WHAT IS A HISTORICALLY UNDERUTILIZED BUSINESS?

A Historically Underutilized Business (HUB) is a business that is formed for the purpose of making a profit and is otherwise a legally recognized business organization under the laws of Texas. A HUB company must be at least 51 percent owned by one or more persons who are members of one of the following groups:

- African-Americans
- Native-Americans
- Asian Pacific-Americans
- Women
- Hispanic-Americans
- Service Disabled Veterans

The HUB owner must have a proportionate interest and demonstrate active participation in the control, operation and management of the company’s affairs. A HUB also must have its principal place of business in Texas. HUB certification with the state is always free and is valid for 4 years.

All businesses participating in the GLO’s HUB program must be certified by the Texas Comptroller of Public Accounts (CPA), the agency which oversees purchasing for state agencies. There is no fee to become HUB certified and certification lasts 4 years. HUBs are listed on the CPA’s HUB database, which is accessible to all state agencies.

HUBs also should consider being registered on the Centralized Master Bidders List, at a cost of $70/year. This is the database used by state purchasers when notifying vendors of solicitation opportunities. The CPA now offers on-line HUB certification and registration to the CMBL: www.comptroller.texas.gov

PROGRAM OBJECTIVES

The goal of the GLO’s HUB program is to increase procurement opportunities for minority, women and service disabled veteran owned businesses. The GLO is committed to developing its HUB program by actively working with both agency staff and the vendor community. Through the GLO’s HUB program, the GLO seeks to:

- Make a good faith effort to meet or exceed agency established HUB goals
- Assist businesses in obtaining Texas state HUB certification
- Increase the number of HUB businesses contacted for procurement opportunities
- Educate HUBs about the agency’s procurement policies and procedures
- Incorporate HUBs into all areas of agency purchasing activities

HUB SUBCONTRACTING

The CPA establishes term contracts for specific goods and services based on the overall needs of the state. Agencies must purchase these goods and services from term contracts whenever the items meet their functional requirements. The GLO uses term contracts to make routine purchases of items such as office furniture, equipment and supplies.

The GLO must evaluate probable subcontracting for all contracts with a value of $100,000 or more over the life of the contract, including any renewal options, and require a HUB Subcontracting Plan (HSP) form for contracts, where such opportunities exist. If the agency determines that subcontracting opportunities are probable an HSP is required for a bid or proposal to be considered responsive. The plan must demonstrate that good faith effort was made to subcontract work to HUB vendors. HUB prime vendors must also comply with HUB subcontracting plan requirements. Once an award has been made, the HSP becomes a part of the contract. Compliance with the plan is monitored throughout the contract term.

The GLO obtains the names of prospective vendors from the CMBL and HUB Directory maintained by the Texas Comptroller. The CMBL is a database of vendors who are registered to receive solicitation notices from Texas state agencies. Texas law requires state agencies to use the CMBL for all purchases that require competitive bidding or competitive sealed proposals. The CMBL registration is available on the Internet at: www.comptroller.texas.gov

VENDOR SELECTION THROUGH THE CENTRALIZED MASTER BIDDERS LIST (CMBL)

The CPA seeks to:

- Agencies receive HUB credit for their expenditures with your business in their semi-annual and annual HUB reports.
- An agency’s HUB participation helps to measure an agency’s good faith effort in the HUB program.
- HUB certification tracks the success of minority businesses in doing business with the state.

The GLO obtains the names of prospective vendors from the CMBL and HUB Directory maintained by the Texas Comptroller. The CMBL is a database of vendors who are registered to receive solicitation notices from Texas state agencies. Texas law requires state agencies to use the CMBL for all purchases that require competitive bidding or competitive sealed proposals. The CMBL registration is available on the Internet at: www.comptroller.texas.gov

WHY IS HUB CERTIFICATION IMPORTANT TO YOUR STATE AGENCY CUSTOMERS?

- Agencies receive HUB credit for their expenditures with your business in their semi-annual and annual HUB reports.
- An agency’s HUB participation helps to measure an agency’s good faith effort in the HUB program.
- HUB certification tracks the success of minority businesses in doing business with the state.

The GLO manages state lands, operates the Alamo, helps Texans recovering from natural disasters, helps fund Texas public education through the Permanent School Fund, provides benefits to Texas veterans, and manages the vast Texas coast. With hundreds of millions of barrels of crude oil and petroleum products passing through ports, bays and beaches along the Texas Gulf annually, the Texas General Land Office Oil Spill Prevention and Response team is on call 24/7, ensuring oil stays out of Texas coastal waters. The agency preserves our history, maximizes state revenue through innovative administration, and through the prudent stewardship of state lands and natural resources.
