the Texas Disaster Information System (TDIS).

Location Description:

This planning tool will assist the communities impacted by this disaster and future fire-related disasters.

Activity Progress Narrative:

During the reporting period, the GLO reimbursed expenses to the Texas A&M University at Galveston for services for the Texas Disaster Information System, which is also funded from the Hurricane Harvey $5B and Mitigation grants.
